## An idea makes history

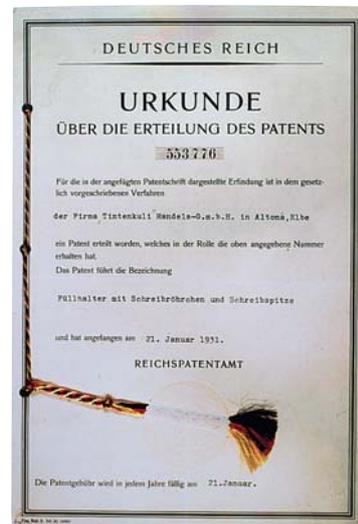

The idea came in 1928 - the perfect writing instrument. One that would write evenly, make carbon copies, and not drip or blot. No small matter in the pre-ballpoint era! The result was an inkpen that used a tube instead of a nib - the rotring Tiku or Inkograph. It became a byword for precision writing.

The Tiku was an innovative solution and since then the meeting of writing and drawing challenges through innovation has become the hallmark of the rotring company

Hence, in 1950 a dialogue with draftsmen and designers gave rise to the idea of further developing the Tiku tubular tip to create the world's first technical pen - the original Rapidograph. It was refillable, created precise sharp-edged lines and had a capillary ink feed that gave a consistently smooth flow of ink. It set the standard, and indeed became synonymous with technical drawing.

Over the years the Rapidograph was followed by many other drawing products. Rotring created an interlinking system for the professional drafter, from compasses and templates to the latest generation of the Rapidograph.

Functionality and technical perfection make rotring drawing instruments symbols for quality and precision. They continue on in the tradition laid down by founder Wilhelm Riepe back in 1928.

The Tiku Patent

Today, rotring drawing instruments can be found wherever individuals actively create their own lifestyles. People who understand the power of their thoughts and visions, and express them.

rotring Tikky

This need to create, understand, and express is an integral part of the development of every rotring drawing instrument. Today rotring provides a comprehensive system of products offering the optimum solution for every application within technical drawing and design, for professional drafters, students and private individuals alike.

The perfection of technology, ergonomics and design creates a universe that is ideal for drawing, also enhancing the perfect expression of ideas and visions.

**rotring rapidograph**

**For tracing paper, vellum drawing paper and lineboard.**

The rapidograph uses rotring's unique capillary cartridge. The pressure-equalization system, including ink helix is part of the ink cartridge which ensures that every time you change the cartridge, you get a clean new ink helix. This means that you never need to clean the ink helix and top reliability is guaranteed.

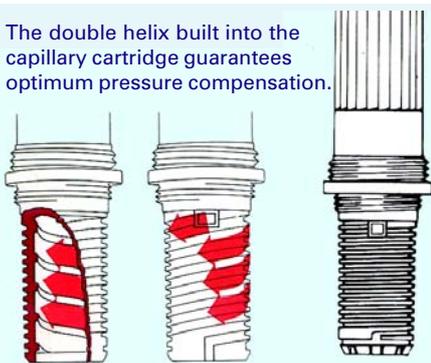

**rotring rapidograph, International Penline (IPL)**

**rotring rapidograph with pen station**

The rapidograph work sets with pen stations keep your technical pens ready to draw instantly. Simply place the pen in the pen station with light pressure. The ideal horizontal position and a grip flexible double seal prevent the pen from drying. Individual pen stations can be taken from the set and affixed to table or drawing board with double-sided tape (provided with the work set).

\* All sets include compass attachment for 3.5/4 mm dia. and stencilling joint.

**Capillary cartridges for rotring rapidograph**

For tracing paper, vellum drawing paper and lineboard. (Box of 3)

**Special characteristics:**

For tracing paper, vellum drawing paper and lineboard. Easy flowing, high opacity, good adhesion, smudge-proof when dry, waterproof, not erasable with rotring pencil erasers B20 or B30, lightfast, suitable for all forms of reproduction.

**Tuschefarbe**

<b>S0215710</b> (R590503)	red	
<b>S0215870</b> (R590509)	blue	
<b>S0194640</b> (R590517)	black	

**Capillary cartridges for rotring rapidograph F**

With non-etching black drawing ink for all matt-coated drafting films and drafting papers.

**R S0216710** (R596517) black, box of 3

**Special characteristics:**

Easy-flowing, high opacity and adhesion, fast-drying, unaffected by fingerprints on media, dries smudge-proof and waterproof. Not erasable with rotring pencil erasers B20 or B30. Lightfast, reproducible.

**rotring pen cleaning unit for technical pens**

For cleaning technical pens overnight. Fill cup half-full with water, add cleaner concentrate, place disassembled pen parts in the basket, and screw shut. Turning the unit over causes the cleaning solution to rinse through the pen parts, for thorough cleaning of even the most stubborn ink residues.

**R S0215490** (R585281) with 10 sachets of cleaner concentrate

**rotring cleaner concentrate**

For cleaning dirty, encrusted technical pens and nibs. Dissolve concentrate in water in the rotring pen cleaning unit. Cleaning time will depend on how dirty the pens are.

**S0215340** (R585270) Pack of 10 sachets

**rotring cleaning fluid for technical pens**

For cleaning drawing instruments used with non-etching drawing inks.

**S0215410** (R585280) 100 ml

**Drawing inks for paper****for rotring isograph and Variant (II)**

rotring drawing inks in bottles and cartridges (Box of 5)

**Special characteristics:**

Suitable for tracing paper, vellum, drawing paper and lineboard. Easy-flowing, high opacity, good adhesion. Smudge-proof when dry, waterproof, not erasable with rotring pencil erasers B20 or B30, lightfast, suitable for all forms of reproduction, coloured inks can be mixed with one another, high colour purity.

**rapid-eraser B20 / B30**

For erasing polymer/graphite pencil lines from all drawing media. The elastic white plastic eraser contains no abrasives, so it will not affect ink lines. It works by rolling up graphite and dirt particles in eraser dust. The erased surface stays clean, with no smears or marks. The dust brushes media surface.

## rotring XONOX Graphic

A fine fibre-tip pen with non-fading waterproof pigmented ink and a metal-jacketed fibre-tip nib for accurate drawing on straightedges or templates. Free-ink technology ensures consistently high line quality to the very last drop. The ink-level window shows the amount of ink left in the reservoir at any time.

### Free Ink – The intelligent solution

Free Ink technology is a perfect example of rotring's innovative force. Our Free Ink writing instruments have clear advantages. The ink feed module gives a free yet controlled flow of ink from the reservoir onto the paper, eliminating the need for a conventional ink storage plug. This makes it possible to use 100% of the ink contents, down to the last drop.

