

NEW PRODUCT ANNOUNCEMENT

Universal Monitor Risers

Elevate Screens to Improve Workspace Ergonomics

Model: MR1220M

Metal risers have three-position height adjustment to improve viewing comfort.

Perfect for:
Flat-screen monitors, laptops, printers
and other office equipment

Using a riser to elevate a flat-panel monitor, television or laptop to a comfortable viewing height can help relieve symptoms of poor ergonomics, such as fatigue, neck pain and eye strain. Monitor risers also provide convenience and placement flexibility, since they are easy to move and reposition.

Tripp Lite monitor risers are available in a variety of sizes and shapes to fit almost every workspace.

Key Benefits

COMFORTABLE VIEWING

- Raising a monitor off a desk or table can help improve workspace ergonomics.
- Select risers, including metal risers, have adjustable legs to customize monitor height.
- MR1815SWVL swivels to optimize viewing angles.

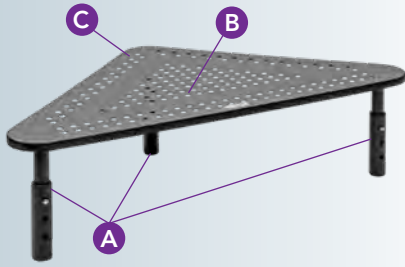

WORKSPACE OPTIMIZATION

- Risers maximize space on a desk or table, allowing paperwork and desk accessories to stow beneath the riser.
- Select risers feature storage for office supplies.
- Metal risers have a perforated platform to provide ventilation for laptops and other electronics, eliminating the need for external cooling fans or pads.

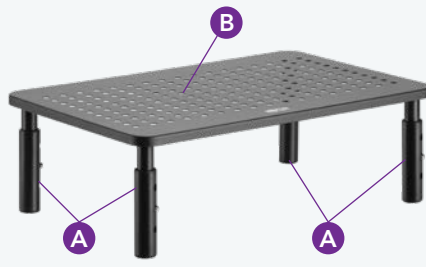

CONVENIENT DEPLOYMENT

- Risers come in a variety of sizes and shapes to accommodate most monitors and laptops.
- Assembly can be completed in minutes for quick placement without permanent mounting.
- Rubber feet prevent the risers from sliding on smooth surfaces.
