

Industrial Heat Sealing Machines

Durable, Heavy Duty Industrial Sealers

This is only a small selection of machines available. Ask for more information about:

- Stainless steel versions
- Sealers for liquid materials, powders, thick foils, laminated materials and code/seal date stamping

Opti-Seal Industrial Impulse Heat Sealers offer the ultimate in heat sealing technology. Unsurpassed Opti-Seal quality including an integrated magnetic sealing head offers an incredible 5mm heavy duty seal. Simple to operate, the Opti-Seal range are able to seal PE, PP, PA and PVC film and also thinner double-coated materials and offers adjustable sealing and cooling times. When only the best will do, Opti-Seal is the No.1 choice.

Advantages of Opti-Seal Machines

- Easy use and operation
- Wide range of applications
- Automatic impulse sealing operated by foot pedal
- Integrated sealing magnet
- Separate, electronically adjustable sealing and cooling time
- Opening of the sealing bar is controlled by gas spring
- Integrated sealing wire stretching unit
- Adjustable work table
- U seable for closing and producing pouches and bags
- Integrated safety cutting knife

Standard features include:

- Sealing wire of 5mm
- Stand with foot pedal
- Working table with bag holder
- Film roll holding unit inc. film stop
- Integrated safety cutting knife
- Connecting table

Optional accessories:

- Long table with long bag holder
- Long foot pedal
- Aluminium working support arm
- Date stamping unit
- Perforating unit

PRO-SEAL

Desk Top Impulse Heat Sealers

Professional, High Quality, innovative Design

Pro-Seal Impulse Heat Sealers offer the packaging professional the next generation of heat sealer technology. Ergonomically designed, the Pro-Seal range is perfect where fast, reliable heat sealing is required. Simple to operate, the Pro-Seal range are able to seal PE, PP, PA and PVC foil and also thinner double-coated materials. Pro-Seal is set to become within the packaging industry the name synonymous with the very best in impulse heat sealing

Easy to handle features include:

- Adjustable sealing time for different films
- Sealing is closed manually
- 2.5mm wide seal
- Integrated safety cutting knife