Free Ink is efficient but it's also carefree, even fun to use.

**rotring Tikky II**

The ergonomic wave-form grip area offers a good hold. With its classic design, the rotring Tikky II is the ideal mechanical pencil for school and office. The button, clip and tip with high-precision sleeve are non-tarnishing. The fixed sleeve offers an unimpeded view of the page, making the Tikky II excellent for drawing with a straight-edge or template.

Also available as rotring Tikky II ballpoint with Jumbo refill.

### rotring Tikky II/rotring T

Colour-coded in accordance with ISO 3098, these mechanical pencils show at a glance what line width is available, allowing you to make sketches, mechanical drawings and texts cleanly and accurately in accordance with drawing standards. The strong high-precision tip is ideal for use with a straight-edge and template. Making the Tikky II a perfect tool for mechanical drawings and sketches.

### rotring 300 clutch pencil

The rotring 300 clutch pencil is the ideal tool for writing, drawing and sketching. With the classic hexagonal design and knurled grip, this is a pencil to show off your technical expertise. Another feature is the lead hardness grade indicator. rotring 300 clutch pencil is a "refillable" pencil for 2 mm lead refills.

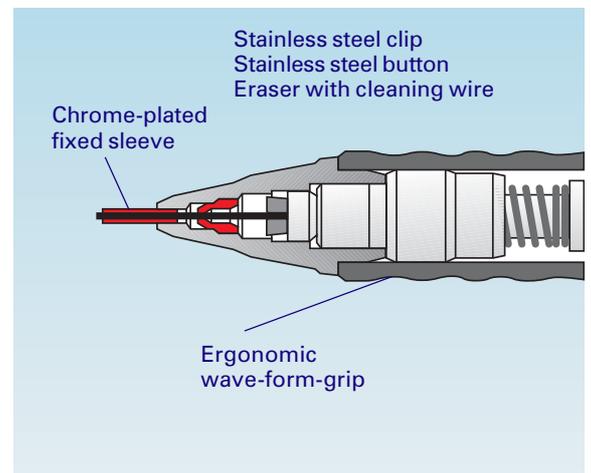

### rotring 300, clutch pencil, plastic

**S0207300** (R502320)  2.0 mm

#### Eraser refills for mechanical pencils

**S0271220** (R502721) for rotring Tikky II and rotring T

**rotring fine leads**

High-polymer fine leads from rotring are a solid foundation for you to build on. Their extra-strong formula turns your mechanical pencil into something more than just a refillable pencil.

**rotring erasers**

The rotring Tikky erasers can be relied upon to remove pencil and coloured pencil lines without a trace. By using dirt-catching additives and avoiding hard abrasives, they make sure that the media surface always remains clean.

-----------------	------------	----	--	--------

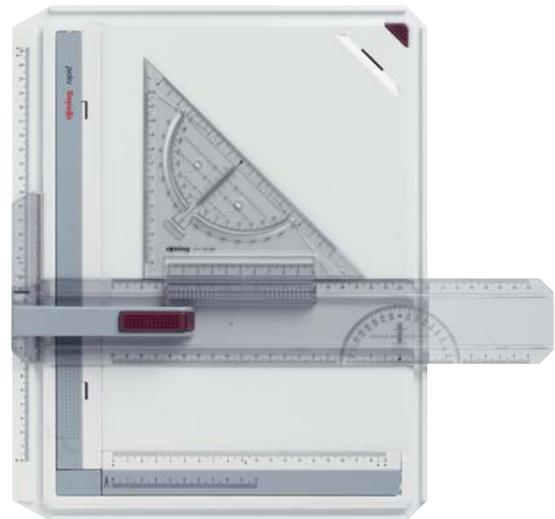

**rotring rapid drawing board**

The full-featured drawing board for speed, precision and ease of use.

- Robust board of unbreakable, non-warping material.
- Ergonomic design for easy, comfortable working.
- Parallel straightedge with STOP-and-GO locking/unlocking action.
- **The L-system straightedge design** - allows drawing along the top edge of the straightedge right down to the bottom of the sheet, with full accuracy and stability.
- Two magnetic clamp strips with central pushbutton operation plus additional corner clamp, for exact media positioning and absolutely secure holding.
- Guide rails designed for permanently smooth, featherlight straightedge movement.
- End lock on A3 straightedge for added stability.
- Comes complete with rapid set square for drawing vertical and horizontal lines and angles.
- Includes tilters for comfortable working.

**rotring rapid drawing boards**

- S0213910** (R522403) rapid A3
- S0232710** (R522404) rapid A4

**rotring rapid drawing boards in the college case**

This rigid case features guides to hold drawing board securely, as well as space for utensils, books, etc.

- S0232980** (R523403) rapid A3 + college case
- S0233040** (R523404) rapid A4 + college case

### rotring profil drawing board

For precise drawings and easy, comfortable working.

- Robust board of unbreakable, non-warping material.
- Ergonomic design for easy, comfortable working.
- Parallel straightedge with STOP-and-GO locking/unlocking action.
- **The L-system straightedge design** - allows drawing along the top edge of the straightedge right down to the bottom of the sheet, with full accuracy and stability.
- Magnetic clamp strip plus additional corner clamp to hold media securely.
- Guide rails designed for permanently smooth, featherlight straightedge movement.
- End lock on A3 straightedges for added stability.
- Can be used with tilters (purchased separately) for added working comfort.

### rotring profil drawing boards

**S0213750** (R522231) profil A3

**S0232430** (R522241) profil A4

**Tilters** for profil and rapid drawing boards. Enable board to be tilted at either of two angles for comfortable working.

**S0232330** (R522227) 1 pair

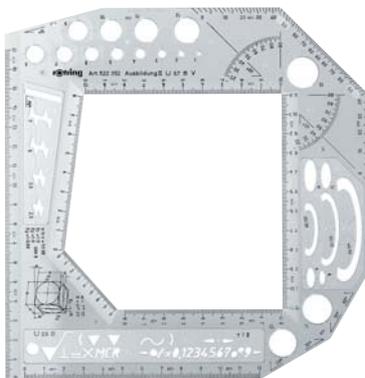

**Professional drawing head**  
with automatic setting every 15° and locking of any angle in between, plus free-swinging setting. Contra-rotating 0-90° scale, brake mechanism to lock in position on straightedge.

