Cleaning for Health

How can Rubbermaid help you achieve even better standards in cleaning?

Cleaning for health is a vital task carrying great responsibility. The standard of cleaning will be scrutinised by healthcare managers and the need to perform to the highest level is ever-present. As a result, you need the best cleaning products available, products you can rely on to get the job done without any hassle.

Did you know?

Time is money. Rubbermaid's range of advanced cleaning tools allows you to clean faster than ever before. Our internal testing has shown Rubbermaid's Pulse Mop to be 50% faster than traditional mop and bucket. The Pulse allows the user to direct a jet of water (or chemical) on to the target area, maximising efficiency and reducing the need to regularly move the mop to a bucket.

Rubbermaid will help you…

- Enable daytime cleaning services to reduce costs and improve cleaners' wellbeing.
- Provide healthy environments with the use of superior microfibre textiles.
- Offer ergonomic products to help your employees avoid injuries, strains and illnesses.
- Easier spot cleaning to help you keep your location in peak condition.

Rubbermaid's complete cleaning systems help you equip your team for every cleaning situation, from general to high-risk areas:

- Damp mopping: choose between traditional and microfibre mops.
- Dusting: a complete range of microfibre mops and high level solutions.
- Surface cleaning: the different textiles will clean glass and chrome better and easier.
- Mop buckets: single and double buckets with highly efficient wringing systems.
- Disinfecting bucket for healthier environments.
- Large range of cleaning carts to improve productivity.

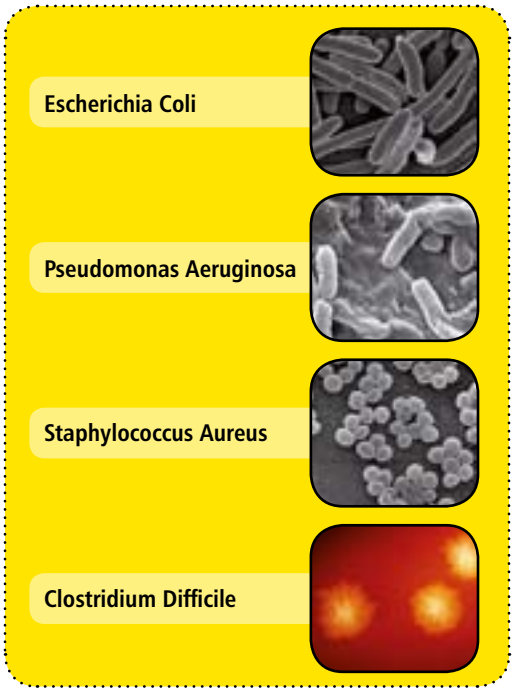
In addition to specialist cleaning equipment, Rubbermaid supplies a full range of cleaning solutions for hospitality environments, such as Housekeeping carts suited to every situation.

CLEANING FOR HEALTH
A complete system designed especially for high risk health environments.

SUPERIOR CLEANING FOR:
Superior INFECTION CONTROL

Dealing with germs has become a global problem.
Nosocomial Infections or Hospital Acquired Infections have become a major issue for the healthcare sector in many countries.

IN EUROPE 6 TO 10% OF PATIENTS CONTRACT NOSOCOMIAL INFECTIONS.



SUPERIOR PRODUCTIVITY

European employers must ensure the health, safety and wellbeing of their employees; this applies both to cleaning people working in-house and cleaning contractors. They need to equip their teams with productive and efficient tools that support RSI (Repetitive Stress Injuries) and MSDs (Musculoskeletal Disorders) reduction for common benefits.

THE RUBBERMAID HYGEN™ MICROFIBRE SYSTEM IS

75%

LIGHTER THAN TRADITIONAL CLEANING EQUIPMENT

Rubbermaid Commercial Products HYGEN™ SYSTEM

Proven Performance

TO ENSURE HEALTHY, SAFE ENVIRONMENTS

- Superior microfibre textiles proven to remove micro organisms[1].
- Helps reduce cross-contamination[2].
- Withstands up to 1000 commercial launderings.

Complete System

TO MAXIMISE productivity and value

- Reduces chemical consumption up to 95% vs. traditional mopping.
- Reduces water consumption up to 90% vs. traditional mopping.
- Cleans floors more than 3 times faster than traditional string mop FGS3.
- Proven to reduce worker strain.
- Features legendary Rubbermaid durability.

Training & Support

TO DELIVER OPTIMAL RESULTS

- Dedicated Rubbermaid HYGEN™ training team.
- Detailed guidelines for approved cleaning procedures.
- Comprehensive on-site implementation and training.

PROVEN TO REMOVE OVER

99.9%

of MICRO ORGANISMS

(vs. 67% with standard string mops)[1]

Rubbermaid HYGEN™ Clean Water System

Cleans the Water
SO YOU CAN CLEAN YOUR FLOORS.

* Test conducted by British Institute of Cleaning Science

SMARTER CLEANING

The new Rubbermaid HYGEN™ Clean Water System features a Filter Bucket and Wringer with built-in scrubbers to help loosen and remove debris from the mop. Twin rollers allow for optimised wringing efficiency, and an innovative filtering system processes dirty water into cleaner water with a simple tilt of the bucket.

