

**Product code
258010**

Absence detector located on the lampshade : automatic switching off after 15 minutes when no movement is detected

Fitted with 3 power Leds of 1,6W with an average lifetime of 40000 hours with constant luminous efficacy

Leds equipped with lenses insuring a better diffusion and a perfect asymmetrical lighting

Design features with the lampshade and the base made of translucent PMMA

Tactile and dimmer switch located on the lampshade

Same color temperature as fluorescent lighting : great visual comfort

Great ease of movement thanks to flexible articulations (on the lower and upper part of the arm) covered by a silicon sheat

TECHNICAL FEATURES

- LED (Power lighting Leds)
- Consumption : 7W
- Lifetime of 40000 hours with constant luminous efficacy
- Tactile dimmer switch on the lampshade
- Wire length : 1,90 m
- Low consumption removable transformer 12V
