TimeMoto®

FP-150
USB FINGERPRINT READER

TimeMoto's portable USB fingerprint reader enables you to register an employee's fingerprint right at your PC, instead of at a time clock terminal. Just open your TimeMoto PC software and register the employee's fingerprint—all without leaving your desk. Within minutes, your employee can use his or her fingerprint to clock in and out at any terminal within your network, even at remote locations.

- USB fingerprint reader
- Register users' fingerprints directly at your PC
- Can also be used to log into your TimeMoto PC software
- USB connection cable included
