

Duax™

– a design-coordinated

Success

2-170 sheets
one size
fits all

LAST YEAR, RAPID'S DUAX stapler revolutionised office work. It staples 2-170 sheets using staples of the same length. So it cuts out the bother of keeping track of

different length staples for different staplers. The Duax now also comes in a design-coordinated set with the HDC65 hole punch (up to 65 sheets) and the electronic 5080e

stapler (2-80 sheets) The 5080e has a staple cassette. So it staples 5,000 times before you have to change cassettes. At long last, a tidy, functional office.
