#### **SECTION 7: HANDLING AND STORAGE**

Handling: Wash thoroughly after handling.

Storage: Do not mix with other drugs.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

| Respiratory               | NIOSH approved respiration.            |   |
|---------------------------|--|---|
| Protection:               |  |   |
| Ventilation:              | Local exhaust.                         | 5   |

| Eye Protection:           | Safety goggles.                        |   |
| <b>Other Protective</b>   | Disposable protective                  | - A REAL AND AND AND A REAL AND A   |
| Equipment:                | apparel.                               |   |
| Work Hygienic             | Remove/launder contaminated clothing l | before reuse.   |
| Practices:                |  |   |

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

pH: 4, 5-7. Appearance and Odour

Solubility in Water: Complete.

Appearance and Odour: Clear colourless solution with odour.

SECTION 10: STABILITY AND REACTIVITY

#### Chemical Stability: Stable.

Conditions to Avoid: Ignition sources, excess heat.

**Incompatibilities with Other Materials:** Strong oxidising agents, strong acids, strong bases, amines, ammonia, ethylene oxide, isocyanates, acetaldehyde, chlorine, phosgene. Attacks some forms of plastics, rubbers, coatings, and aluminium at high temperatures.

#### SECTION 11: TOXILOGICAL INFORMATION

Oral, rate: LD50 = >4000 mg/kg

SECTION 12: ECOLOGICAL INFORMATION

Base on the ingredient, this product is not expected to be harmful to aquatic organisms or the aquatic environment.

SECTION 13: DISPOSAL CONSIDERATIONS

Dispose according to local/national waste regulations as hazardous waste.

SECTION 14: TRANSPORT INFORMATION

Transport as ordinary goods.

SECTION 15: REGULATORY INFORMATION

Store in a cool, dry place.

SECTION 16: OTHER INFORMATION

Revision Date: 12/12/2017-V2

All information appearing herein is based upon data and information currently obtained and may be amended with new knowledge and examinations. This material safety data sheet provides solely information, but it does not constitute a guarantee. If product is used by special handling, conduct safety measures for use in applications.

Approved by

Andrew R. Howell Managing Director BCB International

# MATERIAL SAFETY DATA SHEET

Date / Revised: 25/03/2020 Product Name: BCB Hand Sanitiser Gel

# SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Product Name: Product No. **Product Application** 

Supplier

**BCB Hand Sanitiser Gel** CL900, CL901, CL902, CL903 Alcohol gel hand sanitiser. Use in accordance with product instructions. **BCB** International LTD Howell House, Lamby Way Industrial Park Cardiff, CF3 3EX United Kingdom

**Emergency Telephone** 

+44 (0) 29 2043 3700/ +44 (0) 1554 823824 (08:00 - 17:00 Mon-Fri only)

#### **SECTION 2: HAZARDS IDENTIFICATION**

#### 2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No. 1272/2008 One or more of the substances in this product feature the following hazards as a raw material:

Flammable liquid and vapour (Category 2), H226 Eye irritant (Category 2), H319 STOT single exposure (Category 3), H336

For the full text of the H-statements mentioned in this section, see section 16.

#### 2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008 Pictogram

Signal word

Warning

Hazard statement(s) H226 H319 H336

Flammable liquid and vapour Causes serious eye irritation. May cause drowsiness or dizziness.

Precautionary statement(s)

| P101               | If medical advice is needed, have product container or label |
|--------------------|--|
|                    | at hand.   |
| P103               | Read label before use  |
| P210               | Keep away from heat, hot surfaces, sparks, open flames and   |
|                    | other ignition sources. No smoking.                          |
| P261               | Avoid breathing vapours.                                     |
| P271               | Use only outdoors or in a well-ventilated area.              |
| P305 + P351 + P338 | IF IN EYES: Rinse cautiously with water for several minutes. |
|                    | Remove contact lenses, if present and easy to do. Continue   |
|                    | rinsing.   |

For full list of precautionary statements, see section 16.

Supplemental hazard statements

# 2.3 Other hazards

This product is highly flammable. With container open, explosive vapour/air may be formed even at normal room temperatures. During combustion/fire, the product becomes molten and exhibits flow. In high concentrations, vapours and spray mists are narcotic and may cause headache, fatigue, dizziness and nausea.