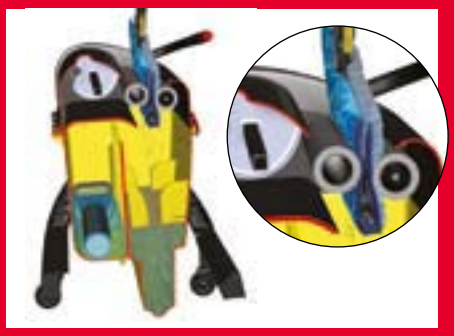
ROLLER WRINGER
Twin roller design provides optimised wringer efficiency.

See it in ACTION
www.rubbermaidcleanwater.eu

ADJUSTABLE MOISTURE LEVEL
Allows users to select desired mop dampness.

FLOOR DRAIN
Empties bucket without lifting.

RINSING AND SCRUBBING
Insert the mop into the bucket. Move the mop up and down to enable the built-in scrubbers to remove soil from the mop.



WRINGING
Adjust the dial to select your desired level of moisture. Lift the mop so the yellow dot is aligned with the top of the roller. Standing in front of the bucket, press the handle down to wring the mop.

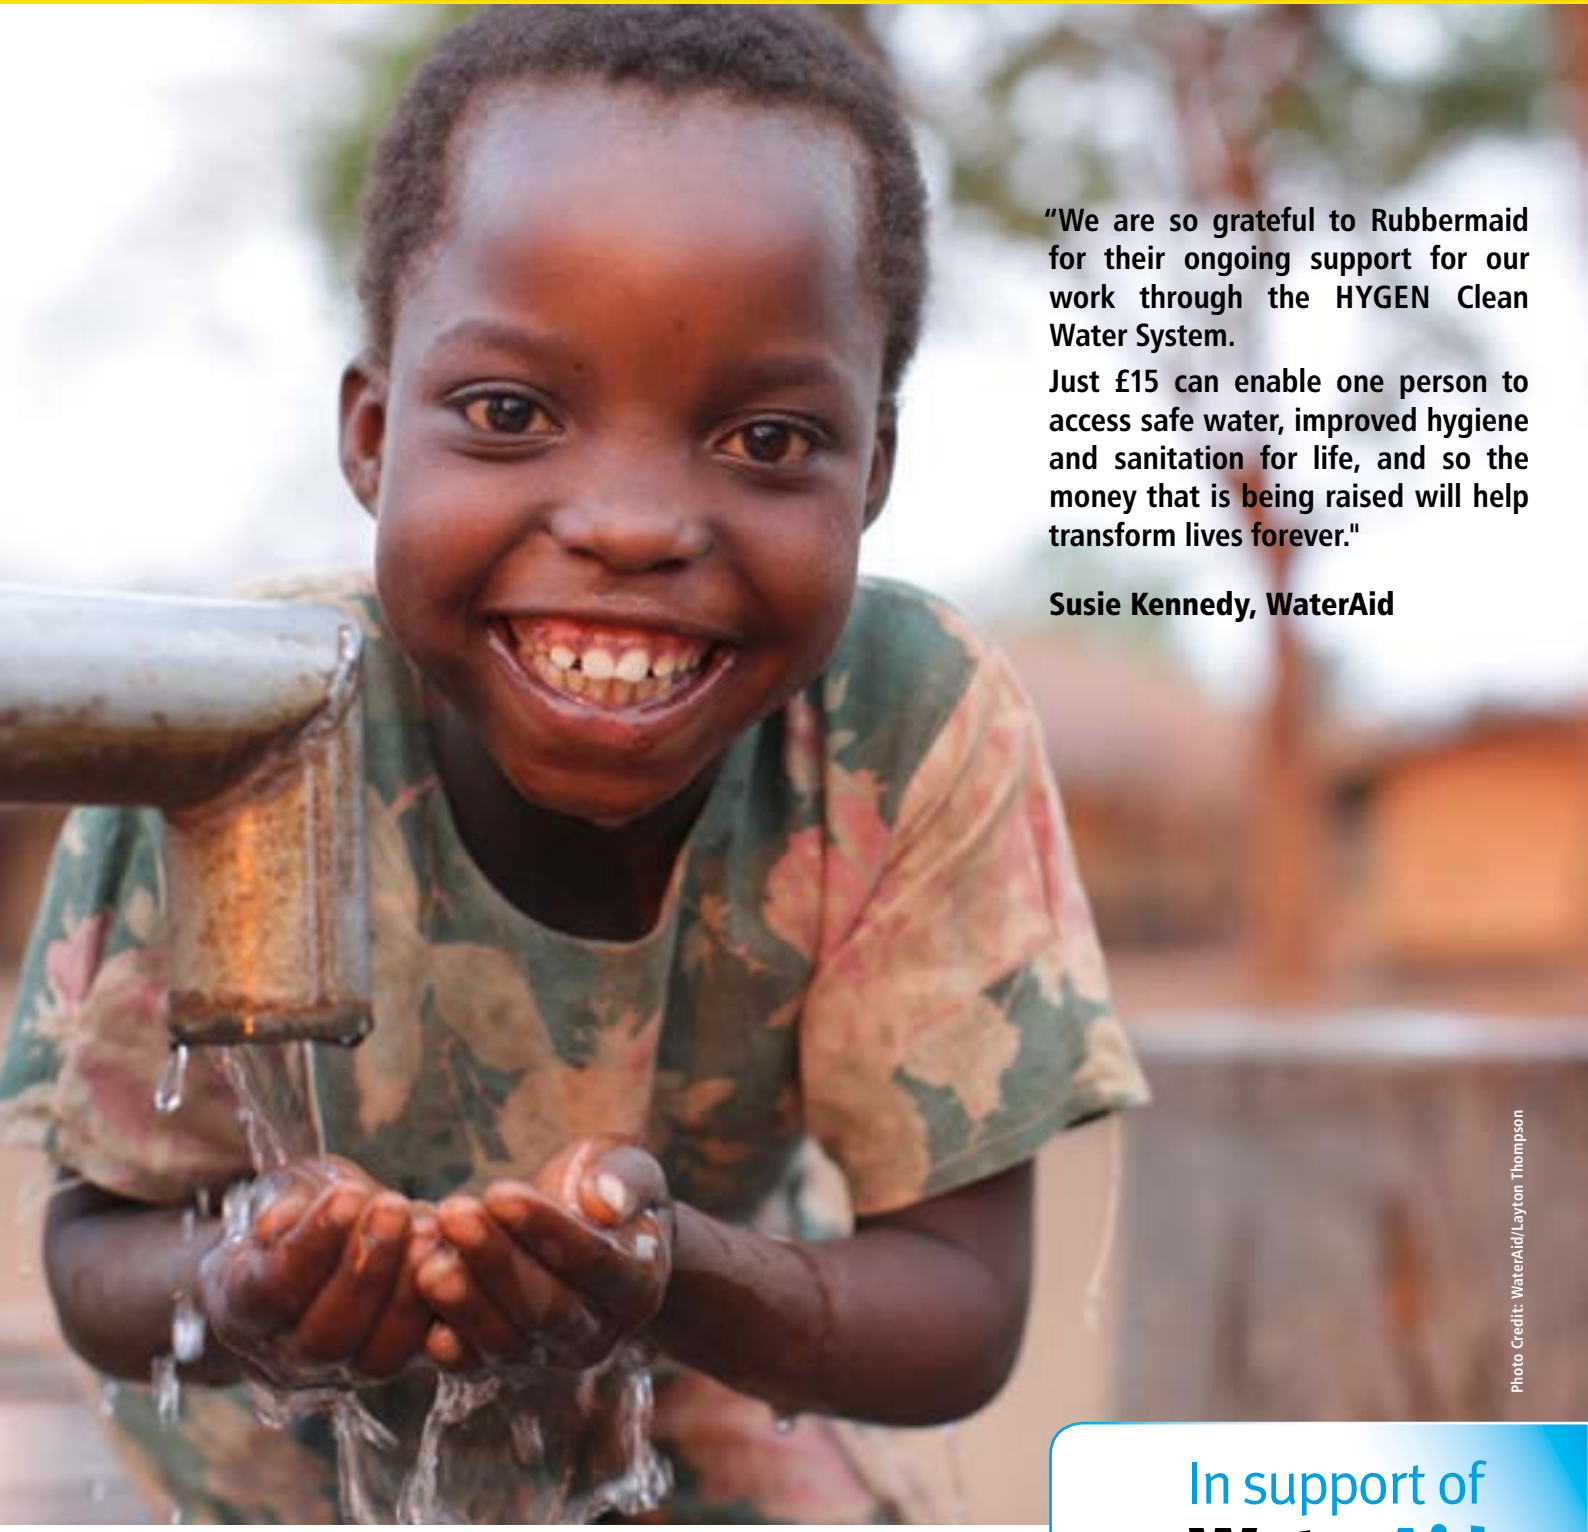
TRANSFERRING
When the mop water gets dirty, rather than having to dump the water and refill the bucket, tilt the bucket 90 degrees by pressing the handle. This allows the dirty water to transfer to the filter chamber.

