

SHERPA

ADAPTABLE DISPLAY PANEL SYSTEM

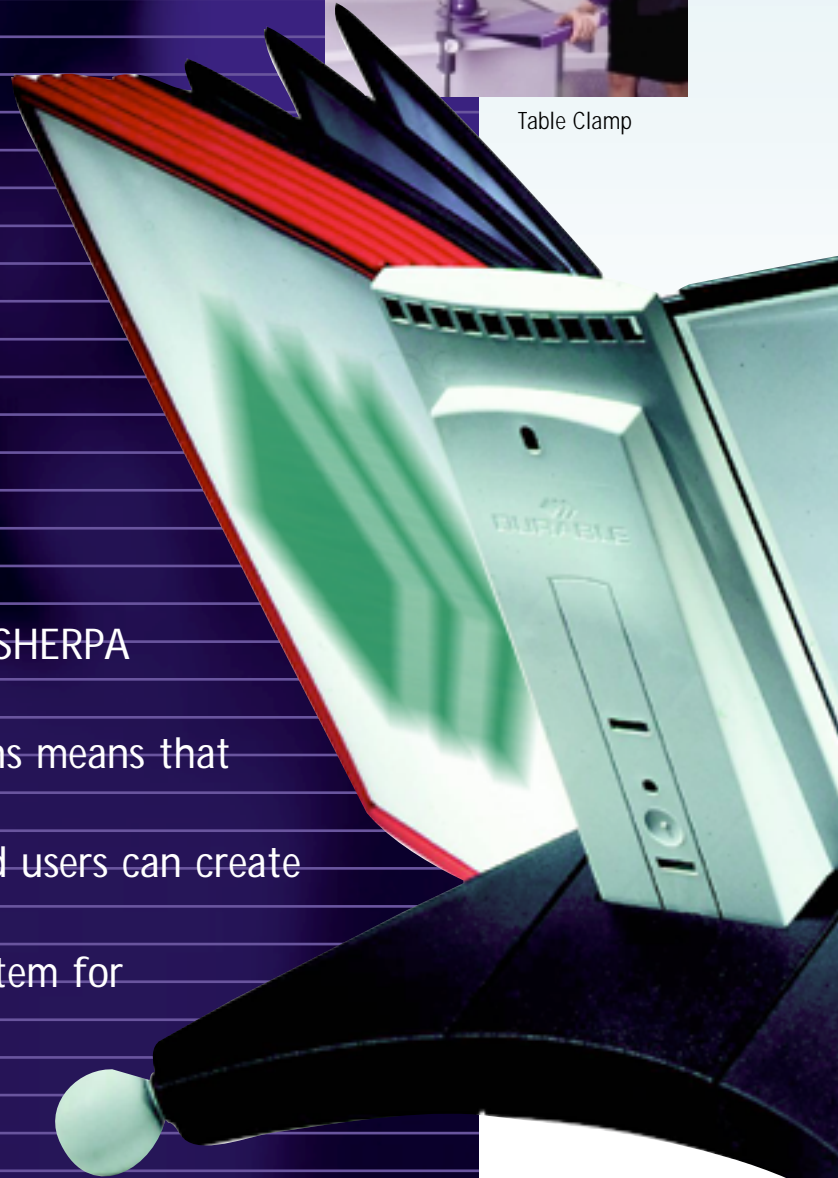

SHERPA combines superior styling with practical design detail to create a panel display system for use in a wide range of applications.

The modular approach to the SHERPA units, plus choice of configurations means that with a few minor adjustments end users can create a high quality tailored display system for their individual needs.

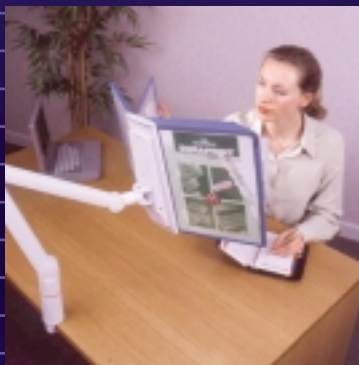

Practical in every detail

Superior Design

The practical design of the SHERPA panel display system ensures that it can withstand constant use and can be extended to accommodate up to 200 A4 sheets in a completely stable unit. The attractive appearance with no unsightly moulding details provides the perfect solution to display useful information at a glance.

SHERPA is available as a desk top, wall or floor standing unit.

Desk Unit

Variety of Applications

SHERPA is already being used in the following companies to display information in a useful and easy way:

- ◆ CUSTOMER SERVICE
- ◆ TELESALES