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical Name      | CAS-No. | EC No.    | Content<br>(%) | Classification acc. to Regulation (EC)<br>No 1272/2008 |
|--------------------|---------|-----------|----------------|--|
| Ethanol, denatured | 64-17-5 | 200-578-6 | 80-85          | Flam. Liq. 2 (H225), Eye Irrit. 2 (H319)               |

The full text for all H-statements are given in section 16.

# SECTION 4: FIRST-AID MEASURES

# 4.1 Description of first aid measures

| General<br>Advice | Rest, warmth and fresh air. Seek medical attention if symptoms persist.<br>Show this safety data sheet to the physician in attendance. Never give<br>an unconscious person anything by mouth. |
|-------------------|---|
| Inhalation        | Remove to fresh air and rest. If not breathing, give artificial respiration.<br>If symptoms persist, seek medical attention.  |
| Ingestion         | Do NOT induce vomiting. Rinse mouth immediately and give plenty of water or milk to drink. If symptoms persist, seek medical attention. Never give an unconscious person anything by mouth.   |
| Skin contact      | Remove contaminated clothing. Wash affected area with soap and water.   |
| Eye contact       | Flush with water for at least 15 minutes. Remove contact lenses if present and safe to do. Avoid washing chemical from one eye into the   |

other. Ensure to rinse thoroughly under the eyelid. If symptoms persist, seek medical attention.

| wost important symptoms and en | iects, both acute and delayed.                          |
|--------------------------------|---|
| Inhalation                     | May cause respiratory irritation. May cause drowsiness, |
|                                | dizziness and/or headaches.                             |
| Ingestion                      | Gastrointestinal symptoms; nausea, upset stomach,       |
|                                | vomiting.   |
| Skin contact                   | Repeated exposure may cause skin dryness or cracking.   |
| Eye contact                    | Irritation may occur, causing redness and pain.         |
|                                |   |

# 4.2 Most important symptoms and effects, both acute and delayed.

| SECTION 5: FIRE-FIGHTING MEASURES |  |   |
|-----------------------------------|--|---|
| 5.1                               | Extinguishing Media                      |   |
|                                   |  |   |
|                                   | Suitable extinguishing media             | Alcohol-resistant foam, dry powder, carbon dioxide,<br>water fog and sand.  |
|                                   | Unsuitable extinguishing media           | Do not use high-pressure water jets.  |
| 5.2                               | Special hazards arising from the mixture | Carbon oxides, nitrogen oxides (NO <sub>x</sub> ) and oxides of sodium may be produced during combustion.   |
|                                   |  | Product may produce vapour which may be invisible,<br>heavier than air and spread along the ground. During<br>combustion, solid fuel will become molten and exhibit<br>flow. Vapours may form explosive mixtures with air.<br>Flash-back possible over some distance. |
| 5.3                               | Advice for firefighters                  | Wear self-contained breathing apparatus. Wear full-<br>protective gear if necessary. Keep containers cool with<br>water spray. Water run-off or discharge should not<br>enter drains.   |
| 5.4                               | Further information                      | No information available.   |

# SECTION 6: ACCIDENTAL RELEASE MEASURES

| 6.1 | Personal precautions,                            | Use personal protective equipment. Avoid breathing vapours,  |
|-----|--|--|
|     | protective equipment and<br>emergency procedures | mist or gas. Ensure adequate ventilation. Remove all sources<br>of ignition. Evacuate personnel to safe areas. Beware of<br>vapours accumulating to form explosive concentrations.<br>Vapours can accumulate in low areas. For personal protection<br>see section 8. |
| 6.2 | Environmental precautions                        | Ensure waste and contaminated materials are collected and<br>removed from the work area as soon as possible in a suitably<br>labelled container. Do not allow water run-off or discharge to<br>enter drains or environment.  |

