

HL161CGB (HSG1400) LCD Monitor

Before operating the monitor, please read this manual thoroughly. This manual should be retained for future reference.

This device complies with requirement of EMC directive 2014/30/EU with regard to Electromagnetic Compatibility, and 2014/35/EU and 93/68/EEC with regard to Low Voltage directive.

[Optional, depend on selected model]

Socket-outlet shall be near the equipment and shall be accessible.

Trademark Notice:

HANNspree products incorporate High-Definition Multimedia Interface (HDMI TM) technology.

The terms HDMI and HDMI High-Definition Multimedia Interface, and the HDMI Logo are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries.

RECYCLING INFORMATION

We, the **HANNspree** care very much about our environment protection strategy and firmly believe that it helps us have healthier earth via appropriate treatment and recycling of industrial technology devices at the end-of-life.

These devices contain recyclable materials, which can be re-decomposed and re-integrated into brand-new marvels. On the contrary, other material can be classified to hazardous and poisoned substances. We strongly encourage you to contact the provided information to recycle this product.

SPECIFICATIONS	21

SAFETY NOTICE

- 1. The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- 2. Shielded interface cables and AC power cord, if any, must be used in order to comply with the emission limits.
- 3. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modification to this equipment. It is the responsibilities of the user to correct such interference.
- 4. Only use attachments/accesories specified by the manufacturer.

WARNING:

To prevent fire or shock hazard, do not expose the monitor to rain or moisture. Dangerously high voltages are present inside the monitor. Do not open the cabinet. Refer servicing to qualified personnel only.

PRECAUTIONS

- Do not use the monitor near water, e.g. near a bathtub, washbowl, kitchen sink, laundry tub, swimming pool or in a wet basement.
- Do not place the monitor on an unstable cart, stand, or table. If the monitor falls, it can injure a person and cause serious damage to the appliance. Use only a cart or stand recommended by the manufacturer or sold with the monitor. If you mount the monitor on a wall or shelf, use a mounting kit approved by the manufacturer and follow the kit instructions.
- Slots and openings in the back and bottom of the cabinet are provided for ventilation. To ensure reliable operation of the monitor and to protect it from overheating, be sure these openings are not blocked or covered. Do not place the monitor on a bed, sofa, rug, or similar surface. Do not place the monitor near or over a radiator or heat register. Do not place the monitor in a bookcase or cabinet unless proper ventilation is provided.
- The monitor should be operated only from the type of power source indicated on the label. If you are not sure of the type of power supplied to your home, consult your dealer or local power company.
- Unplug the unit during a lighting storm or when it will not be used for long period of time. This will protect the monitor from damage due to power surges.
- Do not overload power strips and extension cords. Overloading can result in fire or electric shock.
- Never push any object into the slot on the monitor cabinet. It could short circuit parts causing a fire or electric shock. Never spill liquids on the monitor.
- Do not attempt to service the monitor by yourself; opening or removing covers can expose you to dangerous voltages and other hazards. Please refer all servicing to qualified service personnel.
- The wall socket shall be installed near the equipment and shall be easily accessible.

SPECIAL NOTES ON LCD MONITORS

The following symptoms are normal with LCD monitor and do not indicate a problem.

- Due to the nature of the fluorescent light, the screen may flicker during initial use. Turn off the Power Switch and then turn it on again to make sure the flicker disappears.
- You may find slightly uneven brightness on the screen depending on the desktop pattern you use.
- The LCD screen has effective pixels of 99.99% or more. It may include blemishes of 0.01% or less such as a missing pixel or a pixel lit all of the time.
- Due to the nature of the LCD screen, an afterimage of the previous screen may remain after switching the image, when the same image is displayed for hours. In this case, the screen is recovered slowly by changing the image or turning off the Power Switch for hours.
- If the screen suddenly flashes erratically or the backlighting fails, please contact your dealer or service center for repair. Do not attempt to repair the monitor yourself.

