P-208II

Fast, ultra-slim scanner for mobile executives and home users

Portable document scanner

The lightweight and ultra-portable P-208II scanner's footprint is barely larger than a standard ruler. So it's the perfect choice for mobile executives and home users.

10 sheet document feeder, with double-sided scanning

With its 10-sheet ADF, high speed duplex scanning capability and optional Wi-Fi connectivity, this is the ideal scanner to maximise your productivity wherever work takes you

Enhanced cloud connectivity

The P-208II is the perfect partner for both Mac and Windows devices. A superb range of desktop software helps you gain maximum productivity from your scanner.

Canon

ULTRA SLIM AND LIGHTWEIGHT

No-compromise mobile scanning

The imageFORMULA P-208II provides travelling executives or office users with impressively fast double-sided colour scanning of up to 16 ipm at 200 dpi. Maintain productivity on the move with the integrated 10-sheet ADF, which enables easy batch scanning of multiple documents like contracts in a single operation. Weighing just 600g, and little longer or wider than a standard ruler, the P-208II is small and light enough to take anywhere. For maximum flexibility, the P-208II is compatible with Mac and PC computers, as well as Apple iOS and Android mobile devices.*

* When connected to the WU10 accessory.

Intuitive image processing

A rich selection of built-in image processing features help you achieve high quality results. The P-208II offers auto colour detection, text orientation recognition and text enhancement to optimise your scanned images; the full auto mode feature automatically applies the ideal settings for your documents while delivering super-fast results.

Scan all types of document

The P-208II is the perfect accessory for both home and business use because it's capable of scanning such a wide range of media. Business users can capture regular A4 sized documents like contracts or irregular-sized media like business/embossed cards when they're out of the office.
Home users will also enjoy using the P-208II, because it's perfect for scanning household bills; while the picture mode feature is ideal for accurately scanning old photographs.

Plug-and-scan convenience with CaptureOnTouch Lite

By using the selectable 'auto-start' feature – just connect with a USB cable and start scanning! CaptureOnTouch Lite software is built into the P-208II so there is no need to download additional drivers or software, it's simply plug-and-scan.