FILTERING
Once the water is completely transferred to the filter chamber, rotate the bucket back to its original position. In just a few minutes, cleaner, filtered water will be available in the mop chamber, ready for more mopping.

A Complete System.

COMPLETE SYSTEM
Fits all Rubbermaid Commercial Products cleaning carts.

The matched system of Filter Bucket, Double-Sided Folding Frame, Microfibre Flat Mops and Handle are compatible with all Rubbermaid janitor carts.



"We are so grateful to Rubbermaid for their ongoing support for our work through the HYGEN Clean Water System.

Just £15 can enable one person to access safe water, improved hygiene and sanitation for life, and so the money that is being raised will help transform lives forever."

Susie Kennedy, WaterAid

Photo Credit: WaterAid/Layton Thompson

Rubbermaid Commercial Products is proud to be supporting WaterAid. WaterAid is an international non governmental organisation that uses practical and sustainable solutions to improve access to safe water, improved hygiene and sanitation in some of the world's poorest communities. WaterAid currently works in 27 countries in Africa, Asia, the Pacific region and Central America.

Starting in June 2011, and continuing for a period of not less than three years, Rubbermaid Commercial Products will donate a minimum of 1% of the value of sales of the Hygen Clean Water System to WaterAid.

Filter Bucket with Wringer Combo

Integrated filter to generate cleaner water!

