WorkForce DS-860

600 dpi Resolution

OCR

2.0

The WorkForce DS-860 is our fastest double-sided A4 sheet-fed scanner, ideal for governments, banks and healthcare establishments.

With fast data processing, this sheet-fed scanner is ideal for quick and easy document workflow.

Performance and productivity
This scanner features a compact footprint and high-speed scanning of up to 65ppm / 130ipm, even at 300dpi in colour. This, combined with hardware JPEG compression, makes large scan jobs faster to process. Its ReadyScan technology certifies mercury-free products and guarantees no warm-up time before scanning.

Seamless integration into document management and cloud systems
Epson Document Capture Pro makes it easy to integrate this business scanner into your document management system, speeding up workflow and enabling you to capture, convert and distribute scanned information into your document filing system. In addition, barcode recognition and Zonal OCR help automate large document processes, such as file naming and folder creation. The DS-860 is easy to integrate into almost any document management system and workflow process thanks to WIA, TWAIN and ISIS driver support.

Scan software included
Epson Scan offers a wide selection of advanced document imaging features, such as text enhancement and automatic de-skew, which help improve efficiency and increase workload output. The DS-860 also scans to .docx, .xlsx and .pptx.

Easy network sharing via Ethernet
Optional Network Interface Unit is also available.
