

# REPLENISHING HAND CREAM

A high quality replenishing hand cream which reconditions the skin during and at the end of the working day.

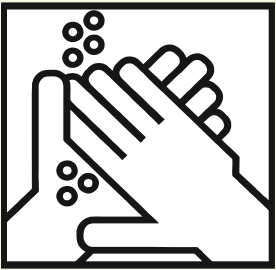

## USES

A viscous, pink lotion that has been formulated with cosmetic-grade raw materials to create a universal skin reconditioner.

Suitable for use on all skin types as an after-work cream in industry and commerce, to rebalance the natural oils within the skin that are depleted during working activities.

## DIRECTIONS

Apply *Replenishing Hand Cream* to clean, dry hands and work into the skin, paying particular attention to areas that are dry or cracked. Apply regularly to ensure maximum reconditioning effect. Ideal for controlled use through bulk-fill dispensing systems.

## AREAS OF USE

Hands
