

Speakerphone Series

Conference calls with style and reach

The Sennheiser Speakerphone Series of compact, portable speakerphones is designed to provide scalable conferencing solutions for business professionals.

Flexible enough to handle a single mobile phone to a packed conference room it is possible to set up a conference call at a moment's notice in any location or use the speakerphones as part of a permanent conference room solution.

The Sennheiser Speakerphone Series ensures an outstanding communication, music and multimedia experience. Both callers and listeners experience a more natural interaction, making conference calls less stressful and more productive.

With its premium materials, the Speakerphone Series incorporates flexible conferencing tools for both in and out of the office.

BENEFITS & FEATURES

- **Ease-of-use**
Set-up a conference call seamlessly and instantly, with an audio-conference solution that is easy to connect, intuitive to manage and configures itself automatically
- **Natural conversation experience**
With Sennheiser Voice Clarity and echo and noise-cancelling microphone(s)
- **Match your meeting**
Scalable audio conference solution that can adapt from small and portable speakerphones on hand at all times, to a bigger set-up for large meeting rooms
- **Iconic Sennheiser design**
With premium materials and craftsmanship
- **Flexible connectivity options**
Choice of Bluetooth®, USB-C, USB or 3.5 mm jack plug'n'play connectivity
- **Exceptional audio performance**
With renowned Sennheiser sound quality and sound-enhancement profile* for audio streaming
- **Conferencing across devices****
Merges softphones/PC and mobile calls into one conference and allows you to talk simultaneously on PC and mobile calls

*Applies to SP 30
