super tear resistant

manufactured in the UK from recycled UK farm polythene

ultra low carbon footprint

THE GREEN SACK®

A GUIDE TO SELECTING THE RIGHT REFUSE SACKS

www.bpi-refuse.com

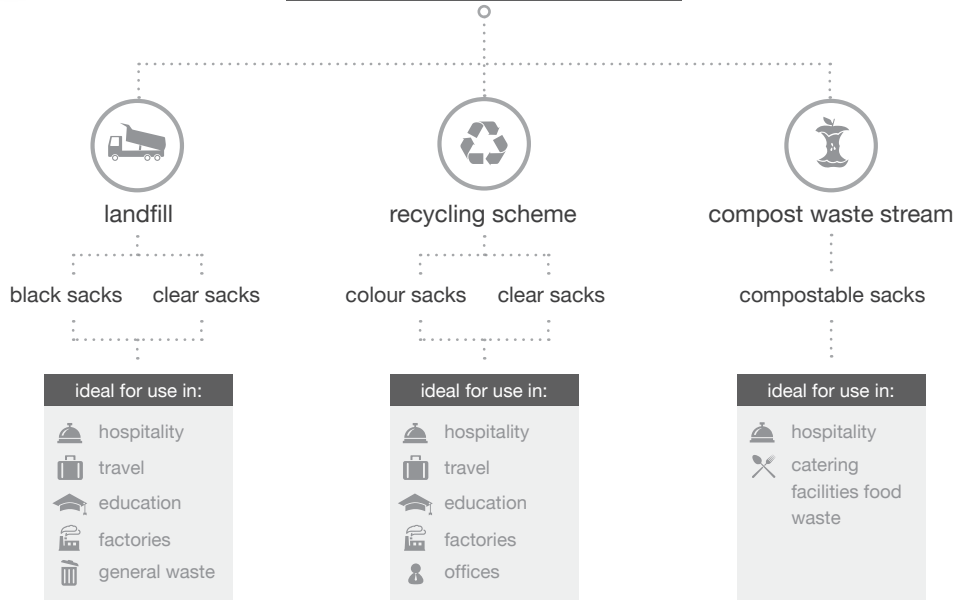

smarter flexible solutions

01

CHOOSE YOUR SACK TYPE

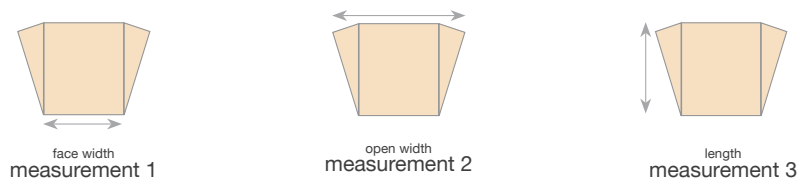

Where is the waste going to end up?

02

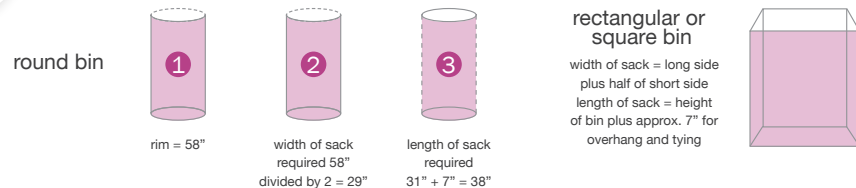

HOW TO MEASURE A REFUSE SACK

To measure your refuse sack please follow these simple instructions:

03

CALCULATE THE SIZE YOU NEED

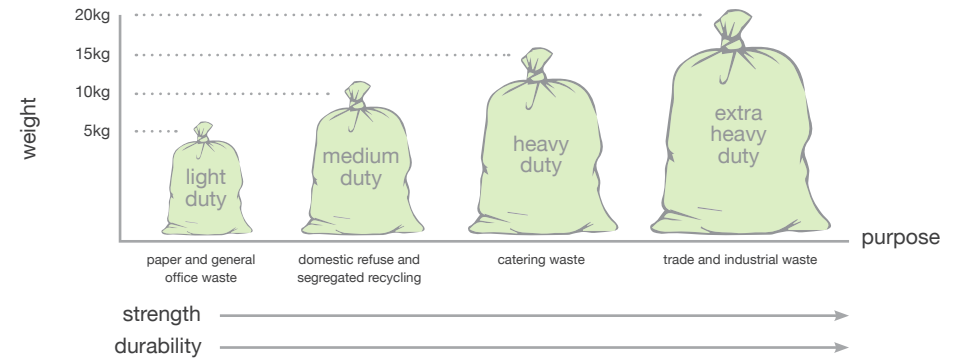

Please note - the face width measurement in the product table is not required when calculating the size of the bag you need. This indicates the bag is gusseted.

04

CONSIDER YOUR WEIGHT REQUIREMENT

Consider what kind of content will go into your refuse sack

05

NOW SELECT YOUR SACK

This chart represents a small selection of The Green Sack® range for indication and examples. Samples are available on request.

Product code	Description	Use	CHSA rating	Case Qty	Colour	Size (inch)

RPC bpi refuse sacks are accredited under the Cleaning and Hygiene Suppliers Association (CHSA) Refuse Sacks Standard. The CHSA is the industrial body representing the interests of distributors and the end user. Under the scheme sacks are manufactured within stated tolerances and performance criteria including tear and puncture resistance.