POWERFUL, INTUITIVE SOFTWARE THAT ENHANCES YOUR PRODUCTIVITY

Capture OnTouch

Intuitive capture software that makes it quick and simple to achieve premium quality results. CaptureOnTouch incorporates an icon-based user interface with scanning to multiple file formats including PDF, PDF-A, TIFF, JPEG, BMP, PPTX and PNG. CaptureOnTouch can also send captured information directly to data management systems (compatible with both Windows and Mac).
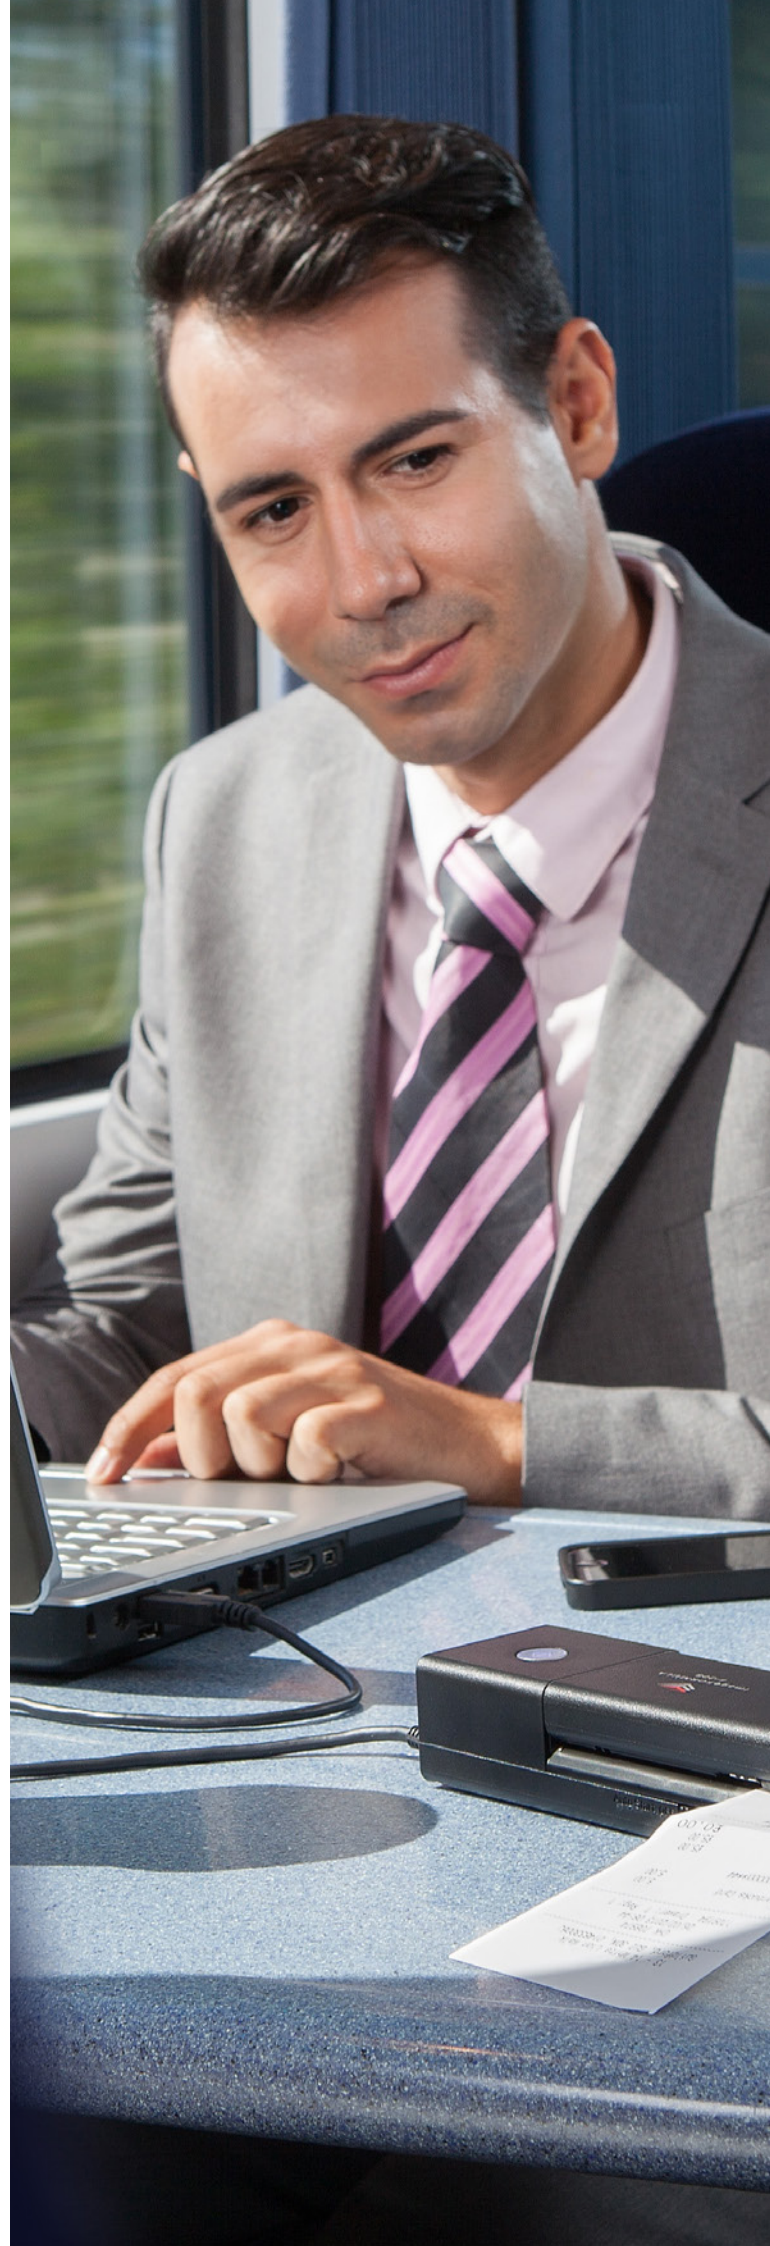

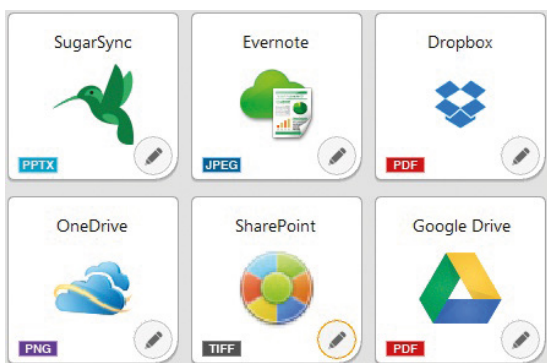

Capture OnTouch Lite

Offers unique portability and convenience on the move. The software is built into the P-208II allowing for fast and effortless connectivity without the need to install any drivers or application software (compatible with both Windows and Mac).

Presto! BizCard

Scan business cards to convert and organise important information into a searchable database (compatible with both Windows and Mac).

Cloud service plug-ins

The CaptureOnTouch and CaptureOnTouch Lite software includes plug-ins for connecting to cloud and ECM services such as Evernote, Google Drive™, Microsoft SharePoint®, SugarSync, OneDrive (Windows only) and Dropbox.

Optional Wi-Fi unit WU10

The Wi-Fi unit WU10 enables wireless scanning to mobile devices without the need to connect via cable to a network point. Businesses can also set-up wireless scanning to desktop PCs with the Wireless Connection Setup Tool and Network Monitor software. The WU10 comes with a rechargeable Lithium-ion battery and when fully charged you can scan up to 400 images. Simply connect via USB to your Canon mobile scanning device and enjoy fast mobile scanning anytime, anywhere.

Scan direct to your iPhone®, iPad® and Android device with the free CaptureOnTouch mobile App. It comes with advanced image processing tools such as automatic size detection, deskew and skip blank page – giving consistently superior image quality results. Download the free CaptureOnTouch Mobile App from Google Play (Android user) or the Apple App Store (iOS user).