**S0213830** (R522346)

**Junior drawing head**  
with 15° ratchet action.

**S0213680**  
(R522230)

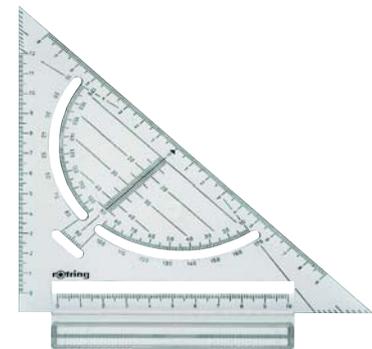

**Multipurpose drawing template II**  
With 15°, 30°, 45°, 60°, 90° angles, circles with diameters from 1 - 15 mm in steps of 1 mm, ellipses with large axes 12, 15, 20, 25, 30, 35, 40, 50 mm, surface symbols, dimensioning arrows, line device for standard lettering, 7°/42° angles for dimetric projection.

**S0232590** (R522352)    180 x 180 x 1,6 mm  
L 0.7 - 0.5 mm H V

**Rapid set square**  
For direct measurement and drawing of vertical and horizontal lines and angles, and for hatching.

**S0232240** (R522225)

**rotring college case, empty**  
This rigid case features guides to hold drawing board securely, as well as space for drawing instruments.

**S0232510** (R522273)    for A3 boards  
**S0232550** (R522274)    for A4 boards

**rotring Collegeboard A3**

For sheet sizes up to 450 x 325 mm.

- Magnetic clamp with scale.
- Straightedge guide slots on all four sides with signal humps.
- Parallel straightedge with grip area and STOP-and-GO button.
- Additional metal clamp.

**S0213660** (R522110)

**Protective carry bag**

Tough weatherproof nylon.  
Has detachable shoulder strap and  
space for books and utensils.

**S0232160** (R522213)

for A3 boards

**S0232200** (R522214)

for A4 boards

**rotring A2 drawing table**

A complete drawing system with drawing board laminated on all sides, **anodized aluminium guide track with plastic guide coating**, parallel straightedge with STOP-and-GO mechanism, 25 cm vertical scale with STOP-and-GO mechanism and adjustable plastic tilter.

**S0213920** (R522433) A2 (board size 700 x 600 x 16 mm)

**rotring T-square-set A2**

With precision anodised-aluminium guide track and plastic glide coating. Fast, simple mounting on drawing board or other work surface with special clamps.

- Parallel straightedge with STOP-and-GO mechanism.
- 25 cm rapid scale with STOP-and-GO mechanism.
- 2 special clamps made of plastic.
- Without drafting table

**S0232880** (R522442) A2

**Universal compass**

- Can be used for any task, by quickly setting the radius.
- Larger radii can be set, without the need for extension rods.

**Rapid adjustment compass**

- Convenient button-operated rapid adjustment.
- Precise settings due to central spindle.
- Legs open and close synchronously.
- Highly resistant to accidental changes in radius.

**Geometry compass**

- Precision radius adjustment with central spindle.
- Legs open and close synchronously.
- Highly resistant to accidental changes in radius.

**Plain dividers**

- For marking line segments.
- Radius easily adjusted and held in place by friction adhesion in compass head.

**Pump compass**

- For drawing very small circles.
- Safe operation due to low-lying centre of gravity.
- Radius set with high-precision adjustment screw.

**Rapid adjustment compass**

Fast and precise radius adjustment  
 Mobility of the spindle can be fixed by set screw  
 Both legs with joint  
 Ergonomic plastic application and handhold depressions  
 Circles up to  $\varnothing$  360 mm  
 Pivot:  $\varnothing$  4.0 mm  
 Length: 170 mm  
 Lead box and spare needle  
**S0676580**

**Giant Universal Compass**

Fast and smooth radius adjustment  
 Both legs with joint  
 Ergonomic plastic applications and handhold depressions  
 Circles up to  $\varnothing$  360 mm  
 Pivot:  $\varnothing$  3.5 mm  
 Length: 160 mm  
 Lead box and spare needle  
**S0676550**

**Geometry Compass**

Precision radius adjustment through central wheel spindle  
 Both legs with joint  
 Ergonomic plastic applications and handhold depressions  
 Circles up to  $\varnothing$  360 mm  
 Pivot:  $\varnothing$  4.0 mm  
 Length: 170 mm  
 Lead box and spare needle  
**S0676570**

**Compass Set (6-pieces)**

Contents: giant universal compass, stable extension bar, compass attachment with universal holding device, drawing pen, drawing pen holder, lead box and spare needle  
 Circles up to  $\varnothing$  640 mm  
**S0676560**

**Universal Compass**

Fast and smooth radius adjustment  
 Convenient handhold depressions  
 Circles up to  $\varnothing$  320 mm  
 Pivot:  $\varnothing$  3.5 mm  
 Length: 130 mm  
 Lead box  
**S0676530**

**Universal Compass Set**

Contents: Universal compass, extension bar, compass attachment with universal holding device and lead box  
 Circles up to  $\varnothing$  480 mm  
**S0676540**

**College Compass with rapid adjustment**

Fast and precise radius adjustment  
 Mobility of the spindle can be fixed by setting screw  
 Both legs with joint  
 Circles up to  $\varnothing$  360 mm  
 Pivot:  $\varnothing$  4.0 mm  
 Length: 174 mm  
 Lead box and spare needle

**S0233491**  
 (R5301110)

**Giant bow compass with rapid adjustment**

Infinitely variable radius setting through convenient button mechanism  
 Precision adjustment through central spindle  
 Both legs with joint  
 Pivot:  $\varnothing$  4.0 mm  
 Length: 170 mm  
 Lead box and spare needle

**S0214470** without extension bar  
 (R5301115) circles up to 400 mm dia.

**S0214540** with extension bar  
 (R5301116) circles up to 640 mm dia.

**Geometry Compass**

Precision radius adjustment with central wheel spindle  
 Spindle with end stop  
 Circles up to  $\varnothing$  250 mm  
 Length: 160 mm  
 Lead box and spare needle

**S0233300**  
 (R529130)

**Universal Compass**

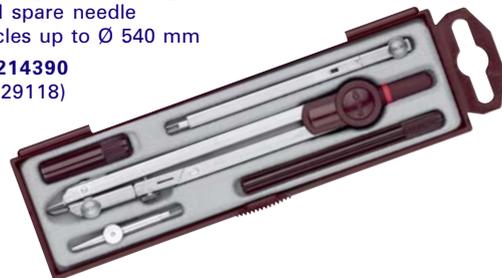

Fast and smooth running radius adjustment  
 Insert leg with joint  
 Circles up to  $\varnothing$  380 mm  
 Pivot:  $\varnothing$  3.5 mm  
 Length: 140 mm  
 Lead box and spare needle

