

ME30W Conference Microphones

- Capture sound in large gatherings
- Tripods included, easy set up
- 2 omni-directional high quality microphones

Ideal for recording conferences

For meetings, conferences and concerts, with the ME-30W Conference Microphones, it is easier than ever to capture sounds in large gatherings, all in high quality stereo. This professional solution includes two omni-directional microphones engineered by Olympus for seamless compatibility. With 360° coverage, you'll never miss a contribution - no matter where the speaker is sitting. These left and right channel, low-noise stereo microphones cover a 20Hz - 20,000Hz frequency bandwidth and can be attached to two foldable mini tripods which are included in the kit. For maximum coverage, they can be placed up to 5 metres (16ft) apart – perfect for recording in large rooms, concert venues or when many participants are sitting around a very large table. The ME-30W Conference Microphone Kit includes a soft carry case that keeps everything together, compact and protected on the move. Optionally the Conference Microphone Kit can be equipped with an AC power adaptor, for potentially unlimited power.

Specifications

Characteristics

Type	Electret condenser microphone
Mono / Stereo	2 x Mono
Impedance	1.9 k Ω \pm 30%
Directionality	Omni-directional

Power Supply

Power Supply	Plug-in power system , rated voltage: 1.5 - 9V
--------------	--

Interfaces Input

Microphone sensitivity / gain	- 38dB/kHz- (Dictation Mode)-
-------------------------------	-------------------------------

Dimensions

Dimensions (Ø)	12.2mm Ø x 64mm
Cable length	2.5m
Weight	54g (microphone only)

Frequency response

Frequency response	20 - 20000Hz
--------------------	--------------

Technical Data

Input	1.5 V - 9 V
Plug Type	3.5 \varnothing mm mini-jack