- Integrated filter improves productivity and reduces chemical/water waste.
- Back-flushable filter is easy to use and maintain.
- Built-in agitators remove more dirt from mops.
- Twin roller design optimises wringer efficiency.
- Adjustable roller wringer accommodates different mop thicknesses and desired moisture levels.
- Floor drain for easy and fast emptying.

Rubbermaid HYGEN™ Microfibre Buckets

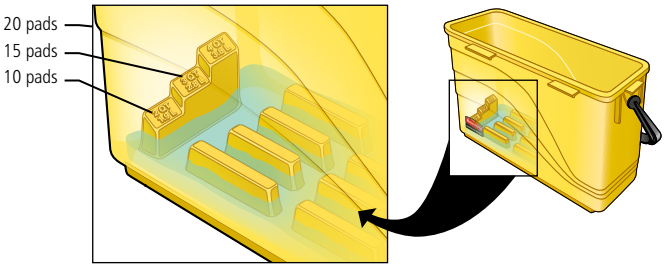
Rubbermaid HYGEN™ Microfibre Buckets complete a highly efficient flat mop cleaning system for healthcare and sanitary maintenance applications.

- Use with Rubbermaid HYGEN™ Microfibre Damp Mops and Quick-Connect tools for a continuous cleaning process.
- Easy-to-clean, lightweight non-porous plastic construction.
- Buckets work with all Rubbermaid HYGEN™ Microfibre Cleaning Carts.

FGQ95088YEL

Charging Bucket

- Reduces cross-contamination when a fresh mop is used for each room or area.
- All-plastic bucket holds 10–20 microfibre damp mops.
- Each mop holds enough liquid to clean up to 23 m^2; fully loaded bucket (20 mops) can clean up to 450 m^2.
- Safe for use in MRI rooms.



Bucket design prevents over-saturation of microfibre mops and features a measuring guide for filling with cleaning and disinfecting solution before mops are added.

Top Down Charging Bucket

- Sieve design enables users to effectively and ergonomically moisten mops.
- Holds up to 16 Double-Sided Microfibre mops (see page 54 for mop information).
- Reduces cross-contamination when a fresh mop is used for each room or area.
- Safe for use in MRI rooms.
- Best for use with Double-Sided Microfibre Mops.

USING THE TOP DOWN CHARGING BUCKET

1. Fold the mop in half with the face material inside. Place folded mop vertically inside the bucket.
2. Pour disinfectant over the hinged sieve to moisten the mops evenly.

1791802

Ref	Description	Material	Dimensions	Colour	Pack
FGQ95088YEL	Charging Bucket	Polypropylene	63.8 x 22.4 x 31.0 cm		1
1791802	Top Down Charging Bucket	Polypropylene	60.6 x 24.1 x 34.6 cm		3

Press Wring Bucket

- Use when flood cleaning or heavier liquid lay-down is desired.
- Press sieve provides easy, "no-touch" wringing.
- For use with microfiber flat mops up to 46 cm in length.
- Non-marking casters.
- Floor drain for fast emptying.
- Best for use with Single-Sided Microfibre Mops.

Unique, ribbed "washboard" surface removes dirt and debris from mops before wringing.

*The kit contains yellow Pulse. Can be replace with grey Pulse under request.

NON-SLIP TIP
- When placed against a wall this tip helps prevent the handle from sliding and falling.

TRIGGER HANDLE
- Red trigger handle dispenses the cleaning solution.
- One-handed operation. Helps reducing RSI (Repetitive Stress Injuries).

EASY REFILL
- Fill the reservoir with cleaning solution. Reservoir window allow easy monitoring of fluid level.

AESTHETIC ON-BOARD FLUID RESERVOIR
- High-capacity refillable reservoir holds 0.6 l of solution to clean up to 80 m² of floor space.
- Can be used with water only, bleach or cleaning solution.

QUICK-CONNECT SYSTEM

IMPROVED SYSTEM!
- Thicker, seamless bladder for improved durability
- Sturdier connection between frame and Pulse

ON-DEMAND DELIVERY
- Press the trigger handle to dispense three streams of cleaning solution behind the mop (non-atomising for greener cleaning).

PULSE™ can be used with different mops.
Please see page 58 for One-Sided Microfibre Mops or combine with Double-Sided Folding Frame and Microfibre Mops (see pages 53–54).

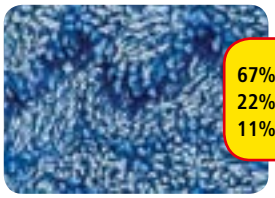
Rubbermaid HYGEN™ Microfibre Damp Mops

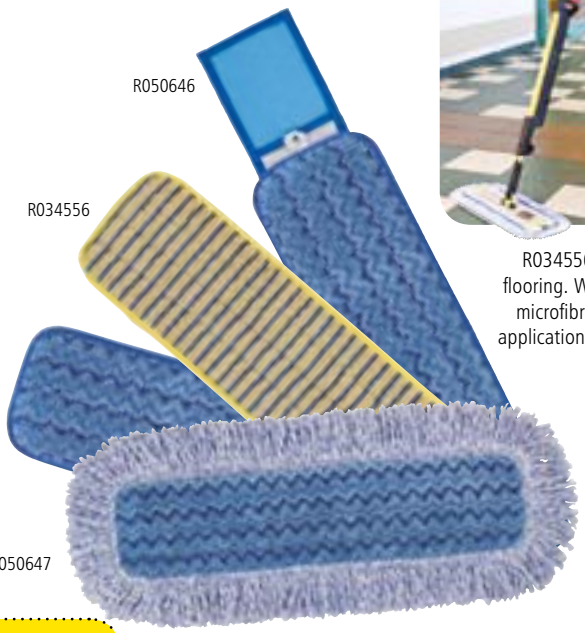
Superior microfibre is proven to remove micro organisms with non-disinfectant neutral cleaner.[1]

