SILVER STORE 2-DRIVE NAS

REMOVABLE DUAL NETWORK HARD DRIVE / 3.5" / GIGABIT LAN / USB 3.0 HOST

ACCESS YOUR DATA ANYTIME ANYWHERE, WITHOUT THE NEED TO HAVE KNOWLEDGE ABOUT ROUTERS AND NETWORKING

Have internet access via a (Wireless) broadband/DSL router? In that case you also have a computer network! Take full advantage of your networking possibilities and install a network hard drive directly to your network router/switch! Any computer in your network can now benefit from the extra storage you've added to your network. The SilverStore 2-Drive NAS takes the concept of network hard drives even a step further. It has 2 hard drives inside, allowing for even more storage space or for extra safety features whereby one drive makes an exact copy of the other – always a safe backup! With the built-in free Tonido Private Cloud functionality you are able to access all your data wherever you are and whenever you need your data. Access it with iPhone , iPad or Android apps or use it with an Blackberry or Windows 7 Mobile phone. Your personal data is always there for you. The DLNA-compatible SilverStore 2-Drive NAS can be used as central storage location for all your (multimedia) files. Play your favourite music, movies or photos directly from the drive on any connected computer or supported mediaplayer. Next to downloading files from the internet via BitTorrent, you can auto-backup and copy files through the fast USB 3.0 host connector at the front or through the USB 2.0 host connector at the back. The SilverStore uses the licensed Paragon NTFS/HFS+ driver for faster write and read speeds. NFS and iSCSI is available as well so that the SilverStore is the ultimate storage device in your home or office. The SilverStore 2-Drive NAS features an easy to understand user interface and with a Network Assistant software tool, setting up the drive is very easy, no advanced knowlegde of computer networks required.

CENTRAL AND SAFE LOCATION FOR ALL YOUR MUSIC, MOVIES, PHOTOS AND DATA!

• Easy to use Network Attached Storage
• Easily accessible 24/7 with Private Cloud functionality on mobile phones, tablets and webbrowsers - powered by Tonido Private Cloud Software
• Connect to your network router or switch and access your data very easy through your local LAN with our Network Storage Assistant.
• 2 removable hard drives inside, configurable as JBOD (Single Drive), fast RAID 0 (2 drives as one big volume) or safe RAID 1 (mirroring)
• USB 3.0 Host port at the front and USB 2.0 Host port at the back of the device
• UPnP AV and DLNA compliant media server. Easily stream your digital audio/video/photo content to a media player or DLNA compatible TV
• Bittorrent client – download files directly to the SilverStore 2-Drive NAS. No need for your computer to remain switched on while downloading
• iTunes Support (DAAP) and Apple computers support for sharing and backup data. TimeMachine functionality supported (up to MAC OS X
   v.10.7 Lion)
• NFS and iSCSI support to use in home or office environments
• Windows filesharing, WebDAV & FTP functionalities for access documents over the network
• Workgroup and AD domain support
• HDD can be put in standby mode when the device is not active
• Support for Gigabit networks with Jumbo frames and MTU values
• High Quality design in heat absorbing aluminium enclosure with auto temperature controlled ball bearing cooling fan
• Multi lingual web interface (English, Dutch, German, French, Italian, Spanish)
• Two years manufacturer's warranty and unlimited free helpdesk support

INNOVATIVE GERMAN QUALITY

SAFETY FIRST!

The SilverStore 2-Drive NAS is an easy to use network drive with two hard drives inside for multiple configuration options. For example, it can be configured in such a way that one drive backs up the other – so if one of the drives fail, you will always have a copy of the data on the other drive. Rest assured, your documents, photos, movies and music will not be lost!

REMOVABLE

The hard drives of the SilverStore 2-Drive NAS can be easily removed from the enclosure, so you can replace the drives to increase the capacity if necessary. Removing the drives is simple: at the front of the device, unlock the removable rack and slide out the drive. The internal drive is mounted to the removable rack without any screws! Changing the drive really is child's play!

TONIDO PRIVATE CLOUD

Tonido is a software and service that can make files and media available to you anywhere through a webbrowser or from mobile phones. It is a new way to share your files, media and other information with anyone around the world without having to upload to third-party sites first. You have access to 100% of your files on the NAS from anywhere. You don't need to upload any files - all your files are directly served from the SilverStore. You don't have any storage limits - your hard drive storage capacity is the limit. Importantly, your data stays with you, providing complete privacy and control!