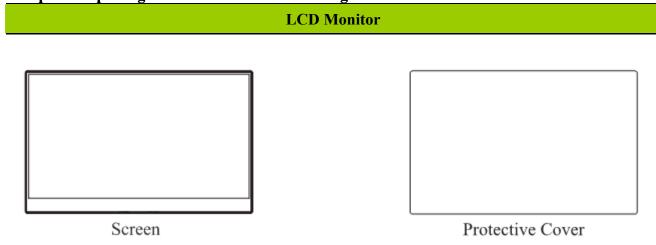

BEFORE YOU OPERATE THE MONITOR

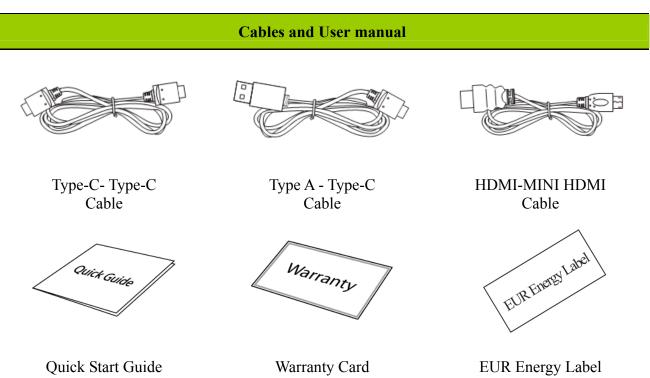

FEATURES

- 39.5cm /15.6" Wide Screen TFT Color LCD Monitor
- Crisp, Clear Display for Windows
- GP Green Product
- Ergonomic Design
- Space Saving, Compact Case Design

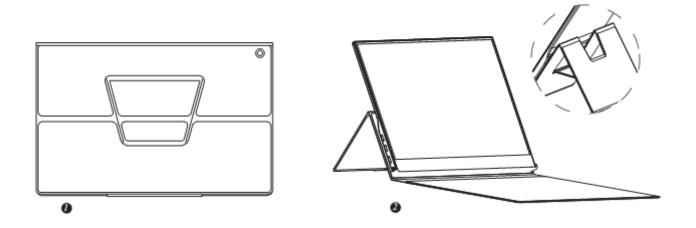

CHECKING THE CONTENTS OF THE PACKAGE

The product package should include the following items:

SUPPORT HOLSTER STENTS

(For reference only)

POWER

POWER SOURCE:

- 1. Make sure that the power cord is the correct type required in your area.
- 2. This LCD monitor has an Internal universal power supply that allows operation in either 100/120V AC or 220/240V AC voltage area (No user adjustment is required.)
- 3. Connect the AC-power cord one end to your LCD monitor's AC-input socket, the other end to wall-outlet.

MAKING CONNECTIONS

CONNECTING TO A PC

Turn off your computer before performing the procedure below.

- 1. Connect one end of the Type-C cable to the back of the monitor and connect the other end to the computer's Type-C port.
- 2. Connect one end of the Type-C cable to the back of the monitor and connect the other end to the PowerAdaptort.
- 3. Connect one end of the HDMI cable (optional) to the back of the monitor and connect the other end to the computer's HDMI port.
- 4. Connect the audio cable between the monitor's audio input and the PC's audio output (green port).
- 5. Turn on your monitor and computer.

OPERATING INSTRUCTIONS

GENERAL INSTRUCTIONS

Press the power button to turn the monitor on or off. The other control buttons are located on the front panel of the monitor (See Figure 4). By changing these settings, the picture can be adjusted to your personal preferences.

- The power cord should be connected.
- Connect the Signal cable from the monitor to the HOMI card.
- Press the power button to turn on the monitor. The power indicator will light up.

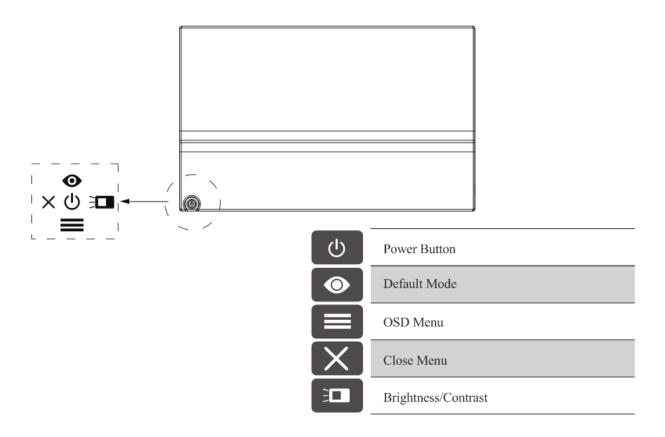

Figure.4. Control Panel Buttons

FRONT PANEL CONTROL

• Power Button:

Press this button to switch ON/OFF of monitor's power.

• Power Indicator:

Blue — Power On mode.

Amber — Power Saving mode.

• The OSD Menu and OSD Quick-Menu Symbol explanations and their functional uses are stated below.

~	Activation symbol to turn the various modes on when operating the menu system.
×	Activation symbol to exit, go back or deactivate the desired function that is selected.
$\wedge \vee$	Toggle the selected options up and down the icon.
Û	Symbol used to go back or revert back to the previously selected menu.
< >	Left and right icons toggle your selected choice horizontally.
	Main menu icon that allows users access the main menu.
1	Adjust the Contrast/Brightness.

