1. TRADE NAME STABILO® EASYoriginal
2. ARTICLE NUMBER 6891 / 6892 / ...
3. SUPPLIER DETAILS STABILO International GmbH Schwanweg 1, D-90562 Heroldsberg Further product information: info@stabilo.com or www.stabilo.com/de/faq Emergency - Hotline: Poison Information Centre Munich Tel.: +49-89-19240
4. PHYSICAL AND SAFETY DATA Rollerball with water-based and erasable ink, blue, with excellent cap-off time. Plastic conical tip with ball made of hard metal, line-width 0.5 mm. Writing length appr. 700 m. Exchangeable ink-cartridge. Ink erasable with nearly every commercial eraser pen. Casing made from ABS and PP with a grip zone with TEP-coating (made in 2-component-technology), Grip zone in two versions, for right-handed (Art.-No. 6891/..) and left-handed (Art.-No. 6892/..) users. Casing in three different color configurations: Orange/Anthracite – Light Blue/Dark Blue – Yellow/Red. Ventilated cap made of polypropylene. When stored and used properly, no hazardous reactions can be expected. In case of fire, carbon monoxide (CO), carbon dioxide (CO ₂) and nitric oxides (NO _x) will be set free as thermal decomposition products. When not used properly, the content of the writing instruments may stain the skin, mucous membranes or clothing and fabrics. In textiles and some materials, the stain might be permanent. In case of contact with the eyes, rinse out open eye thoroughly under running water for several minutes. If complaints persist, contact an ophthalmologist. Based on the Regulation (EC) No. 1907/2006 („REACH“), this commercial product is not a hazardous substance, a hazardous mixture or a hazardous substance in an article. Therefore a Safety Data Sheet is not required according to article 31 of the REACH Regulation.
5. TRANSPORT INFORMATION Not classified as dangerous goods with respect to the transport regulations.
6. ECOLOGICAL INFORMATION / DISPOSAL CONSIDERATIONS The writing instruments may be added to the household waste in small quantities. Larger quantities are to be disposed of under compliance with local public authority regulations, e.g. at a suitable waste disposal site or incinerator. Only smaller quantities of colorants are contained in the inks. They are, however, very durable- on account of their intended use and therefore biodegradability in normal conditions in sewage works or in surface waters is difficult. They can, however, be sufficiently adsorbed in the activated sludge and eliminated from the water.
7. OTHER INFORMATION The information herein is based on our present state of knowledge and on data considered to be accurate as of the date of preparation of this Product Information and is intended to describe our products from the point of view of safety requirements. However, no warranty of representation expressed or implied is made as to the accuracy or completeness of the foregoing data and safety information. The user assumes all liability for any damage or injury resulting from the abnormal use from any failure to adhere to recommended practices or from any hazard inherent in the nature of the product. The article and its packaging materials contain no substances included on the candidate list according to article 59 (1,10) of Regulation (EC) No.1907/2006 (REACH) in a concentration above 0,1% weight by weight.
