DEFENDER™ F50 PIVOT FLASH DRIVE

ADVANCED SECURITY

This unique USB 2.0 flash drive is FIPS 140-2 level 1 validated. You can be confident that you have control over your sensitive data with easy-to-use advanced encryption software and strong password authentication. The Imation Defender F50 Pivot Flash Drive features a black rubberized enclosure and an integrated never-lose pivot cap creating a solution for mobile business professionals backed by a five year limited warranty.

FEATURES + BENEFITS

FIPS 140-2, Level 1 Validated

Meet regulatory requirements for the Federal Information Processing Standardization (FIPS) 140-2, Level 1 validation representing a U.S. government security standard that specifies cryptography module requirements for data encryption.
Level 1 - This level imposes FIPS 140-2 requirements around encryption and component standards.

AES 256-bit Software Encryption

The design and strength of the AES 256-bit software encryption key protects your data-at-rest. The transformation of plain text into cipher text includes several processing steps quickly executed with the included software that operates from the USB flash drive.

One-factor Authentication - Strong Password

Establish an authentic password to create an identity on the Defender F50 Pivot Flash Drive. By creating a strong password, you increase the level of security protecting your data-at-rest.

Unique Serial Number

Present on the exterior of each Defender F50 Pivot Flash Drive is a unique serial number. The identification will help with drive administration and asset tracking.

Optional Features

Antivirus Software

Protect against viruses, worms, and other malware threats with on-board antivirus software constantly monitoring file transfers to the portable storage device.

Using Device Defender

Provides powerful device control and automatic encryption of files or folders on USB devices. Administrators can block unauthorized USB devices or initiate antivirus scans of removable devices prior to use. Any USB attached removable device is supported including Flash Drives, Memory Cards, removable hard drives, writeable CDs and DVDs and more.

TECHNICAL SPECS