**<sup>4.3</sup>** Indication of any immediate medical attention and special treatment needed Treat symptomatically.

| 6.3 | Methods and materials for<br>containment and cleaning<br>up | Contain spillage, and then collect with non-combustible<br>absorbent material, (e.g. sand, earth, diatomaceous earth,<br>vermiculite) and place in container for disposal according to<br>local/national regulations (see section 13). Collect waste<br>absorbent with either an electrically protected vacuum<br>cleaner or by wet-brushing. Wash area thoroughly with water<br>after. |
|-----|---|---|
| 6.4 | Reference to other sections                                 | See section 1 for emergency contact information.<br>See section 8 for personal protective equipment.<br>See section 13 for waste treatment information.   |

| SECTIO | ON 7: HANDLING AND STORA   | GE  |
|--------|--|---|
| 7.1    | Precautions for safe handling                                      | Avoid skin and eye contact. Avoid spillages. Avoid inhalation<br>of vapour or mist. Keep away from sources of ignition. No<br>smoking. Take measures to prevent the build-up of<br>electrostatic charge. If left exposed, flammable and irritating<br>vapours will be emitted. Ensure adequate ventilation. For<br>precautions see section 2.2. |
| 7.2    | Conditions for safe<br>storage, including any<br>incompatibilities | Store in a cool, dry place. Keep container closed in a well-<br>ventilated place. Keep away from direct sunlight and sources<br>of heat or ignition. Do not store with oxidising agents.  |
| 7.3    | Specific end use(s)  | Apart from the uses mentioned in section 1.2, no other end uses are stipulated.   |

# SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

# 8.1 Control Parameters

# Components with workplace control parameters

Due to the nature of the product, workplace exposure limits are unlikely to be exceeded. The product has not been tested for workplace exposure limits when used as stipulated in section 1.2.

| One or more component exhibits w | orkplace exposure limits as a r | aw material, as below:           |
|----------------------------------|---------------------------------|----------------------------------|
| Ethanol                          | EH40 WEL, TWA – 8h              | 1,000ppm, 1,920mg/m <sup>3</sup> |
|                                  | ELV (IE), STEL                  | 1,000ppm                         |

# 8.2 Exposure Controls

| Appropriate engineering | Provide adequate to ensure the defined work place |
|-------------------------|---|
| controls                | exposure limits are not exceeded.                 |

# Personal protective equipment

| Skin<br>protection                      | Where possible, wear suitable gloves. As the product is a mixture of several substances, the durability of the glove material cannot be calculated in advance and should be tested before use. Protective gloves should be replaced is damaged or otherwise compromised through wear and tear. Protective gloves should comply with EN 374. |
|---|---|
| Eye/face<br>protection                  | Contact lenses should be avoided when working with this product. Safety glasses, when worn, should comply with EN 166.  |
| Body<br>protection                      | Due to the nature/size of the product, specific clothing is not usually necessary. Impervious clothing, Flame-retardant antistatic protective clothing may be worn when handling large quantities.  |
| Respiratory<br>protection               | Due to the nature of the product, no personal respiratory protective<br>equipment is normally required in well ventilated areas. In case of<br>insufficient ventilation, wear suitable respiratory aid equipment. A Type A<br>filter is recommended and mask to EN 143  |
| Control of<br>environmental<br>exposure | Prevent further leakage or spillage if safe to do so. Do not let product enter drains.  |

| TION J. FITTSICAL AND CITEMIC |   |
|-------------------------------|---|
| Appearance                    | Gel, colourless. Usually translucent, sometimes opaque  |
| Odour                         | Alcoholic   |
| рН                            | 8   |
| Melting/freezing point        | N/A   |
| Initial boiling point         | 75°C  |
| Flash point                   | 10.5°C (Cleveland open cup; BS EN ISO 2592:2001)        |
| Upper explosion limit         | 19% (V)   |
| Lower explosion limit         | 3.3% (V)  |
| Vapour pressure               | 5.85kPa (20°C)  |
| Flammability                  | No data available                                       |
| Relative density              | 0.84g/cm <sup>3</sup> (20°C)                            |
| Water solubility              | Soluble in water (20°C)                                 |
| Auto-ignition temperature     | 363°C   |
| Decomposition temperature     | No data available                                       |
| Viscosity                     | No data available                                       |
| Oxidising properties          | No data available                                       |
| Explosive properties          | Formation of explosive air/vapour mixtures is possible. |
| Gross calorific value         | 29MJ/kg (approx.)                                       |
|                               |   |