- Patented zig-zag scrubbing strips for cleaning tough, dried on stains.
- Reduces water consumption up to 90% versus traditional damp mops.
- 40 cm wet mops are colour-coded with 4 ribbons, help reduce the risk of cross-contamination.
- Velcro attach system.
- High absorbency mop holds up to 0.7 l of liquid.
- Frame and handle available page 63.

Colour-coded ribbons.



67% MICROFIBRE
22% POLYESTER
11% POLYPROPYLENE



R034556 recommended for safety flooring. Will not shred like standard microfibre pads. Unique single pad application for safety flooring, scrubs and cleans.

Bleach-safe durability

Bleach-safe microfibre textiles from Rubbermaid Commercial Products are proven to last longer and provide better cleaning efficiency than non-bleach-safe textiles.

- Rubbermaid bleach-safe microfibre withstands even the harshest high-PH detergents.
- Bleach sanitizes textiles when laundering below 90˚C (CDC minimum temperature when not using bleach).
- Bleach (hypochlorite based) solution is the only CDC recognised disinfectant for use in areas where Clostridium Difficile or Creutsfeldt-Jakob Disease may be present[2].

DURABLE UP TO
500
LAUNDERINGS (UP TO 200 WITH BLEACH)

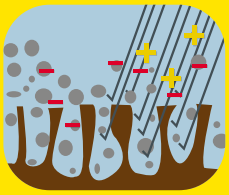
WITHSTANDS UP TO
90°C
WATER FOR BLEACH-FREE LAUNDERING

Good

MONOFILAMENT MICROFIBRE
- Cannot be split, one material (usually polyester), no hooks, larger size 20-40 microns

Better

UNSPLIT BLENDED MICROFIBRE
- Blend of polyamide and polyester, no hooks, medium size 15-20 microns



Best

SPLIT BLENDED MICROFIBRE
- Blend of 2 materials that are mechanically and chemically split 16 times to create ultra fine 3-5 micron[3] filaments

[1] Always use cleaning chemicals or disinfectants as directed by your facility manager.

Rubbermaid HYGEN™ Flexi Frame™

Clean faster and more effectively with new Rubbermaid HYGEN™ Flexi Frame™. Frame conforms to curved surfaces for better pickup of dirt and debris.

- Frame flexes to clean both contoured and flat surfaces.
- 5 specialised mops for every cleaning need.
- Patented arc shape pulls dirt, hair and debris toward the centre for better pickup.
- Proprietary flexible compound will not crack or split, even when used with bleach or peroxide.
- Use hand-held or with Rubbermaid HYGEN™ Quick-Connect handles and extension poles, excellent to clean hard-to-reach areas (see page 63).
- For all covers: 500 launderings without bleach, 200 launderings with bleach. *

Better surface contact. Flexible mop frame conforms to the shape of the surface being cleaned.

FGQ85500

Patented arc shape pulls dirt, hair and debris toward the centre for better cleaning.

PROPRIETARY FLEXIBLE COMPOUND

- Will not crack or split, even when used with bleach or peroxide.

- Use hand-held or with any Rubbermaid Quick-Connect handle.

Flexible frame provides better surface contact for more effective cleaning.

WITHSTANDS UP TO
90°C
WATER FOR BLEACH-FREE LAUNDERING

FGQ89100 FLEXI FRAME DAMP COVER
For general damp cleaning, with or without chemicals.

FGQ86100 FLEXI FRAME HIGH PERFORMANCE DUST COVER
Can be used damp or dry.

FGQ87100 FLEXI FRAME GLASS COVER
Specially designed for streak-free glass cleaning.

FGQ88100 FLEXI FRAME SCRUBBER COVER
Scrubber stripes clean stubborn dirt and soap scum on tub and tile surfaces.

FGQ85600 FLEXI FRAME DRY COVER
Picks up fine dust and debris for dry use only.

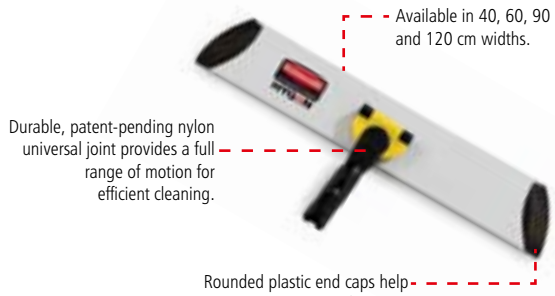
Rubbermaid HYGEN™ Quick-Connect Frames

Quick-Connect frames feature a flat profile that slides easily under furniture and equipment. Trapezoidal shape improves cleaning in corners and other hard-to-reach areas.