**S0214320**  
 (R5291117)

**Universal Compass Set**

Contents: universal compass, extension bar, drawing pen, drawing pen holder, lead box and spare needle  
 Circles up to  $\varnothing$  540 mm

**S0214390**  
 (R5291118)

**Compass Set (8 pieces)**

Contents: universal compass, extension bar, dividers, small bow compass, bow compass, drawing pen, drawing pen holder, lead box and spare needle  
 Circles up to  $\varnothing$  540 mm

**S0233410**  
 (R529216)

**Compass Set (7 pieces)**

Contents: universal compass, extension bar, dividers, small bow compass, drawing pen, drawing pen holder, lead box and spare needle  
 Circles up to  $\varnothing$  540 mm

**S0233370**  
 (R529215)

### Giant bow compass with rapid adjustment and extension bar

Infinitely variable radius adjustment through high-quality button mechanism  
 Precision fine adjustments through central wheel  
 Both legs with joint  
 Circles up to  $\varnothing$  640 mm  
 Pivot:  $\varnothing$  4.0 mm  
 Length: 170 mm  
 Lead box and spare needle

**S0233800**  
 (R530224)

### Giant bow compass with rapid adjustment and pen adaptor

Infinitely variable radius adjustment through high-quality button mechanism  
 Precision fine adjustments through central wheel  
 Swivelling pen adaptor with fine lead insert 0.5 mm  
 Insert leg with joint  
 Length: 182 mm  
 Lead box and spare needle

**S0233720** without extension bar,  
 (R530145) circles up to  $\varnothing$  400 mm  
**S0233750** with extension bar,  
 (R530147) circles up to  $\varnothing$  620 mm

**Geometry Compass**

Precision radius adjustment through central wheel spindle  
Both legs with joint  
Pivot: Ø 4.0 mm  
Length: 160 mm  
Lead box and spare needle

**S0233601** without extension bar,  
(R5301350) circles up to Ø 400 mm

**S0233631** with extension bar,  
(R5301360) circles up to Ø 640 mm

**Universal Compass with Telescopic Extension**

Quick and smooth running radius adjustment  
Convenient integrated extension bar  
Insert leg with joint  
Circles up to Ø 520 mm  
Pivot: Ø 3.5 mm  
Length: 150 mm  
lead box and spare needle

**S0233471**  
(R5301090)

**Compass Set (6 pieces)**

Contents: universal compass, small dividing compass, extension bar, drawing pen, drawing pen holder, lead box and spare needle  
Circles up to Ø 600 mm  
Pivot: Ø 3.5 mm

**S0233781**  
(R5302220)

**Compass Set (8 pieces)**

Contents: universal compass, small dividing compass, extension bar, dividers, bow compass, drawing pen, drawing pen holder, lead box and spare needle  
Circles up to Ø 600 mm  
Pivot: Ø 3.5 mm

**S0233821**  
(R5302260)

### Precision Compass Set (5 pieces)

–high-gloss chrome-plated–

Professional compass with bevelled pen shaft  
Smooth quick adjustment through spring-loaded setting screw

Precision radius setting through fine-toothed thread adjustment

Insert leg with joint

High-quality extension bar with settable needle tip.

Circles up to Ø 520 mm

Length: 175 mm

Bow compass with special bevelled pen holder

Fine lead insert: 0.5 mm

Lead box and spare needle

**S0214890** (R532208)

The bow compass can be fitted with  
0.3 mm (S0271520), 0.5 mm (S0271530),  
0.7 mm (S0271540) fine-lead inserts.

### Bow Compass

–high-gloss chrome-plated–

Professional compass with special bevelled pen holder

Extremely precise radius setting with micro screw

Circles: Ø 1 to 14 mm

Length: 120 mm

**S0214750** (R532106)

The bow compass can be fitted with  
0.3 mm (S0271520), 0.5 mm (S0271530),  
0.7 mm (S0271540) fine-lead inserts.

### Dual compass attachment

With stepped peg to fit 3.5 and 4.0 mm dia.  
Peg slot adjustable by 90°.

**S0322070**  
(R533345)

### Cutter insert

For use in any lead insert instead of pencil lead.  
Ball-ground steel blade.  
Peg dia. 2.0 mm.  
For paper up to 160 g/m<sup>2</sup>

**S0322110**  
(R538200)

### Compass attachment with universal holding device

With stepped peg to fit 3.5 mm and 4.0 mm dia.

**S0451450** (R5333600)

The universal holding device takes pens/pencils up to 11.5 mm dia.

### Lead inserts with button mechanism

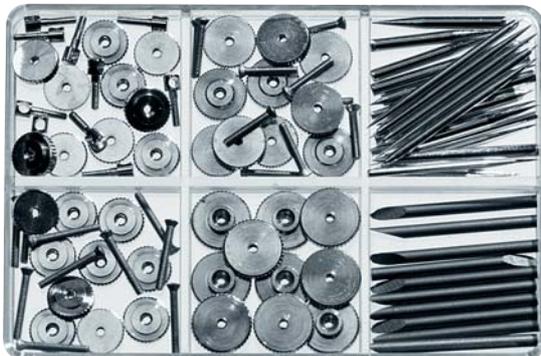

For master bow and pump compasses with pen adaptor.

Brass mechanism in burgundy plastic housing.

