Sharpness at any distance.

The TRAVELLER SH-60 has plenty to boast about, like its super-sharp image stabilisation (IS) technology. Thanks to the Hybrid 5-Axis Movie IS normally found in D-SLRs, this STYLUS compact digital camera effectively counteracts blur in all five directions. It's so stable and solid that you can actually make a movie as you run, entirely blur-free.

On top of all this, the SH-60 has a high-zoom lens of 24x optical zoom (48x Super Resolution Zoom) that lets you get close to the details from up to 40cm away - perfect for creating fascinating still shots or smooth 1080 Full HD movies. Packed with Photo Story, this pocket-sized wonder lets you create an artistic collage for sharing on social networks or printing to make a special gift.