- Lightweight aluminium construction is safe for MRI rooms.
- Replaceable hook and loop strips attach all Rubbermaid HYGEN™ Microfibre Damp and Dust Mops.
- Rounded plastic end caps help protect walls and furniture.



Secure pad attachment. Aluminium frames have removable hook-and-loop strips on the underside for attaching pads. Replaceable strips slide into channels and are held in place by removable end caps.

Open-step Quick-Connect mechanism makes mop assembly and frame changes fast and esay.

FGQ57000 Quick-Connect frame with squeegee.

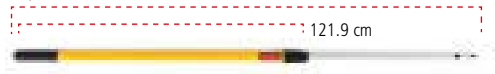
Rubbermaid HYGEN™ Quick-Connect Handles and Poles.

Rubbermaid HYGEN™ Quick-Connect Handles and Pole make cleaning more efficient in every area of your facility. The Quick-Connect mechanism allows easy, time-saving frame exchange.

- Lightweight aluminium construction is safe for MRI rooms.
- Handles available in straight or ergonomic bend styles, in adjustable lengths from 115 cm to 186 cm.
- Extension poles make quick work of high-reach cleaning tasks, with lengths up to 548.6 cm.
- FGQ70100 Quick-Connect adapter allows use of Quick-Connect handles and poles with any standard threaded tool.

FGQ74500 Extends from 50.8 cm to 101.6 cm.

FGQ75500 Extends from 121.9 cm to 182.9 cm.



FGQ75000

FGQ76000

FGQ77500 Extends from 182.9 to 548 cm!

NON-SLIP TIPS

- When placed against a wall, these tips help prevent the handles from sliding and falling (standard on all Quick-Connect handles and poles).

LARGE COMFORTABLE GRIP

- Provides better stability for cleaning high areas with extension poles.

RUBBERMAID HYGEN™

- Frames and handles contain non-magnetic aluminium and are safe to use in MRI rooms.

FGQ70100BK00

Can also be used in a push/pull style.

Uniquely shaped grip and ergonomic bend to minimise awkward position.

Rubbermaid HYGEN™ Microfibre Cloths

Industry-best microfibre cloths include patented zig-zag scrubbing strips and high quality knitting for better absorption and debris pickup.

- Double-finished edges provide durability and shape retention.
- Launder **500 times** without bleach or **200 times** with bleach.
- Withstands up to 90°C hot water for bleach-free sanitation.
- Colour-coded for general purpose and special applications.
- Smooth, blue knit for no-lint cleaning of glass and polished surfaces.

PROVEN TO REMOVE
99.9%
of microorganisms

REDUCE CROSS-CONTAMINATION
Rubbermaid HYGEN™ Microfibre Cloths are colour-coded to assist in cleaning by area or task and help reduce cross-contamination.

Microfibre Cloths - Yellow, red, green, and blue cloths for cleaning by area or task.

Cotton Flat Mops

- Looped-ends and tailbanding reduces tangling for like-new performance after every laundering.
- The 4-ply, balanced blend of cotton and synthetic yarn withstands repeated launderings without shrinkage.
- Antimicrobial protection prolongs the lifespan of the fringe and ensures maximum hygiene by inhibiting the growth of micro organisms.
- When used for wet cleaning: the Down Pressure Wringer with the Press Reducer R001589 in combination with the Combo Bravo Bucket or the Sani Duo are the ideal tool.
- When used for damp cleaning: combine the Combo Bravo Bucket or the Sani Duo with the Roller Wringer.

Web Foot® Microfibre Tube Mops

Designed to have greater floor contact and improved absorbency.

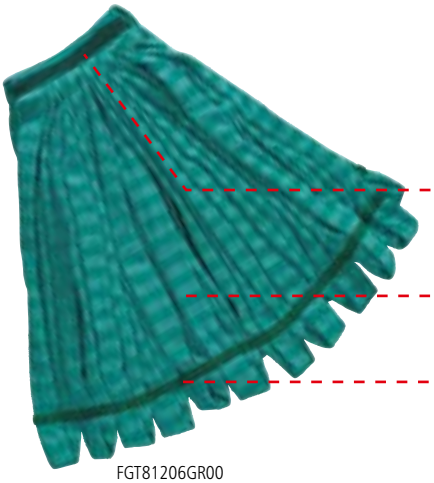
- Constructed with a blend of continuous filament microfibre and polyester.
- Triple the durability and withstands three times the number of launderings of standard blend mops.
- Superior absorbency and release characteristics.
- Tube design reduces drag for increased productivity.
- Lasts 200 launderings with bleach in 90°C water.
- Clean 54% faster than standard cotton mops.
- Ideal in combination with the Down Press Wringer and the Sani Duo or the Combo Bravo Bucket (see page 71-72).

RUBBERMAID WEB FOOT® MICROFIBRE MOPS PROVIDE MAXIMUM CLEANING POWER WITH BEST-IN-THE-INDUSTRY SPLIT MICROFIBRE YARNS.

COTTON FIBRE
- Cotton fibres are too large to clean crevices where bacterias, spores, and viruses hide.
- Tests prove cotton fibres remove only 65% of these contaminants.

