

8-Port Gigabit Ethernet Switch with 2 Open SFP Slots

Product ID: IES101G2SFPW

Add eight copper Gigabit Ethernet (GbE) connections and two open SFP slots to your network with this 8-Port Gigabit Ethernet Switch. The rugged switch makes it easy to deploy or scale your network.

Expand Your Network

This versatile GbE switch adapts to your network needs by adding two open SFP slots and eight RJ45 Ethernet ports, providing both fiber and copper connections in a single network switch. The MSA compliant SFP ports are compatible with 100/1000Mbps networks. The network switch allows you to connect up to eight RJ45 devices, so different users can share files and devices, such as printers and scanners, over a LAN connection, and share two devices in the open SFP slots.

Intelligent Layer 2 Management

This Layer 2 switch delivers efficient and stable performance, with Layer 2 management capabilities. It controls packet traffic on a busy network, and customizes settings to achieve optimal network performance.

Reliable Network Performance

✓ 10/100/1000 Mbps transfer speeds	✓ Jumbo frames	✓ Redundant 12-58V DC terminal block
✓ Full/half-duplex auto-negotiation	✓ Auto MDI/MDIX operation	✓ IPv4 and IPv6 dual stack management
✓ Link aggregation	✓ VLAN tagging	✓ Spanning tree protocol

Compact, Mountable and Rugged Design

At only 5.5 x 7 in. and 1.375 lb., the industrial managed Ethernet switch is designed to be wall or DIN-rail mounted in tight spaces that are exposed to significant electromagnetic interference, while providing easy port access. The IP30-rated metal housing and extended operating temperature range of -40°C to 75°C makes it ideal for harsh environments.

StarTech.com offers a wide variety of network switches, making it easy to expand your network connections and provide power to devices in hard-to-power locations. This wall-mount Ethernet switch is backed by a 2-year warranty and free lifetime North American based Technical Support.

Certifications, Reports and Compatibility

Applications

- Install in a server rack or cabinet, or wall mount in a convenient location
- An ideal solution for many network applications including IP surveillance, wireless LAN, building/home automation network and Internet of things (IoT)
- Add small workgroups to expand your existing network in a business or home office
- Works well in industrial, non-climate controlled environments, such as warehouses

Features

- IP surveillance and building/home networks
- Expand existing networks with small groups
- Industrial, non-climate controlled areas

What's in the Box	Included in Package	1 - network switch
		1 - universal power adapter (NA/JP, UK, EU, ANZ)
		1 - terminal block connector
		4 - screw anchors
		4 - screws
		4 - attaching pins
		4 - locking pins
		4 - washers
		4 - magnets
		1 - DIN rail
		3 - DIN-rail screws
		8 - RJ45 dust caps
		2 - SFP dust caps
