Remarks

For full text of Hazard- and EU Hazard-statements: see SECTION 16. All the percentages given are percentages by weight unless stated otherwise.

SECTION 4: First aid measures

4.1 Description of first aid measures

General notes

Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.

Following inhalation

Provide fresh air. If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. In case of respiratory tract irritation, consult a physician.

Following skin contact

Brush off loose particles from skin. Rinse skin with water/shower.

acc. to Regulation (EC) No. 1907/2006 (REACH)

Degreaser

Version number: GHS 1.0

Date of compilation: 2017-02-06

Following eye contact

Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh water for at least 15 minutes, holding the eyelids apart.

Following ingestion

Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting. Call a POISON CENTER or doctor if you feel unwell.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms and effects are not known to date.

4.3 Indication of any immediate medical attention and special treatment needed For specialist advice physicians should contact the anti poison control centre.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media Water; Foam; Dry extinguishing powder; ABC-powder

Unsuitable extinguishing media Water jet.

5.2 Special hazards arising from the substance or mixture

Deposited combustible dust has considerable explosion potential.

Hazardous combustion products During fire hazardous fumes/smoke could be produced.

5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Co-ordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

Special protective equipment for firefighters

Self-contained breathing apparatus (EN 133). Standard protective clothing for firefighters.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Remove persons to safety. Ventilate affected area. Control of dust.

For emergency responders

Wear breathing apparatus if exposed to vapours/dust/spray/gases. Use personal protective equipment as required.

6.2 Environmental precautions

Keep away from drains, surface and ground water. Retain contaminated washing water and dispose of it.

6.3 Methods and material for containment and cleaning up

Advices on how to contain a spill Covering of drains. Take up mechanically.

Advices on how to clean up a spill Take up mechanically.

acc. to Regulation (EC) No. 1907/2006 (REACH)

Degreaser

Version number: GHS 1.0

Date of compilation: 2017-02-06

Other information relating to spills and releases

Place in appropriate containers for disposal. Ventilate affected area.

6.4 Reference to other sections

Hazardous combustion products: see section 5. Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Recommendations

- measures to prevent fire as well as aerosol and dust generation

Use local and general ventilation. Take precautionary measures against static discharge. Use only in well-ventilated areas. Ground/bond container and receiving equipment.

- specific notes/details

Dust deposits may accumulate on all deposition surfaces in a technical room. The product in the delivered form is not dust explosion capable; the enrichment of fine dust however leads to the danger of dust explosion.

Advice on general occupational hygiene

Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.

7.2 Conditions for safe storage, including any incompatibilities

Managing of associated risks

- explosive atmospheres Removal of dust deposits.
- flammability hazards

Keep away from sources of ignition - No smoking. Take precautionary measures against static discharge.

- incompatible substances or mixtures Observe hints for combined storage. Keep away from alkalis, oxidising substances, acids.

Control of effects

Protect against external exposure, such as High temperatures.

Consideration of other advice

Store in a well-ventilated place. Keep container tightly closed.

- ventilation requirements

Use local and general ventilation.

7.3 Specific end use(s)

There is no additional information.

acc. to Regulation (EC) No. 1907/2006 (REACH)

Sodium dodecylben- zenesulfonate	25155-30-0	PNEC	1 ^{mg} / _l	aquatic organisms	marine water	short-term (single instance)		
Sodium dodecylben- zenesulfonate	25155-30-0	PNEC	0.654 ^{mg} / _l	aquatic organisms	water	intermittent re- lease		
Sodium dodecylben- zenesulfonate	25155-30-0	PNEC	50 ^{mg} /I	aquatic organisms	sewage treatment plant (STP)	short-term (single instance)		
Sodium dodecylben- zenesulfonate	25155-30-0	PNEC	27.5 ^{mg} / _{kg}	aquatic organisms	freshwater sedi- ment	short-term (single instance)		
Sodium dodecylben- zenesulfonate	25155-30-0	PNEC	2.75 ^{mg} / _{kg}	aquatic organisms	marine sediment	short-term (single instance)		
Sodium dodecylben- zenesulfonate	25155-30-0	PNEC	25 ^{mg} /kg	terrestrial organisms	soil	short-term (single instance)		

8.2 Exposure controls

Appropriate engineering controls General ventilation.

Individual protection measures (personal protective equipment)

Eye/face protection

Goggles to be worn for preparation/dilution of the sachets only. Goggles are not required for normal use of the ready to use product.

Skin protection Protective clothing (EN 340).

- hand protection

Chemical protection gloves are suitable, which are tested according to EN 374. The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

acc. to Regulation (EC) No. 1907/2006 (REACH)

Degreaser

Version number: GHS 1.0

Date of compilation: 2017-02-06

- type of material Nitrile rubber
- material thickness
 - ≥ 0,4 mm
- breakthrough times of the glove material >120 minutes (permeation: level 4).
 - >120 minutes (permeation: lever 4)
- other protection measures Take recovery periods for skin regeneration. Preventive skin protection (barrier creams/ointments) is recommended. Wash hands thoroughly after handling.

Respiratory protection

In case of inadequate ventilation wear respiratory protection. P2 (filters at least 94 % of airborne particles, colour code: White).