TRADITIONAL NON-SPLIT MICROFIBRE
- While half the size of cotton fibres, non-split microfibre is still not fine enough to effectively remove pathogens.
- Tests prove non-split microfibre also leaves contaminants behind.

RUBBERMAID SPLIT MICROFIBRE
- Exceptionally fine, premium quality Rubbermaid split microfibre penetrates microscopic crevices where cotton and non-split microfibre cannot reach.
- Tests prove Rubbermaid split microfibre traps, holds and removes 95% of contaminants.



FGT81206GR00

DURABLE HEADBAND
PVC-coated mesh headband for longer product life.

BLEACH SAFE
in laundry and use.

DOUBLE-STITCHED TAILBAND
Improves durability and eliminates streaking.

Can be used with handle FGH14600 or handle R001531 in combination with mop holder R001530 (see page 69).

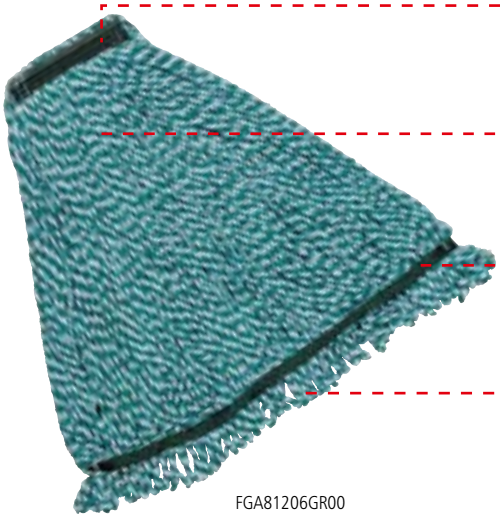
FGT81206GR00	Web Foot® Microfibre Tube Mop	Microfibre	400 g		6

Web Foot® Microfibre String Mops

Highly durable and absorbent for extra-long mop life.

- Constructed with a blend of continuous filament microfibre and antimicrobial yarn.
- Pre-laundered and pre-shrunk.
- Double the durability and withstands twice the number of launderings of standard blend mops.
- Recycled content: 21% post-industrial cotton and 28% PET plastic.
- Works with all traditional wet mop handles and frames.
- Ideal in combination with the Down Press Wringer and the single or double bucket and the Combo Bravo bucket or the Sani Duo.



FGA81206GR00

DURABLE HEADBAND
PVC-coated mesh headband for longer product life.

SHRINKLESS
Pre-laundered and pre-shrunk for long-lasting performance.

DOUBLE-STITCHED TAILBAND
for improved durability and launderability.

LOOPED-END BLENDED YARN
Provides superior absorbency and release for faster drying floors and improved productivity.

49% Recycled Content

Can be used with handle FGH14600 or handle R001531 in combination with mop holder R001530 (see page 69).

WaveBrake® Mopping Trolleys

The WaveBrake® Mopping Trolley combines all the accessories to optimise your cleaning effectiveness.

FG777700

- Down Press Wringer can be used with Kentucky or for flat mops with the press reducer R050163.

- Dirty Water Bucket separates dirty water from clean water.
- 33 l Bucket can be easily removed from dolly for emptying.

- Ergonomic handle for easy manoeuvrability.
- Can carry two safety signs.
- Removable Maid Caddy to store and carry cleaning supplies.

- Accessory Bucket for use in trash collection or extra storage of water or cleaning supplies.

- Quiet Caster Dolly, ideal for noise-sensitive environments.

Moulded-in WaveBrake®

This revolutionary bucket shape with moulded-in WaveBrake® inhibits wave formation, which greatly reduces splashing under typical usage.

WaveBrake® Combos

The WaveBrake® reduces splashing, which means a safer environment, cleaner floors and improved productivity.

- High efficiency Down or Side Press Wringer.
- Premium tubular steel and Structural Web moulded plastic.
- Dirty water separation (optional).

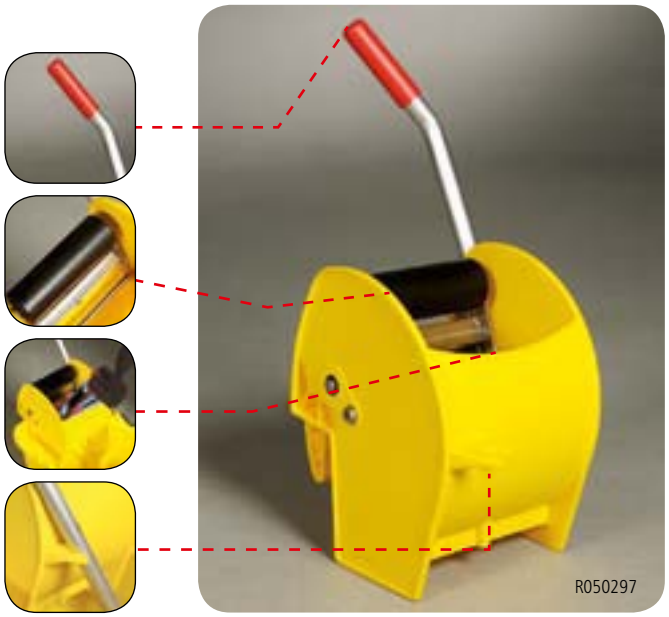
WRINGING SOLUTIONS
Roller Wringer

- Highly efficient wringer, withstands 25,000 wringing cycles
- Ergonomic aluminium handle, for easy and efficient wringing
- Integrated mop handle holder for easy transport
- Highly durable polypropylene and steel construction.
- Can be used with all types of flat mops.
- Roller Wringer is ideal for damp mopping: can be used with bucket to Combo Bravo or with Sani Duo bucket (see page 71)



R050297

Down Press Wringer

- Highly efficient wringer, ideal for daily professional tasks.
- Durable plastic construction.
- Ideal for Kentucky mops up to 500 gr.
- For flat mops use in combination with press reducer R001589.
- Can be used with bucket to Combo Bravo or with Sani Duo bucket (see page 71).

