

BLACK

Keep it simple and set music free

SE-C8TW (Black)

Truly wireless earphones are all about balance, and the C8s from Pioneer are on the money. Sound is excellent with deep bass from rare-earth-magnet drivers and AAC codec delivered via Bluetooth® wireless technology. Battery life is strong: charge up for three hours of listening and the carry-case will fill the earphones twice before needing a charge. Voice access to smartphone assistants, hands-free calling, and music control come via buttons designed for human fingers. The C8 works with an Android™ app that reads out notifications, a feature unique to Pioneer. But the difference is in the detail: unique L/R shapes, body-agnostic charging ports, textured silicon sleeves for grip, and LED battery indicator on the case. Light, practical, immersive... the C8 truly wireless has freedom you need.

Go cable-free for musical liberation

Say goodbye to cable hassle and annoying adapters. There are now truly wireless earphones crafted by hi-fi leaders Pioneer that bring sound quality, convenience, and free movement together in a light and comfortable personal audio solution designed to simplify your music life.

Exclusive Pioneer Notification App

Pioneer Notification App for Android™ reads out notifications, such as e-mails, SMS, and messages so you can reply as soon as possible. This is great when you can't reach your phone during exercise. The app also alerts you when your calendar updates, reads news headlines in real time, and much more.

Voice interaction at the touch of a button

Stay wirelessly connected to phone conversations and smart assistants by voice. Simple buttons on the bodies activate a mic so you can make and receive calls or ask Siri or the Google Assistant for help without reaching for your phone.

Excellent musical immersion

Strong rare-earth-magnet drivers give speed and punch to bass notes while presenting the audio image clearly and comfortably. Combined with the low-loss AAC codec, wireless music has more energy, with S/M/L-sized earphone tips assuring a deep seal for immersion.

The most intuitive truly wireless earphones

Simplicity starts right out of the box: independent earphone shapes suit left and right ears, so you don't have to puzzle out which one goes where. Silicon sleeve is sweat resistant, while dimpled texture gives grip for easy fitment.

Long playback time with compact carry case

Three hours of playback is perfect for most. Pop the earphones in the case and you're good to go in one hour. The case recharges the C8s twice before needing a refill. L/R earphones snap into either charging dock. The case has an LED showing battery life remaining when it's tapped.

SOUND QUALITY

- › Strong ϕ 6 mm (1/4") rare-earth-magnet dynamic driver
- › Deep, lively bass and clear detail articulation
- › Supports AAC codec for high-quality wireless audio transmission
- › Three earphone-tip sizes (S/M/L) provide a firm seal for immersion

FEATURES FOR PEOPLE

- › Truly wireless design, no cables, and no stress
- › Bluetooth® Version 4.2 for fast pairing and stable connection
- › Includes built-in microphone
- › Pioneer Notification App for Android™ devices
- › Large, tactile, finger-friendly buttons for function controls
- › Control music playback, phone conversation, and AI interaction via buttons
- › Triple-tap button for access to the Google Assistant and Siri by voice
- › Make/take/end calls, play/pause, skip forward/back
- › About 3 hours continuous playback with 1-hour recharging

EARPHONE DESIGN

- › Soft silicon body sleeve exterior for comfort and resistance to moisture
- › Dimpled non-slip silicon surface texture provides secure grip for easy insertion
- › Corresponding L/R body shape for easy ear insertion by touch
- › Deep inner-ear fit for excellent bass immersion and seal
- › Very light for comfortable listening without fatigue

CARRY-CASE DESIGN

- › Charges earphones twice before requiring replenishment

- › Shake or tap case for LED indicator display showing remaining battery life
- › L/R earphones fit in either dock for convenience
- › Compact form, durable materials, and rounded to fit easily in bags
- › 3-hour recharge for lithium-ion battery via supplied USB Type-C cable

SPECIFICATIONS & ACCESSORIES

- › Transmission method: Bluetooth® Ver. 4.2
- › Output: Bluetooth Standard Protocol Power Class 2
- › Transmission distance: Up to 10 m (32 ft.)
- › Frequency used: 2.4 GHz (2.4000 GHz–2.4835 GHz)
- › Modulation: FHSS
- › Supported Bluetooth profiles: A2DP/AVRCP/HFP/HSP
- › Supported codecs: SBC/AAC
- › Multi-pairing: Max. 2 devices (L/R)
- › Power source: DC 3.7 V rechargeable lithium-ion battery
- › Battery time: Max. 3 hours (continuous connection including audio playback)
- › Charging time: Approx. 1 hour (earphones), 3.5 hours (carry case)
- › Type: Fully enclosed dynamic headphones
- › Driver: ϕ 6 mm (1/4") rare-earth-magnet dynamic driver
- › Frequency response: 4 Hz–22 kHz
- › Weight: 12 g (0.42 oz.)
- › Supplied with S/M/L earphone tips, USB Type-A to USB Type-C cable, carry case, instruction leaflet

Package dimensions (W x H x D)
115 x 170 x 45 mm (4 17/32" x 6 11/16" x 1 49/64")