Environmental exposure controls

Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance

Physical state	solid (powder)
Colour	yellow
Odour	characteristic

Other safety parameters

pH (value)	9 (10 ^g /i)
Melting point/freezing point	not determined
Initial boiling point and boiling range	not determined
Flash point	not applicable
Evaporation rate	not determined
Flammability (solid, gas)	non-combustible
Explosion limits of dust clouds	not determined
Vapour pressure	not determined
Density	not determined
Vapour density	this information is not available
Relative density	information on this property is not available
Solubility(ies)	
- water solubility	miscible in any proportion

acc. to Regulation (EC) No. 1907/2006 (REACH)

Degreaser

Version number: GHS 1.0

Date of compilation: 2017-02-06

Partition coefficient					
- n-octanol/water (log KOW)	this information is not available				
Auto-ignition temperature	not determined				
Viscosity	not relevant (solid matter)				
Explosive properties	none				
Oxidising properties	none				

9.2 Other information

Of no significance.

SECTION 10: Stability and reactivity

10.1 Reactivity

This material is not reactive under normal ambient conditions.

10.2 Chemical stability

See below "Conditions to avoid".

10.3 Possibility of hazardous reactions

No known hazardous reactions.

10.4 Conditions to avoid

Keep away from heat.

Hints to prevent fire or explosion

The product in the delivered form is not dust explosion capable; the enrichment of fine dust however leads to the danger of dust explosion.

10.5 Incompatible materials

Oxidisers.

10.6 Hazardous decomposition products

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Test data are not available for the complete mixture.

Classification procedure

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

Classification according to GHS (1272/2008/EC, CLP)

Acute toxicity

Harmful if swallowed.

Acute toxicity of components of the mixture					
Name of substance	CAS No	Exposure route	Endpoint	Value	Species
Citric acid	5949-29-1 77-92-9	oral	LD50	5,400 ^{mg} / _{kg}	mouse
Citric acid	5949-29-1 77-92-9	dermal	LD50	>2,000 ^{mg} / _{kg}	rat
Sulfuric acid, mono-C12-14-alkyl es- ters, sodium salts	85586-07-8	oral	LD50	<2,000 ^{mg} / _{kg}	rat

acc. to Regulation (EC) No. 1907/2006 (REACH)

Degreaser

Acute toxicity of components of the mixture					
Name of substance	CAS No	Exposure route	Endpoint	Value	Species
Sulfuric acid, mono-C12-14-alkyl es- ters, sodium salts	85586-07-8	dermal	LD50	>2,000 ^{mg} / _{kg}	rat

Skin corrosion/irritation

Causes skin irritation.

Version number: GHS 1.0

Serious eye damage/eye irritation Causes serious eye damage.

Respiratory or skin sensitisation

Shall not be classified as a respiratory or skin sensitiser.

Germ cell mutagenicity

Shall not be classified as germ cell mutagenic.

Carcinogenicity

Shall not be classified as carcinogenic.

Reproductive toxicity

Shall not be classified as a reproductive toxicant.

Specific target organ toxicity - single exposure

Shall not be classified as a specific target organ toxicant (single exposure).

Specific target organ toxicity - repeated exposure

May cause damage to organs (respiratory tract) through prolonged or repeated exposure (if inhaled).

Hazard category	Target organ	Exposure route
2	respiratory tract	if inhaled

Aspiration hazard

Shall not be classified as presenting an aspiration hazard.

SECTION 12: Ecological information

12.1 Toxicity

Shall not be classified as hazardous to the aquatic environment.

Aquatic toxicity (acute) of components of the mixture

Name of substance	CAS No	Endpoint	Value	Species	Exposure time
Citric acid	5949-29-1 77-92-9	LC50	440 ^{mg} /I	fish	48 h
Sulfuric acid, mono- C12-14-alkyl esters, so- dium salts	85586-07-8	LC50	3.6 ^{mg} / _l	fish	96 h
Sulfuric acid, mono- C12-14-alkyl esters, so- dium salts	85586-07-8	EC50	4.7 ^{mg} / _l	aquatic invertebrates	48 h
Sulfuric acid, mono- C12-14-alkyl esters, so- dium salts	85586-07-8	ErC50	>20 ^{mg} /I	algae	72 h

Aquatic toxicity (chroni	Aquatic toxicity (chronic) of components of the mixture				
Name of substance	CAS No	Endpoint	Value	Species	Exposure time
Citric acid	5949-29-1 77-92-9	LC50	1,535 ^{mg} / _l	aquatic invertebrates	24 h
Sulfuric acid, mono- C12-14-alkyl esters, so- dium salts	85586-07-8	EC50	135 ^{mg} /l	microorganisms	3 h

12.2 Persistence and degradability

Data are not available.

12.3 Bioaccumulative potential

Data are not available.

12.4 Mobility in soil

Version number: GHS 1.0

Data are not available.

12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

12.6 Other adverse effects

Data are not available.

Endocrine disrupting potential None of the ingredients are listed.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Sewage disposal-relevant information

Do not empty into drains. Avoid release to the environment.

Waste treatment of containers/packagings

Completely emptied packages can be recycled. Handle contaminated packages in the same way as the substance itself.

Remarks

Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

SECTION 14: Transport information

14.1	UN number	not subject to transport regulations
14.2	UN proper shipping name	not relevant
14.3	Transport hazard class(es)	
	Class	-
14.4	Packing group	not relevant
14.5	Environmental hazards	
14.6	Special precautions for user There is no additional information.