**S0271520** (R538233) with 0.3 mm lead

**S0271530** (R538235) with 0.5 mm lead

**S0271540** (R538237) with 0.7 mm lead

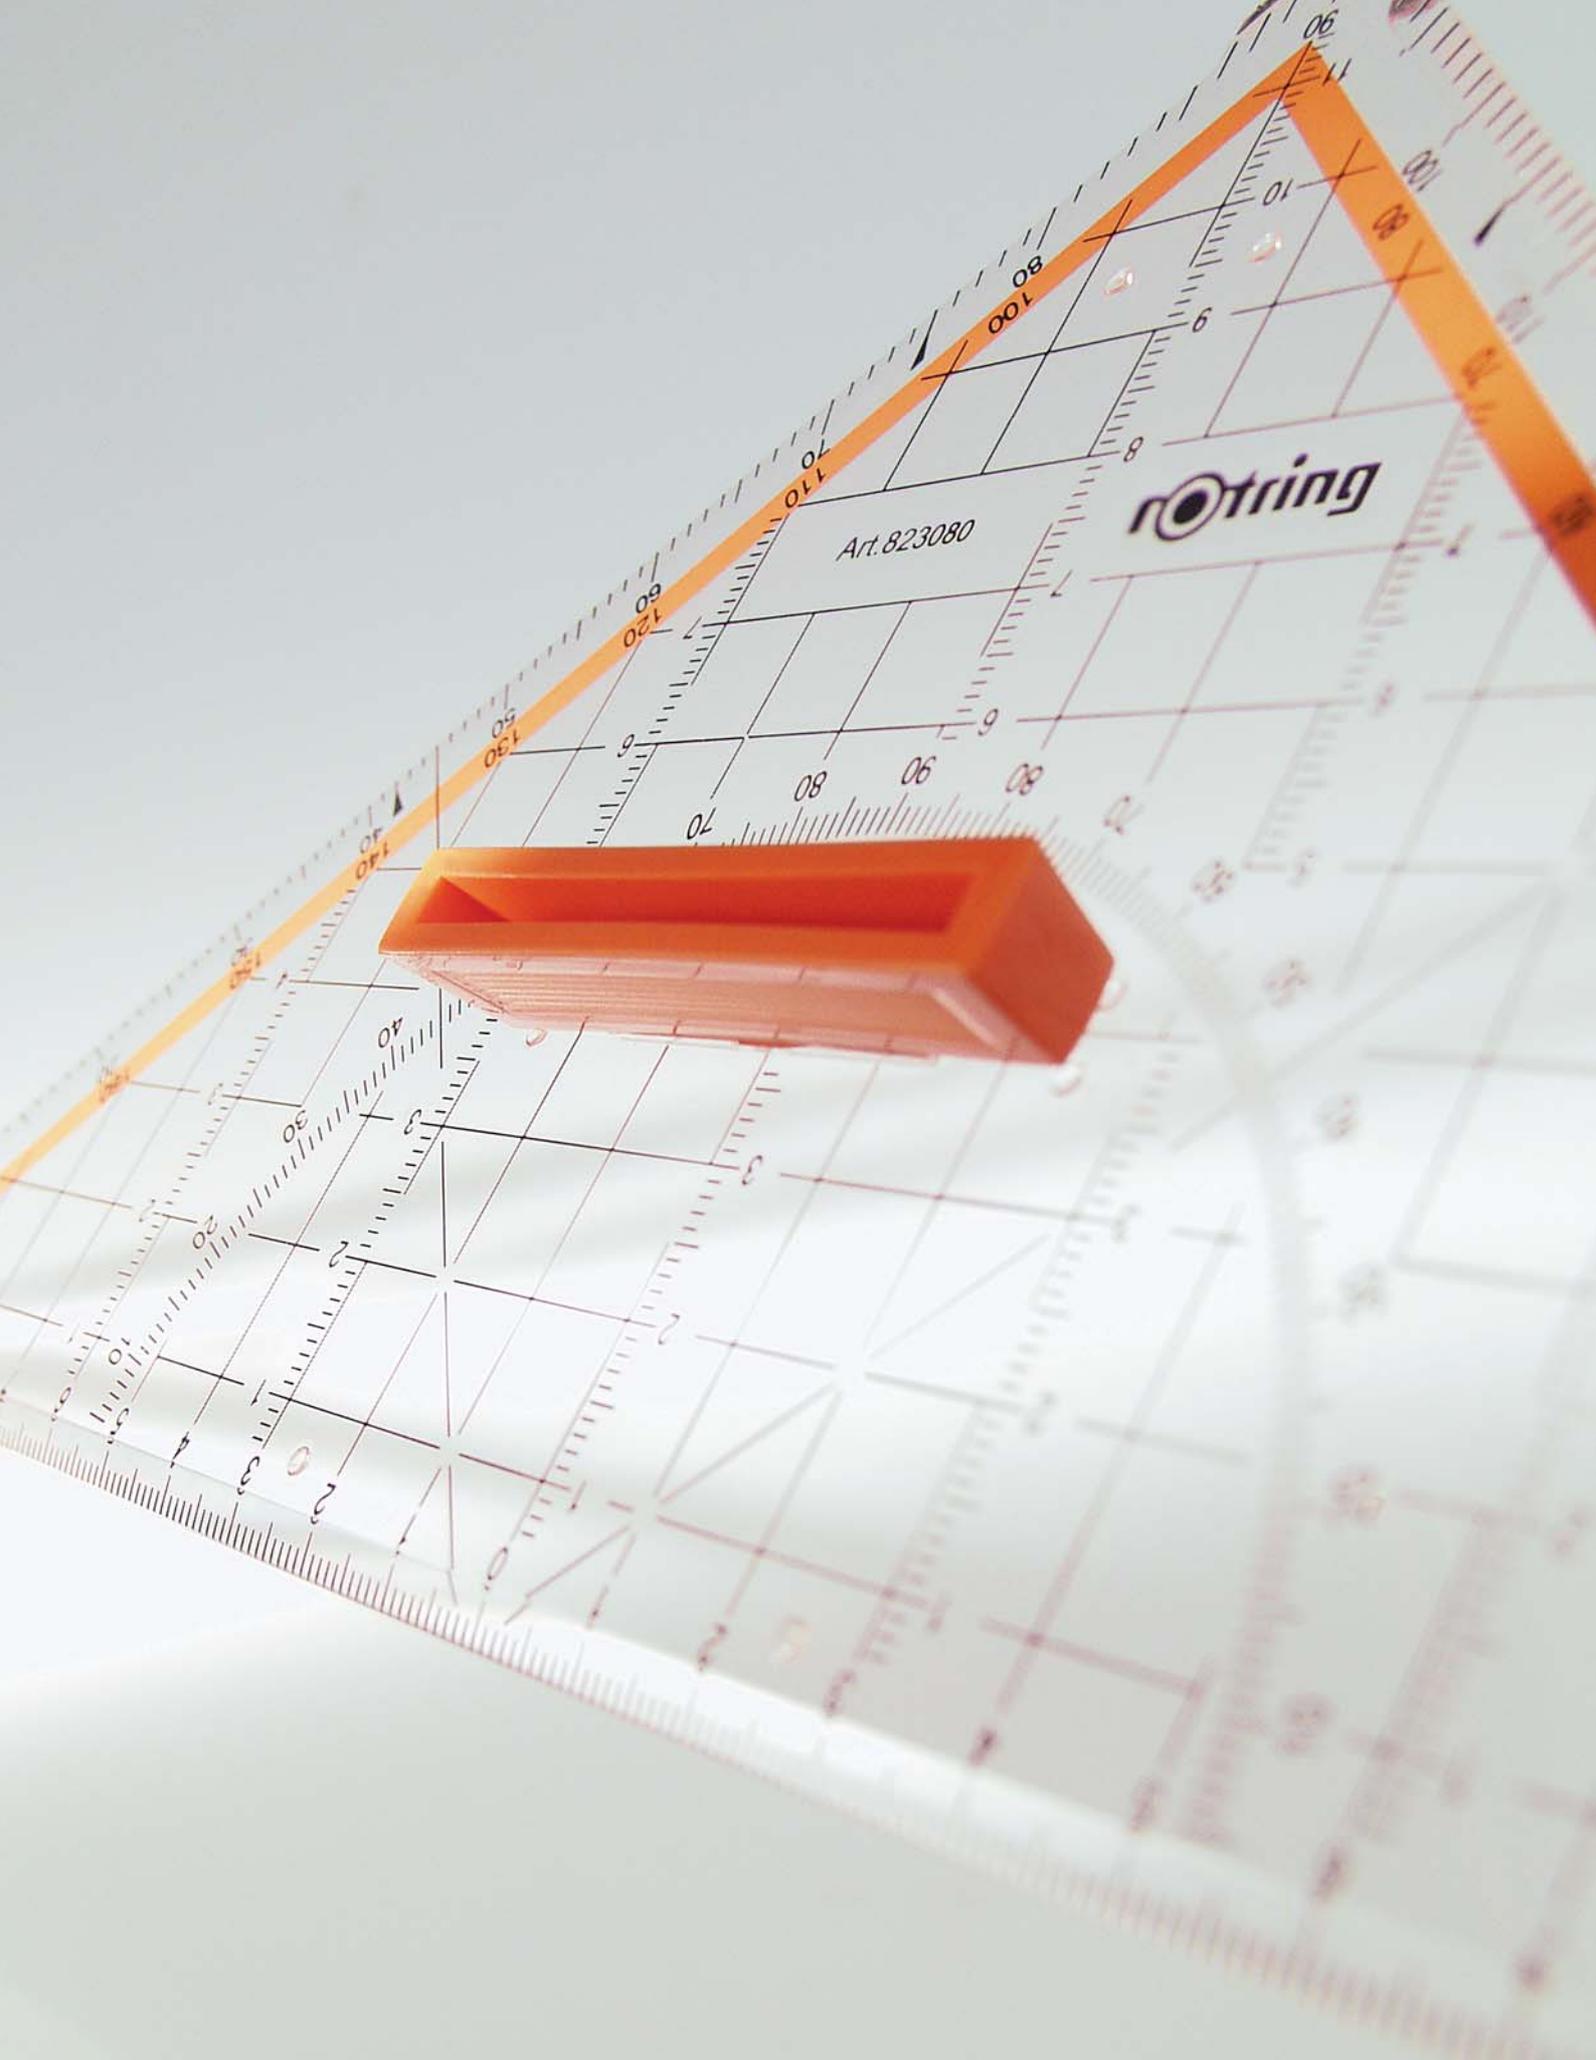

### Small compass spare-parts set

Contents:

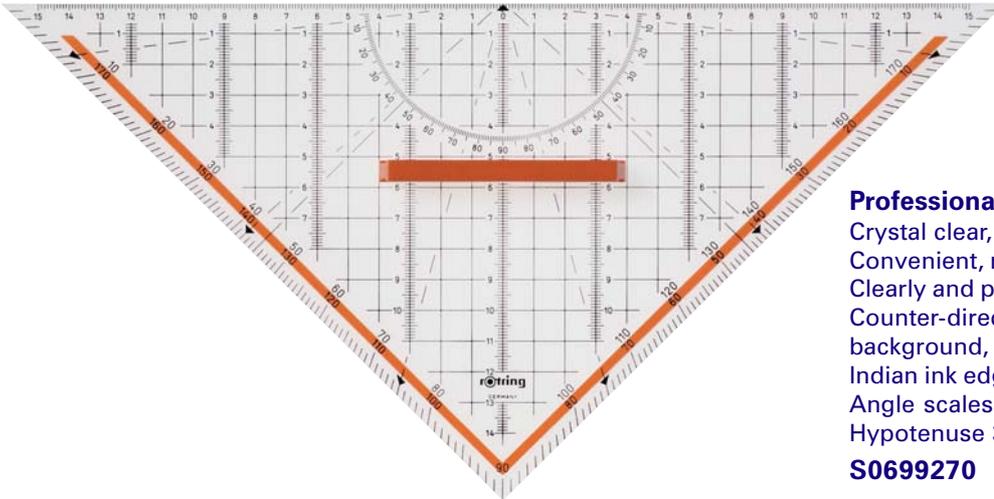

10 nuts 8 x 4.0 mm	
5 needles 26 x 1.3 mm	10 nuts 9 x 2.2 mm
5 needles 20 x 2.0 mm	10 nuts 7 x 2.0 mm
5 needles 26 x 1.5 mm	10 spindels No.11
5 needles 25 x 2.0 mm	10 spindels No. 9
