

# WorkForce Pro WF-8010DW

Ideal for small to medium offices that want to cut costs and environmental impact, and reduce intervention.

A small to medium workgroup A3+ printer, perfect for business environments that have traditionally used lasers and want to increase productivity and reduce downtime and waste. Epson's clean technology helps create a more environmentally friendly workplace.

## Low TCO printing

Take advantage of a low Total Cost of Ownership (TCO), and print up to 4,000 colour and 5,000 mono pages<sup>1</sup> using, easy-to-change, high-capacity DURABrite Pro ink cartridges.

## Ecological

The WF-8010DWF uses up to 80 percent less power than competitive colour lasers<sup>2</sup> thanks to its no-heat technology. No ozone gas is emitted, and an improved quiet print mode and no fan noise during or after printing make it ideal for the work environment. And there are fewer parts to replace than a laser.

## Enhance productivity

Print at up to 34 pages per minute (ppm) in both colour and mono, with ISO print speeds of 24 ppm for both<sup>3</sup>. The WF-8010DWF delivers automatic double-sided A4 and A3 printing for eco-friendly and business-quality results. Scalable optional paper trays take its maximum capacity to 1,831 sheets, and the rear manual paper tray lets you print A3+ and onto a range of media.

## Built for business

PrecisionCore technology powers the output quality and reliability that Epson is known for, at the speeds required for office, commercial and industrial printing. With Gigabit Ethernet and Wi-Fi connectivity, the WF-8010DWF seamlessly integrates into any business network. Users can also securely print using a PIN code to release confidential documents, or by using Email Print for Enterprise<sup>4</sup> to securely send documents directly to the printer.