| SECTIO | SECTION 10: STABILITY AND REACTIVITY |  |  |
|--------|--------------------------------------|--|--|
| 10.1   | Reactivity                           | Stable under recommended storage conditions. |  |
| 10.2   | Chemical stability                   | Stable under recommended storage conditions. |  |
| 10.3   | Possibility of hazardous reactions   | No data available.                           |  |

| 10.4 | Conditions to avoid                 | Heat, flames, sparks, extremes of temperature and direct sunlight.                     |
|------|-------------------------------------|--|
| 10.5 | Incompatible materials              | Alkali metals, ammonia, oxidising reagents, peroxides.                                 |
| 10.6 | Hazardous decomposition<br>products | Other decomposition products – no data available. In the event of fire, see section 5. |

# SECTION 11: TOXILOGICAL INFORMATION

# 11.1 Information on toxicological effects

| Acute toxicity   | Toxic Dose – LD <sub>50</sub> >2000 mg/kg (oral rat)<br>Toxic Concentration – LC <sub>50</sub> >20 mg/l (4hr mouse)   |
|--|---|
| Skin corrosion/irritation                                | Repeated exposure may cause skin dryness or cracking.   |
| Serious eye<br>damage/irritation                         | Causes serious eye irritation. May cause redness and pain.  |
| Respiratory<br>damage/irritation                         | May cause mechanical respiratory irritation. May cause drowsiness, dizziness and/or headaches.  |
| Ingestion  | Gastrointestinal symptoms; nausea, upset stomach and/or vomiting.   |
| Respiratory or skin sensitisation                        | No data available.  |
| Germ cell mutagenicity                                   | No data available.  |
| Carcinogenicity  | No data available.  |
| IARC:  | No component of this product present at levels greater than<br>or equal to 0.1% is identified as probably, possible or<br>confirmed human carcinogen by IARC. |
| Reproductive toxicity                                    | No data available.  |
| Specific target organ<br>toxicity – single exposure      | Ethanol is a CNS depressant. Exposure to vapours may cause dizziness, drowsiness and/or headaches.  |
| Specific target organ<br>toxicity – repeated<br>exposure | No data available. Similar symptoms to STOT – single<br>exposure may occur.   |
| Aspiration hazard  | No data available.  |

The chemical, physical and toxicological properties have not been thoroughly investigated for this product.

Values presented are based on available literature. No testing was carried out for this product.

| SECTIO | SECTION 12: ECOLOGICAL INFORMATION    |   |  |  |
|--------|---------------------------------------|---|--|--|
| 12.1   | Toxicity                              | LC <sub>50</sub> : > 100 mg/l (96 hrs, Fish)<br>EC <sub>50</sub> : > 100 mg/l (48 hrs, Daphnia)<br>IC <sub>50</sub> : > 100 mg/l (72 hrs, Algae)    |  |  |
| 12.2   | Persistence and degradability         | No data available.  |  |  |
| 12.3   | Bioaccumulative potential             | No data available.  |  |  |
| 12.4   | Mobility in soil                      | No data available.  |  |  |
| 12.5   | Results of PBT and vPvB<br>assessment | PBT and vPvB assessment not available as chemical safety assessment not required, not conducted. No component of this product is deemed PBT or vPvB |  |  |
| 12.6   | Other adverse effects                 | Will dissolve and disperse in an aqueous environment. Do not flush into surface water or sanitary sewer system. Avoid subsoil penetration.          |  |  |

Values presented are based on available literature.

| SECTIO | SECTION 13: DISPOSAL CONSIDERATIONS |  |  |
|--------|-------------------------------------|--|--|
| 13.1   | Waste treatment methods             |  |  |
|        | Product                             | Burn in a chemical incinerator equipped with an afterburner<br>and scrubber, but exert extra care in igniting as this material<br>is highly flammable. Offer surplus and non-recyclable product<br>to a licensed hazardous waste disposal company. Any<br>material used to control spillage must be disposed of in the<br>same way. Dispose of in accordance to local and national<br>regulations. |  |
|        | Contaminated packaging              | Empty contaminated packaging thoroughly. This can be recycled after thorough and proper cleaning. Packaging that cannot be cleaned is to be disposed of in the same manner as the product.   |  |