Resolution
$640\times400@70\text{Hz} \leftrightarrow 720\times400@70\text{Hz}$
$640\times480@60\text{Hz} \leftrightarrow 720\times480@60\text{Hz}$
$1024 \times 768 @ 70 \text{Hz} \leftrightarrow 1280 \times 768 @ 70 \text{Hz}$
$1280 \times 768@60$ Hz $\leftrightarrow 1360 \times 768@60$ Hz
$1400 \times 1050 @60 \text{Hz} \leftrightarrow 1680 \times 1050 @60 \text{Hz}$
1400×1050@RB 60Hz ↔ 1680×1050@RB 60Hz
** The screen resolutions available will depend on the purchased model.

NOTES:

- Do not install the monitor in a location near heat sources such as radiators or air dusts, or in a place subject to direct sunlight, or excessive dust or mechanical vibration or shock.
- Save the original shipping box and packing materials, as they will come in handy if you ever have to ship your monitor.
- For maximum protection, repackage your monitor as it was originally packed at the factory.
- To keep the monitor looking new, periodically clean it with a soft cloth. Stubborn stains may be removed with a cloth lightly dampened with a mild detergent solution. Never use strong solvents such as thinner, benzene, or abrasive cleaners, since these will damage the cabinet. As a safety precaution, always unplug the monitor before cleaning it.

HOW TO ADJUST A SETTINGS

INPUT SELECT	
HDMI TYPE C	Select the \lceil INPUT SELECT \rfloor option to switch signals HDMI, or Type C.
AUDIO ADJUST	
VOLUME	Select the 「VOLUME Joption to change the volume level. Enter the option and adjust the level. [This function applies only to models with incorporated audio.] By high volume, risk of hearing damage exists.
MUTE	Select the 「MUTE」 option to switch the function On or Off. [The availability of this function depends upon the selected model. Adjusting the volume while muted cancels Mute mode.]
VIEW MODE	
LOW INPUT LAG	Select the \[LOW INPUT LAG \] option to switch the function On or Off.
BLACK STABILIZATION	Select the BLACK STABILIZATION option to adjust the Black Stabilization of the display. Set the value from 0 to 100.
ADVANCED CONTRAST	Select the 「ADVANCED CONTRAST」 option to adjust the Advanced Contrast of the display. Set the value from 0 to 100.
BLUE LIGHT FILTER	Select the 「BLUE LIGHT FILTER」 option to adjust the display's RGB "B" value. Set the value from 0 to 100.
RESPONSE TIME	Setup the display response time through the Response time function. Available settings are Standard, Advanced, and Ultra Fast. [This feature is limited to specific models only.]
RECALL	Resets the Standard monitor settings.
GAME	Integrating a gaming-oriented OSD design including pre-calibrated GAMER1, GAMER2, GAMER3, FPS1, FPS2, RTS and MOBA gaming settings, each mode is functionally customized with in-game testing and adjustments made for the best blend of color and technology. To access the game mode first open the Main Menu setting, then go to 'ViewMode', select [Game] and change your 'GAMER MODE' settings from there.

MOVIE WEB TEXT	Select the mode according to your preference: Movie/ Web/ Text
COLOR ADJUST	
CONTRAST	Adjust the contrast value of the display according to your preference. Select \[CONTRAST \] option to adjust the contrast value.
BRIGHTNESS	Adjust the brightness value of the display according to your preference. Select \[BRIGHTNESS \] option to adjust the brightness value.
COLOR TEMPERATURE	Adjust the color temperature value of the display according to your preference: sRGB/Bluish/Cool/Native/Warm/User Color.
COLOR SPACE	Adjust the Color Space value of the display according to your preference: Auto/RGB Mode/YUV Mode.
COLOR RANGE	Adjust the Color Range value of the display according to your preference: Auto/Full Range/Limited Range.
MANUAL IMAGE ADJUST	
SHARPNESS	Select the \[Sharpness \] option to adjust the sharpness of the display. Set the value from 0 to 100.
ASPECT RATIO	When the aspect ratio of screen is distorted, you may make adjustments by using this function. FULL SCREEN indicates full screen display, which does not ensure the image is shown as is or in initial scale. I indicates scaling by the proportion of original images, which may cause the screen showing black bands.
OVERSCAN	Select the 「OVERSCAN」 option to the function On or Off.
SETUP MENU	
LANGUAGE SELECT	Select \[Language \] option to change the language of the OSD. Enter the option and select a language. [Reference only, the OSD Language depends on the selected model]
RESOLUTION NOTICE	Select the \[RESOLUTION NOTICE \] option to the function On or Off.
INFORMATION	Display Horizontal frequency/Vertical frequency/Resolution information.
OSD TIMEOUT	Select \[OSD TIME-OUT \] option to set the OSD time out from 5 to 60 seconds. Enter the option and adjust the level.
OSD BACKGROUND	Select the \[OSD BACKGROUND \] option to the function On or

