#### 4. First aid measures

**If inhaled** Remove to fresh air. If symptoms persist, get medical attention.  
**If on skin** Wash affected areas thoroughly with mild soap and water. Get medical attention if irritation develops or persists.  
**If in eyes** Do not rub eyes. Immediately flush with large amounts of clean, warm water (low pressure) for at least 15 minutes or until particles are removed. If irritation persists get medical attention.  
**If swallowed** If ingestion of a large amount does occur, seek medical attention.

---

#### 5. Fire-fighting measures

**Extinguishing media** For small (incipient) fires, use media such as foam, sand, dry chemical, or carbon dioxide. For large fires use very large (flooding) quantities of water and/or foam, applied as a mist or spray.  
**Extinguishing media to avoid** None known.  
**Specific methods** None established.

---

#### 6. Accidental release measures

**Personal precautions, protective equipment and emergency measures** Wear appropriate personal protective equipment.  
**Environmental precautions** Do not let product enter drains. Do not flush into surface water or sanitary sewer system.  
**Methods or materials for containment and cleaning up** Dike the spilled material, where this is possible. Absorb with inert absorbent such as dry clay, sand or diatomaceous earth, commercial sorbents, or recover using pumps.

Carbon black is classified as a carcinogen by the IARC (possibly carcinogenic to humans, Group 2B) and by the State of California under Proposition 65. In their evaluations of carbon black, both organizations indicate that exposure to carbon black, per se, does not occur when it remains bound within a product matrix, specifically, rubber, ink, or paint. Carbon black is present only in a bound form in this preparation.