# **SECTION 14: TRANSPORT INFORMATION**

One or more of this product's components are classified as dangerous good for transportation by ADR/RID, IMDG or IATA. Available information and product testing allows determination of dangerous goods transport class for this product.

| 14.1 | UN number |      |
|------|-----------|------|
|      | ADR/RID   | 1170 |
|      | IMDG      | 1170 |

|      | ΙΑΤΑ   | 1170   |
|------|--|--|
| 14.2 | <b>UN proper shipping name</b><br>ADR/RID<br>IMDG<br>IATA    | Ethanol solution (ethyl alcohol)<br>Ethanol solution (ethyl alcohol)<br>Ethanol solution (ethyl alcohol) |
| 14.3 | <b>Transport hazard class(es)</b><br>ADR/RID<br>IMDG<br>IATA | Class 3: Flammable liquid<br>Class 3: Flammable liquid<br>Class 3: Flammable liquid                      |
|      | Packing label  | •  |
| 14.4 | <b>Packing group</b><br>ADR/RID<br>IMDG<br>IATA              | <br>   <br>  |
| 14.5 | <b>Environmental hazard</b><br>ADR/RID<br>IMDG<br>IATA       | No<br>No   |
| 14.6 | Special precautions for<br>user                              | No data available.   |

#### **SECTION 15: REGULATORY INFORMATION**

This safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006.

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Take note of regulation (EC) 1272/2008 on the classification, labelling and packaging of substances and mixtures.

Take note of the control of substances hazardous to health (COSHH) regulations, 2002. Take note of directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work.

Take note of directive 92/85/EEC on the protection of the health and safety of pregnant workers.

Take note of directive 94/33/EC on the protection of young people at work Take note of workplace exposure limits, 2005 (EH40)

## 15.2 Chemical safety assessment

For this product a chemical safety assessment was not carried out.

# **SECTION 16: OTHER INFORMATION**

| Full text of H-state | ements referred to under sections 2 and 3. |
|----------------------|--|
| H226                 | Flammable liquid and vapour                |

H319 Causes serious eye irritation

| Full text of P-statements referred to under section 2.P101If medical advice is needed, have product container, or label at<br>hand.P102Keep out of reach of children.P103Read label before use.P210Keep away from heat, hot surfaces, sparks, open flames and othe<br>ignition sources. No smoking.P240Ground/bond container and receiving equipment.P241Use explosion-proof electrical/ventilating/light/equipment.P261Avoid breathing vapours.P264Wash hands thoroughly after handling.P271Use only outdoors or in a well-ventilated area.P280Wear protective gloves/protective clothing/eye protection/face | er |

| Acronyms   |    |
| STOT Specific-target organ toxicity.   |    |
| STEL Short-term exposure limit.  |    |
| TWA Time-weighted average.   |    |
| LC <sub>50</sub> Lethal concentration - concentration at which 50% of the population is killed.  |    |
| LD <sub>50</sub> Lethal dose – dose at which 50% of the population is killed in a given period of time.  |    |
| IC <sub>50</sub> Inhibitor concentration – concentration of an inhibitor where the response/binding is reduced by half.  | Ĵ  |
| IARC International agency for research on cancer.  |    |
| ADR/RID European agreement concerning the international carriage of dangerous goods by road and railway.   |    |
| IMDG International maritime dangerous goods code.  |    |
| IATA International air transport association.  |    |
| PBT Persistent, bioaccumulative and toxic.   |    |
| vPvB Very persistent, very bioaccumulative.  |    |

# **Further information**

The information in this Safety Data Sheet should be provided to all who will use, handle, store, transport or otherwise be exposed to this product. This information has been prepared for the guidance of plant engineering, operations, management and for people working with or handling this product. This information is believed to be reliable and

correct at the Revision Date, and represents the best information currently available and known by BCB International Ltd. However, BCB International Ltd makes no guarantee or warranty, express or implied, with respect to such information and we assume no liability, and anticipated uses is for the material without chemical additions or alterations. Users should make their own investigations to determine the suitability of the information for their particular purposes. It is the responsibility of the user to undertake a suitable risk assessment/COSHH assessment prior to using the material.

### Version: 2

Reason for update: Updated product codes.