10 leads	10 needle inserts No.8

**S0298190** (R539800)

rotring

Art. 823080

**Professional Set Square**

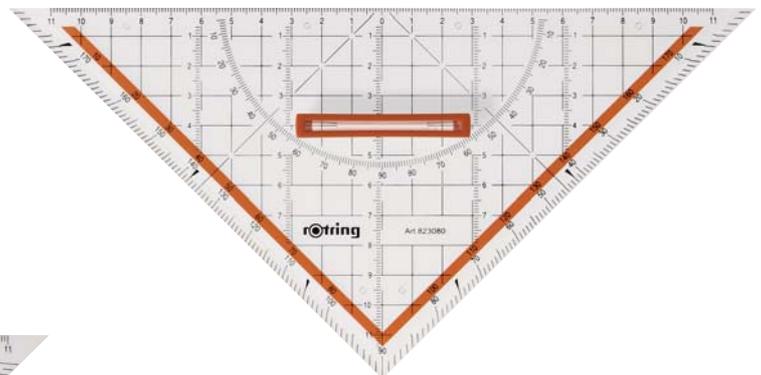

Crystal clear, robust plastic,  
 Convenient, removable grip,  
 Clearly and precisely embossed,  
 Counter-directional numbering with coloured  
 background,  
 Indian ink edges and naps,  
 Angle scales 180°/1°  
 Hypotenuse 32 cm with 30 cm / 1 mm scale.