User's Manual

	Off.	
POWER INDICATOR	Select the POWER INDICATOR option to the function On or Off.	
AUTO POWER OFF	Select the \[AUTO POWER OFF\] option to \[the function On or Off.	
SLEEP	Adjust the sleep mode value of the display according to your preference .	
ECO MODE	Adjust the ECO Mode value of the display according to your preference: Standard/Optimize/Conserve.	
DDC/CI	Select the \[\text{DDC/CI} \] option to switch the function On or Off.	
MEMORY RECALL	Select the \[MEMORY RECALL \] option to reset to the monitor's factory setting.	

PLUG AND PLAY

Plug & Play DDC2B Feature

This monitor is equipped with VESA DDC2B capabilities according to the VESA DDC STANDARD. It allows the monitor to inform the host system of its identity and, depending on the level of DDC used, communicate additional information about its display capabilities. The DDC2B is a bidirectional data channel based on the I²C protocol. The host can request EDID information over the DDC2B channel.

THIS MONITOR WILL APPEAR TO BE NON-FUNCTIONAL IF THERE IS NO VIDEO INPUT SIGNAL. IN ORDER FOR THIS MONITOR TO OPERATE PROPERLY, THERE MUST BE A VIDEO INPUT SIGNAL.

TECHNICAL SUPPORT (FAQ)

Q & A FOR GENERAL PROBLEMS

PROBLEM & QUESTION	POSSIBLE SOLUTION
Power LED is not on	*Check if the Power Switch is in the ON position. *Power Cord should be connected.
No Plug & Play	* Check if the PC system is Plug & Play compatible. *Check if the Video Card is Plug & Play compatible. *Check if any plug pins on the VGA or HDMI connector are bent.
The display is too dark or too bright.	*Adjust the Contrast and Brightness Controls.
Picture bounces or a wave pattern is present in the picture	*Move electrical devices that may cause electrical interference.
The power LED is ON (Amber) but there's no video or no picture.	*Computer Power Switch should be in the ON position. *Computer Video Card should be snugly seated in its slot. *Make sure monitor's video cable is properly connected to the computer. *Inspect monitor's video cable and make sure none of the pins are bent. *Make sure computer is operational by hitting the CAPS LOCK key on the keyboard while observing the CAPS LOCK LED. The LED should either turn ON or OFF after hitting the CAPS LOCK key.
Missing one of the primary colors (RED, GREEN, or BLUE)	*Inspect the monitor's video cable and make sure that none of the pins are bent.
Screen image is not centered or sized properly.	* Adjust pixel frequency CLOCK and PHASE or press hot-key
Picture has color defects (White does not look white)	*Adjust RGB color or select color temperature.
The screen resolution needs to be adjusted	*Use win 2000/ME/XP Right click anywhere on desktop and select Properties>Settings>Screen Resolution . Use the silder to adjust the reslution and click Apply .
No sound is outputted from monitor's built-in speaker	*Make sure PC audio output cable is connected to screen's LINE IN port (or AUDIO IN port). *Make sure the sound volume adjustment can be clearly identified. *Make sure the System > Silence option in the monitor menu is on. *While transferring via HDMI port but no sound is outputted, it is recommended to select AUDIO INPUT as a PC option, and make sure PC audio

output cable is connected to monitor's LINE IN port(or AUDIO IN port). [For HDMI Input only]

Addendum related to Windows 7 / Windows 8

When you encounter display problem under Windows 7/ Windows 8, you need to do the following:

- 1. Make sure your PC computer (Hardware requirement) can support Windows 7/ Windows 8.
- 2. Make sure your video card can run Windows 7/ Windows 8.
- 3. If your video card can support Windows 7/ Windows 8, need to install the latest Windows 7/ Windows 8 driver of your video card.

Suggest to do the following:

- 1. Install the latest Windows 7/ Windows 8 video driver of your video card.
- 2. Try to use the recommended display resolution that is supported by the monitor.
- 3. If the recommended display resolution is not working, try the second recommended display resolution.
