## High duty, high performance 9-pin dot matrix printers with truly versatile paper handling

### Fast, reliable printing for demanding environments

The ML5720eco and wide carriage ML5721eco dot matrix printers deliver fast, reliable multi-part forms printing and low running costs. Their high 700cps (characters per second) print speeds, fast throughput and ability to manage heavy medias make them perfect for demanding environments such as vehicle repair/service centres, warehouses, factories, wholesalers and freight forwarders.

Ideal for high duty applications, printing receipts, invoices, picking lists, reports or spreadsheets, on single or multi-part paper, the ML5720/1eco printers will keep productivity levels high. And with multiple emulations, replacing slow or failed printers is simple and straightforward.

- Impressive 700cps print speeds
- 9-pin print head for optimum performance and quality
- Microline, Epson FX and IBM PPR compatibility
- Simple 'Clean hands' ribbon changing

### Truly versatile paper handling

The ML5720/1eco printers can feed both cut sheet paper and continuous forms with ease. Front, top, bottom and rear paper input paths and

an on-board tractor feed unit that can be front or rear mounted provide truly versatile paper handling. A long life 9-pin print head delivers high quality documents on single or multi-part paper, printing up to 7 copies simultaneously.

- Four paper paths handle cut-sheet paper and continuous forms
- Print single or multi-part papers up to 7 copies

Optional push and pull tractor units are available to allow the loading of two different media types simultaneously or the feeding of heavier papers and labels. A Roll Paper Stand option is available for the ML5720eco for economical printing of passenger lists, call logs, data logs etc.

### Eco-friendly and cost effective

Equipped with long life ribbons and a power saving 1.5W "Sleep mode" the ML5720/1eco printers will keep running costs and energy consumption to the minimum, as well as reducing your carbon footprint.

- Long life ribbons keep running costs low (8 million characters ML5720eco, 13 million characters ML5721eco)
- Eco-friendly technology, "Sleep mode" consumes just 1.5W
- Manufactured at a CarbonZero rated facility