**S0699270**

**Large Geometry Set Square with Handle**

Crystal-clear, stable plastic  
 Robust handle  
 Contrary scale with coloured background  
 Bevelled edges and ink naps  
 Hypotenuse 25 cm with 22 cm/1 mm scale

**S0220800** (R823004)

**Professional Set Square**

High-quality plexiglas  
 Convenient removable handle  
 Clear and precise fine imprinting  
 Contrary scale with coloured background  
 Tracing edges and ink naps  
 Angle scale 180°/1°  
 Hypotenuse 25 cm with 22cm/1 mm scale

**S0451820** (R823080)

**Geometry Set Square**

Crystal-clear, stable plastic  
 Contrary scale with coloured background  
 Bevelled edges and ink naps  
 Hypotenuse 16 cm with 14 cm/1-mm scale

**S0237630** (R823028)

**Geometry Set Square with Handle**

Crystal-clear, stable plastic  
 Robust handle  
 Contrary scale with coloured background  
 Bevelled edges and ink naps  
 Hypotenuse 16 cm with 14 cm/1 mm scale

**S0237690** (R823042)

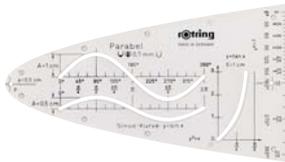

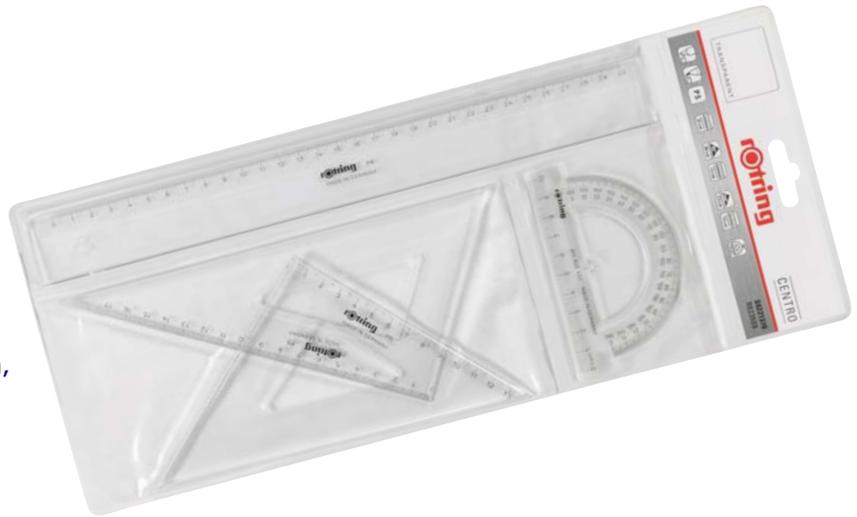

**Geometry Set (4 pieces)**

Crystal-clear, stable plastic  
Bevelled edges and/or tracing edges

**Contents:** 30 cm ruler,  
semicircular protractor  
set square 30°/60°, hypotenuse 23 cm,  
set square 45°, hypotenuse 20 cm

**S0221370** (R823509)

**Standard Parabola ( $y = x^2$ )**

Crystal-clear, stable plastic  
Bevelled edges on the outside contours  
Sine/cosine curves  $A = 1$  and  $A = 0.5$   
Tangent curve

Size: 123 × 70 × 1.8 mm

**S0673400**

**Semicircular protractor**

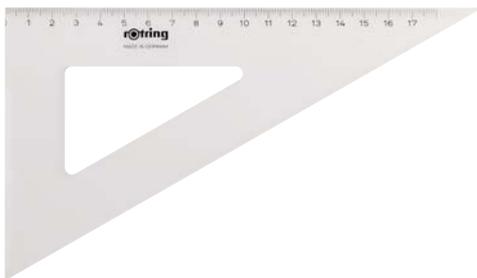

Crystal-clear, stable plastic  
Contrary scale  
Centring point and bevelled edges  
Scaling: 10 cm

**S0221230** (R823301)

**Set Square 45°**

Crystal-clear, stable plastic  
tracing edges all round  
Angle: 45°  
Hypotenuse 20 cm, 13 cm/1 mm scale

**S0221160** (R823226)

**Set Square 30°/60°**

Crystal-clear, stable plastic  
tracing edges all round  
Angles: 30°/60°  
Hypotenuse 23 cm, 18 cm/1 mm scale

**S0221090** (R823202)

**Set Squares Sets of 2  
one 45° and one 30°/60° set square**

Crystal-clear, stable plastic  
Tracing edges all round  
1 mm scale

**S0237840** 45°, hypotenuse 25 cm  
(R823523) 30°/60°, hypotenuse 29 cm

**S0237870** 45°, hypotenuse 32 cm  
(R823530) 30°/60°, hypotenuse 37 cm

**S0237900** 45°, hypotenuse 36 cm  
(R823547) 30°/60°, hypotenuse 41 cm

**Burmester Curves Set  
(3 pieces)**

For drawing of universal curves  
Crystal-clear, stable plastic  
Double-sided tracing edges all round  
**S0221301** (R8234000)

**Flat Ruler**

Crystal-clear, stable plastic  
Bevelled edge and tracing edge  
1 mm increments

- S0220870** (R823103)      Scaling: 16 cm
- S0220950** (R823127)      Scaling: 30 cm
- S0221450** (R823578)      Scaling: 40 cm
- S0221500** (R823585)      Scaling: 50 cm

**Plate Ruler**

Crystal-clear, stable plastic  
Textured plate  
Scale on both sides  
1 × 1-mm scale  
1 × 0.5-mm scale

**S0221020** (R823141)      Scaling: 30 cm

**Wooden Ruler**

Natural beech wood  
Bevelled edge  
1 mm increments

- S0237930** (R823593)      Scaling: 17 cm
- S0237950** (R823594)      Scaling: 30 cm

**Triangular reduction scales**

Of white dimensionally stable plastic.  
The precision divisions are numerated  
both ways.  
Dimension markings in cm and m for  
easier working.  
With 2 coloured flutings.

## Lettering - as neatly as if printed

A precise technical drawing is not complete without true-to-standard lettering, and for that you need rotring's precision lettering stencils. The rotring lettering stencils are stamped with markings to show the line width and character height. This ensures that the right pen and the right stencil are used together for true-to-standards lettering.

rotring lettering stencils are made of high-quality plastic and are especially resistant to warping and breakage. The clear, yellow-tinted material provides for high contrast so that even the finest lines are clearly visible. All edges are highly precise.

rotring lettering stencils are available with double-H-profile and Z-profile.

