

Introducing...

# VisuClean

**NEW**

The **NEW** anti-microbial adhesive vinyl to help protect both surfaces and people.

The semi-permanent adhesive vinyl inhibits bacterial growth and can be applied to **ANY** high contact surface of **ANY** size. The ideal solution to limit the transfer of germs and bacteria, where regular cleaning does not always prevent cross contamination.

- NEW Anti-microbial adhesive vinyl
- Apply to any high contact surface area
- Inhibits bacterial growth
- Available in a range of sizes and orientations
- Bespoke sizes are available upon request

***Ideal for use on walls, floors, door plates, trolley handles, pallet truck handles, elevator buttons, desk tops and many more!***

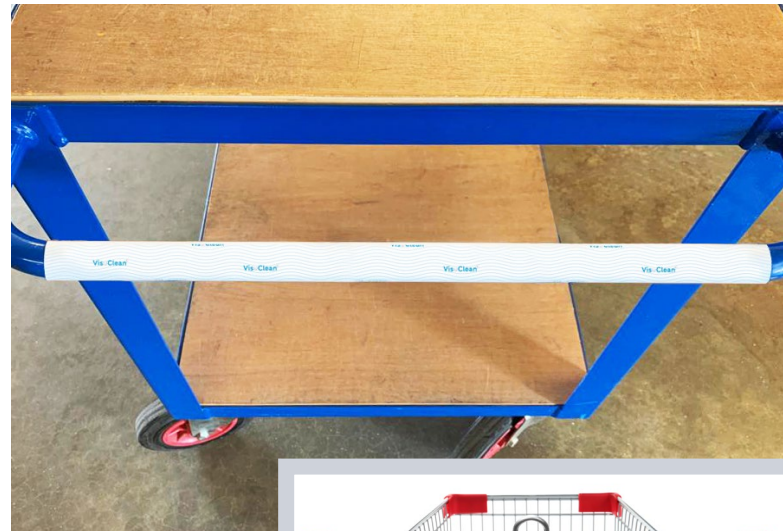

# VisuClean

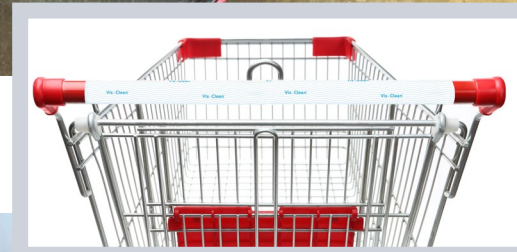

Visuclean meets the international standards established by ISO 22196: 2011 and also follows the Regulation of the European Parliament No. 852/2004. Laboratory results have proven the effectiveness of the antiviral activity of Visuclean against Coronavirus and Lysteria. The anti-microbial agent is effective for approximately 1 year before replacing with another Visuclean vinyl.

Ideal for use on walls, floors, door plates, trolley handles, pallet truck handles, elevator buttons, desk tops, the list is endless! Protection covers environments such as supermarkets, schools, offices, restaurants, airports, warehouses, factories, public transport and many other locations.

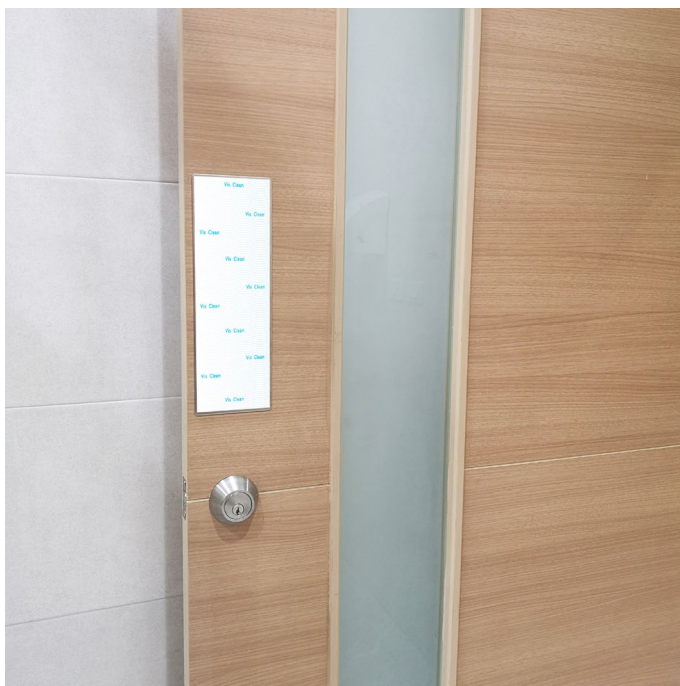

Available in horizontal or vertical options and in a range of different sizes to suit door plates, trolley handles and pallet truck handles. Bespoke sizes are also available upon request. Supplied with a printed design overlay, however, the vinyl can be supplied unprinted and clear if desired.

*Ideal for use on smooth surfaces.*

*Please note: Handles on pallet trucks or trolleys must be symmetrical to prevent creasing.*

| Ref      | Description | Size (mm) | Pack (QTY) |
|----------|-------------|-----------|------------|
