

# **Material Safety Data Sheet**

#### 1. PRODUCT AND COMPANY IDENTIFICATION

ManufacturerDell Computer CorporationOne Dell WayRound Rock,TX 78682Information1-800-W W W-DELL

Emergency 1-800-551-8553

Product Name:

# Dell Color Laser Printer 3010cn YELLOW TONER WH006

#### 2. COMPOSITION, INFORMATION ON INGREDIENTS

Chemical Nature:

tatare.		
Chemical Name	Ingredients (% by wt.)	CAS Registry Number
Stylene/acrylate copolymer	60 - 70	
Mn-Mg-Sr ferrite powder	10 - 20	
Polyethylene	1 – 10	
Yellow pigment	1 – 10	
Amorphous silica	1 – 10	
Carbon black	< 1	1333-86-4

UN Hazard Class : None

UN Number : None

### **3.HAZARDOUS IDENTIFICATION**

Physical and Chemical Hazard: Adverse Human Health Effects: Environmental Effects:

rd: There are no significant hazards associated with this product. there are no significant hazards associated with this product. There are no significant hazards associated with this product.

### **4.FIRST-AID MEASURES**

Eye contact Skin contact	<ul><li>Flush with a large amount of water for at least 15 minutes. Seek medical advice.</li><li>Wash with soap and water.</li></ul>
Inhalation	: Remove from exposure and provide fresh air. Rinse mouth with water.
Ingestion	: Rinse mouth with water. Give several glasses of water to drink and seek medical advice.

1/3

#### 5.FIRE-FIGHTING MEASURES

Specified method	:	In case of fire use extinguishing media.
		When in a machine, treat as an electrical fire.

Extingishing media : Water spray, Foam, Dry chemicals

# 6.ACCIDENTAL RELEASE MEASURES

Shut off ignition sources. For small spills, sweep up or soak up with damp cloth. For large spills, wear proper protective equipment and collect them in closed container. Dispose off in accordance with national and local regulations.

### 7.HANDLING AND STORAGE

Handling	:	Do not incinerate toner or a toner cartridge. Do not dissemble a cartridge.
Storage	•	Keep in cool, dry and well-ventilated area. Keep out of reach of children.

# 8.EXPOSURE CONTROL /PERSONAL PROTECTION

Control Parameter ACGIH TLV (2009)	:	10 mg/m <sup>3</sup> (Total) 3 mg/m <sup>3</sup> (Respirable)
Precautionary Measures	:	None required when used as intended in Dell equipment. For use other than normal customer operating procedures(such as in bulk toner processing facilities), local exhaust ventilation may be required.
Personal Protective Equipment:		None required when used as intended in Dell equipment. For use other than normal customer operating procedures(such as in bulk toner processing facilities), protective glove, goggles and respirators may be required.

# 9.PHYSICAL AND CHEMICAL PROPERTIES

Appearance/Odor:
Boiling Point(OC):
Volatile (%):
Specific Gravity(H <sub>2</sub> O=1):
Solubility in water:

Yellow Powder / Faint Odor Not applicable Not applicable Not available Negligible

Vapour Pressure: Softening Point: Initial Boiling Point: Other Data: Not applicable Not available Not applicable None

# **10.STABILITY AND REACTIVITY**

Flash Point(OC)	:Not applicable	Auto-Ignition Temperature:Not applicable
Explosion Limit	:Not applicable	
Flammability	:Not flammable under condition	ons of use
Spontaneous Combustibility / Reactivity with water		:None
Self-reactivity / Explosive		:None
Dust Explosive	: Like most organic materials i air.	n powder form, it can form explosive mixtures when dispersed in
Stability and Reactivity	:Stable	
Other Data	:None	

# 11.TOXICOLOGICAL INFORMATION

Skin Corrosive Skin Irritant (rabbit) Human Patch	: None : Not an irritant <sup>1)</sup> : Not available	Eye Irritant (rabbit): Not an irritant <sup>1)</sup>		
Sensitization	: Skin (guinea-pig)	: Not a sensitizer <sup>1)</sup>		
	Swallowed LD50 (rat)		(prestically pop toxic)	
Acute Toxicity		6 6	(practically non-toxic)	
	Skin LD50 (rabbit)	$: > 5000 \text{mg/kg}^{(1)}$	(practically non-toxic)	
	Inhaled LC50 (rat)	: $> 4.1 \text{mg/L/4hr}^{11}$	(practically non-toxic)	

Chronic Toxicity : The results obtained from a supplyer sponsored, Chronic Toner Inhalation Study, demonstrated no lung change in rats for the lowest (1mg/m3) exposure level (i.e. the level most relevant to potential human exposure). A very slight degree of fibrosis was noted in 25% of the animals at the middle (4mg/m3) exposure level, while a slight degree of fibrosis was noted in all the animals at the highest (16 mg/m3) exposure level. These findings are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged period. This study was conducted using a special test toner to comply with EPA testing protocol. The test toner was ten times more respirable than commercially available supplyer toner, and would not be functionally suitable for Dell equipment.<sup>1)</sup>

Carcinogenicity : Carbon Black is classified as "Group 2B(possibly carcinogenic to humans)" by IARC. But we obtained the results from a Chronic Toner Inhalation Study, that commercially available supplyer toner has no evidence of human carcinogens. All other ingredients are not classified as "<u>Carcinogens</u><sup>ref.1</sup>".

Mutagenicity: Ames Assay: <u>Negative</u><sup>1)</sup>

Reproduction and Development: Not classified as "Reproductive and Development chemicals ref.2".

1) This information is based on toxicity data for similar materials and ingredients.

#### 12. ECOLOGICAL INFORMATION

Biodegradability	: Not available.
Bioaccumulation	: Not available.
Acute Toxicity	: 96hr LC 50 : > 500mg/L <sup>1)</sup>
	48hr EC50(Daphnia magna): $>100 \text{mg/L}^{1}$
Other Information	: None

(practically non-toxic) (practically non toxic)

\_\_\_\_\_

1) This information is based on toxicity data for similar materials and ingredients.

#### 13.DISPOSAL CONSIDERATION

Dispose off in accordance with national and local regulations.

### 14.TRANSPORT INFORMATION

Transport in accordance with national, and local regulations.

# **15.REGULATORY INFORMATION**

Ensure this product in compliance with national requirements and ensure conformity to local regulations.

#### **16.OTHER INFORMATION**

The above mentioned data correspond to our present state of knowledge and experience, but no warranty is made. Users should consider these data only as a supplement to other information and must make independent determination of the suitability and completeness of information from all sources to ensure proper use and disposal of the materials and safety and health of employees and customers.