### Stencilling joint

Attaches between nib and barrel for a more comfortable working angle.

**S0314140** (R515270)

## Lettering stencils in Z-profile per ISO 3098/I, lettering type B

Roman	Character height	rapido-graph	iso-graph	Colour code
<b>S0228430</b> (R342025)	2.5 mm	S0194270	S0202130	white
<b>S0228480</b> (R342035)	3.5 mm	S0194290	S0202270	yellow

### rotring technical templates

rotring precision templates are robust and non-warping, with perfectly formed, true-to-standards symbols selected for the most varied applications.

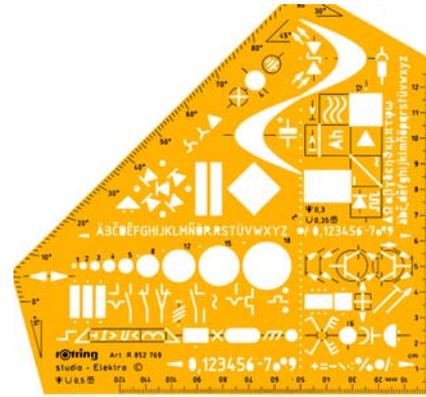

The transparent, yellow-tinted material leaves even the finest of lines (e. g. ones drawn with a rotring fine-lead pencil) clearly visible through the template.

### “Studio” electrical engineering angle template

A drawing aid for metalworking students. With 15°, 30°, 45°, 60°, 75°, and 90° angles, mm coordinate graduation, protractor, circles from 1-18 mm dia., and holes for hatching. Symbols and easy-to-combine symbol elements per DIN 40700, Latin and Greek characters in 3.5 mm and numerals in 3.5 and 5.0 mm sizes per ISO 3098/I Bv.

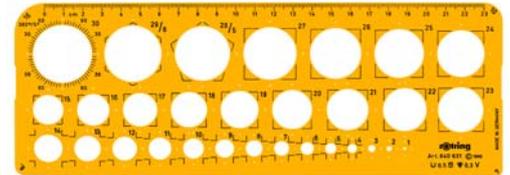

**S0238591** ▼  
(R8527690)  
162 x 160 x 1 mm  
└ 0.35 mm ┆ 0.3

### Circles templates

Circles of 1-30 mm dia. in 1 mm increments. With polygon guides and protractor. Radii 4, 6, 10, 16 mm. With millimetre ruler and fingerlift.

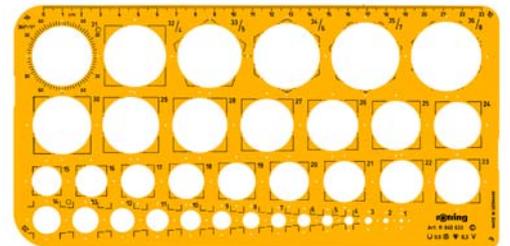

**S0221621** ■  
(R8406310)  
255 x 92 x 1.6 mm  
└ 0.5 mm ▼

### Circles templates

Circles of 1-36 mm dia. in 1 mm increments. With polygon guides and protractor. Radii 6, 10, 16, 20 mm. With millimetre ruler and fingerlift.

**S0221691** ■  
(R8406330)  
255 x 129 x 1.6 mm  
└ 0.5 mm ▼

### Radii templates

48 radii from 0.5-40 mm, 0.5-2 mm in 0.1 mm increments, radii per [DIN 250 underlined](#). Built-in semicircular protractor. With surface symbols.

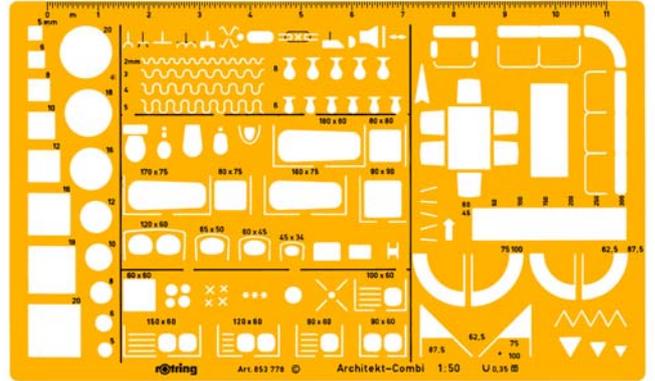

**S0238341** ■  
(R8426830)  
∅ 160 x 1.6 mm  
└ 0.5-0.35 mm ▼

## Architect's combination template

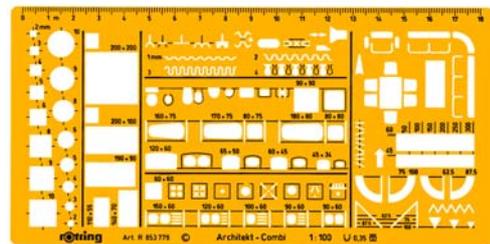

Separate layout of symbols for furniture, sanitary fittings, electrical fittings, door openings, level and direction symbols, insulation.

**S0238711** ▼  
(R8537780)  
**Scale 1:50**  
250 x 150 x 1.2 mm  
└ 0.35 mm

(R8537810)  
**Scale 1:100**  
190 x 95 x 1.1 mm  
└ 0.35 mm

See above, also includes door openings, symbols for level and direction, circles and squares for illustrations from 20 to 130 cm.

**S0238981** ▼  
(R8537850)  
**Scale 1:200**  
170 x 70 x 1.1 mm  
└ 0.25 mm

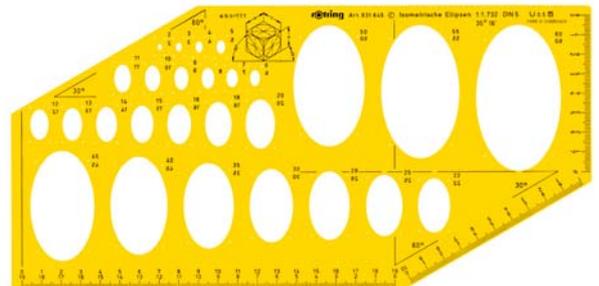

## ISOMETRIC ellipses template

Axial ratio 0.707 : 1.225 (1 : 1.732)/35° 16', isometric axes 2-60 mm.

The template edges are designed to enable the ellipses to be positioned in the major isometric planes.

**S0238021** ▼  
(R8316450)  
295 x 145 x 1.2 mm  
└ 0.5 mm
