FS2410

Phoenix FS2410K / FS2410E Series
World Class Lateral Fire File

The Phoenix World Class Fire File FS2410 series offers unrivalled protection and capacity for documents and data† in a stylish modern lateral filing cabinet format. Ultra lightweight insulation materials also mean the cabinet can be used on most standard floors without the need for supporting.

- **Fire Protection (Paper)** – Tested to the Swedish NT Fire 017 – 60 Paper standard, providing 1 hour fire protection for paper documents.

- **Fire Protection (Data)** – 1 Hour fire protection for Computer tapes and digital media when stored in optional FSDPI09.

- **Water Resistance** – Water resistant seals prevent water damage to contents when cabinet is subjected to sprinklers systems or fire hoses.*

- **Locking (FS2410K)** – Fitted with a high Security plunger lock that operates independently on each drawer. This allows for any combination of open or locked drawers.

- **Locking (FS2410E)** – FS2414E Fitted with one high security user friendly digital electronic lock (Secu A) acting independently on each drawer. FS2412E fitted with a High security Digital electronic lock (Secu A) on each drawer giving individual control.

- **Capacity** – Able to accommodate Foolscap, A4 and A5 files on width adjustable rails.

- **Key Feature** – Cheaper per mm of filing compared to standard Vertical file**

- **Colour** – Finished in a high quality scratch resistant paint RAL9003 White.

PHOENIX SAFE COMPANY LIMITED

Phoenix Fire Files have been engineered to withstand temperatures in excess of 945°C for 1 hour and protect its contents not only from the heat generated but also the water that is used by the Fire Brigade to put the fire out.

Available in two or four drawer lateral versions, all our lateral files feature automatic locking with a single security lock acting on all drawers. Each drawer may be isolated to provide a combination of locked and unlocked drawers at any one time.

Also available as a combination 'Mixed Media File'. Data media such as computer disks and tapes require added protection from heat and moisture, extending the fire files capability to cater for this requirement is the media chest. This unique data protection unit, fitting snugly into the bottom drawer, provides for ease of use and ensures maximum protection for your valuable data.