Floor and Carpet Sweeper

Smaller size gets into tight spots.

- Constructed of durable Galvanised steel and tough ABS plastic
- Efficient 16.5 cm sweep path
- Easy-open debris pan for effortless cleaning
- For bare floors or low pile carpets

FG421288BLA

Dual Action Sweeper

Two types of brushes provide maximum cleaning and versatility.

- Constructed of durable Galvanised steel and tough ABS plastic
- Dual debris pans with one-touch cleaning doors
- Wide 19 cm sweep path with protective bumper
- Soft rubber wheels and brushes conform to floor surface
- Designed for large debris as well as smaller crumbs and dirt
- For bare floors or low pile carpets

FG421388BLA

Brushless Mechanical Sweeper

The most versatile sweeper in the system, this model has non-marking rubber blades that effectively sweep up dust, debris, and spills from a variety of floor surfaces. Perfect for foodservice applications.

- Constructed of durable Galvanised steel and tough ABS plastic
- Low profile for easy access around and under furniture
- Tinted window allows you to see when the sweeper needs emptying
- Two debris canisters with one-touch emptying doors
- Soft rubber wheels glide easily on carpet, vinyl, tile, wood, and more
- Wide 19 cm sweep path with protective bumper

Lobby Pro® Wet/Dry Spill Pan

Offers users the ability to clean any type of spill, solid, liquid or a combination of both, without having to bend over or touch the spillage.

- The 2 l capacity smooth-skin Spill Pan has a wide sloping front end over which spills are transported into the pan using the Cleaning Wand.
- Beyond the peak of the slope is a drop-off that will not allow liquids to find their way back onto the floor surface.
- The front of pan area also includes a recessed and replaceable rubber blade that contours itself to uneven floor surfaces to help ensure that liquids will not find their way under the pan.
- Spill Pan includes a convenient indented foot rest that allows the pan to be held firmly in place.
- The Cleaning Wand allows users to quickly and effectively transport liquid or mixed spills from smooth or rough surface floors into the Spill Pan.
- The Cleaning Wand blade is made of a soft double moss squeegee foam and is supported by a galvanised metal frame.
- It also includes a 116.8 cm metal handle for wide area spill cleaning without bending over.

How can you provide even better hotel housekeeping services to your customers?

The hotel housekeeper is the guardian of a hotel's brand. Their job is vital to ensure that guests have an enjoyable stay, and that standards of hygiene are upheld.

The main challenges for the housekeeper often include:

- The need to reduce cleaning time.
- Maintaining clean corridors while performing normal housekeeping duties.
- The lack of storage space available.
- Providing a nominal level of security and looking to prevent theft from rooms.

Rubbermaid offers a wide range of ergonomic solutions that help housekeepers meet every challenge in:

- The High Capacity Cart is designed to service up to 16 rooms.
- For smaller hotels and limited storage, the Compact Folding Housekeeping Cart combines the best in functionality with a significant reduction in size when folded.
- Rubbermaid provides a selection of different designs and finishes to suit each hotel interior.
- To prevent theft, all carts are supplied with locking cupboard spaces, while the majority of models feature locking security hoods.

Did you know?

Not every hotel has wide, spacious corridors and large areas of room space to manoeuvre a cleaning cart. That is why Rubbermaid has designed the Compact Folding Housekeeping Cart to fold down to nearly 30% less than its original size.

PROTECTIVE SECURITY HOOD
- Lockable, to keep cleaning supplies and amenities concealed from view (optional).

MOULDED-IN HANDLES
- For easy mobility down halls and around corners.

LOCKING DOOR KIT
- Conceals contents to provide enhanced security.

LINEN ACCESSORY MESH BAG
- Attached to handle area, ideal for transporting additional clean towels/linens (optional).

SILENT NON-MARKING WHEELS
- (20 cm), two locking brakes. Aiding movement on all floor surfaces.

High Capacity Housekeeping Carts,

designed for larger hotels.
Fully equipped they can service up to 16 rooms.

They are both light and versatile with exceptional manoeuvrability, which helps to make the housekeeper more productive whilst helping to reduce strain and injuries.

FG618900 – LARGE HOUSEKEEPING CART
Shown with optional Linen Mesh Bag, Canvas Linen Accessory Bag and Locking Door Kit.

- Both handles include rubber Tool Grips that hold handles.

HIGH-CAPACITY FABRIC BAG
- Fabric bags hold up to to 128 l each, reducing the frequency of trips to empty filled bags. Zipped front access makes removing soiled linens easier. (Bags sold separately.)
