ODMS R7 - Olympus Dictation Management System

- Modern flat design (GUI)

- Classic Dictation
- Advanced Transcription
- Secure Workflow

- Seemless interface to Dragon Speech Recognition
- Automatic Transcription
- Support of RecMic II
- Efficient document creation

ODMS R7

ODMS R7 provides two modules designed for the two key roles in professional dictation. Depending on the purchased dictation hardware the customer gets either a license for the Dictation Module or for the Transcription Module. Both modules have an interface to the locally installed speech recognition software, Dragon by Nuance. By this means the customer is free to decide between three methods of turning speech into text: Classic Dictation, Automatic Transcription and Advanced Transcription.

ODMS R7 as a Standalone Mode is typically installed into environments that do not have a requirement for centralized management and deployment. Standalone mode is better suited for smaller network environments where dictations are likely to be stored on a single server/host machine or e-mailed to the transcriptionist.

Specifications

Dictation / Transcription

Note:	Applies to Dictation / Transciption Module only
Role	Author / Typist
Available licenses	Dictation Module / Transcription Module
	(Per running instance, # of installations unlimited)
Single License Key	Yes / Yes
Volume License Key	Yes / Yes
Receiving / Importing Dictations	
Via WLAN	Yes / No
	-
Via USB	Yes / Yes
Automatic import from Emails	(only documents) / Yes
Sending Dictations	
Dictation workflow via shared network folders	Yes / Yes
FTP	Yes / Yes
E-Mail	Yes / Yes
DSS Pro file encryption	Recording & Playback / Playback
	256-Bit AES encryption

Transcription with Speech Recognition

Note: Software Dragon

Software Administration

Note:	Applies to Administration Package for Central administration only
Required licenses	Volume License for ODMS DM and TM required
	1 license per server for SCP
SCP – System Configuration Program	Yes (Browser based)
Central device configuration	Yes
Administration of users and groups	Yes
AD import	Yes (without user heritage/ permissions)
Setup dictation workflows	Yes
Central license management	Yes
Lock features for users	Yes
MST File Generator for silent installation	Yes
Print device list	Yes
System and file backup	Yes
Monitoring Console	Yes
File downloader for clients	Yes
Citrix & Terminal Server Support	Yes
Thin Client support	Yes
Special DS-9500 features	
Wireless Communication Service	Yes
Wifi / SSID network management	Yes
Wireless device configuration	Yes
Dictation Status on device	Yes
Central administration via SCP	

Operating Systems & Requirements

HDD Space	At least 2 GB of free space (Separate free space for .Net Framework is required)
Memory	1 GB or more (x86) / 2 GB or more (x64)
	All server versions require 2GB or more.
Display	1024 x 768 pixel resolution or higher
	65,536 colours or more (min. 16.77 million colours recommended)
.NET Framework	4.6 or later
Standalone Installation	
Microsoft® Windows® 7	Ultimate / Enterprise / Professional / Home Premium (x86/x64)
Microsoft® Windows® 8 / 8.1 Update	Enterprise / Pro / 8.1 Update (x86/x64)
Microsoft® Windows® 10	Home / Pro / Enterprise (x86/x64)
CPU	1 GHz or faster
Workgroup Installation*	
Client Operating Systems	Same as Standalone Operating Systems
Server Operating Systems	As follows:
Microsoft® Windows Server®	- 2008 SP2 (x86/x64)
	- 2008 R2 SP1 (x86/x64)
	- 2012 (x64)
	- 2012 R2 (x64)
	- 2016 (x64)
CPU	Microsoft® Windows® 7: 1 GHz or faster (x86) / 2 GHz or faster (x64)
	Microsoft® Windows® 8.1: 2 GHz or faster
	Microsoft® Windows® 10: 1 GHz or faster
	Microsoft® Windows Server® 2008: 2 GHz or faster
	Microsoft® Windows Server® 2012: 2 GHz or faster
	Microsoft® Windows Server® 2016: 3.1 GHz or faster
Thin Client models	Several models supported. Get in touch with us and ask for the particular support of your model.

Supported Virtual Environment Platforms

Remote Desktop Service (Windows Terminal Service)	Microsoft® Windows Server® 2008 – 2016
	Requires separate RDS (TS) CAL License
RemoteApp	Microsoft® Windows Server® 2008 / 2012 R2
	Requires separate RDS CAL license
Citrix XenApp	XenApp 5/6/7 – 7.15
Citrix Desktop	XenDesktop 7 – 7.15
Citrix Client applications	Citrix Receiver 4.0 or later
Vmware View	VMware Horizon View 5/6
	Note: Using Citrix virtual environments or VMware requires user licenses from the particular software vendor.

Compatible Software

Browser	Microsoft® Internet Explorer 6.0 or later (with the latest Service Pack applied)
Microsoft® Office	Office 2010 / 2013 / 2016 (32bit / 64bit)
Web mail	
	Outlook.com
	Outlook Web App for Office 365
	Google
	Yahoo!
Supported Speech Recognition Software	
Dragon® Professional	Individual/Group v14 -15
Dragon® Legal	Individual/Group v14 - 15
	Speech recognition functions are not supported when ODMS R7 is being used in a virtual environment.
