Product Description

The Kensington Wall Laptop Power Adapter with USB Power Port is ideal whether you're looking for a replacement or a secondary power adapter for at home or on the move. It provides the reliability that you need and is compatible with a wide range of laptop.

Features

- Output Voltage: 14-17VDC (4.89A Max), 17-21VDC (4.74A). USB: 5VDC (1.0A Max)

- Over current protection, over voltage protection, short circuit protection and over temperature protection

- Smart power technology senses and delivers the amount of power needed to charge your laptop--no more, no less.

- Setup is easy with colour-coded smart tips

- Output power: 90W

- Simple, reliable, secondary power adapter for home/office or on the go

- Disclaimer: Some tips may not be compatible with all laptop models of the manufacturers as shown. Check www.kensington.com.

- Built-in USB power port charges your mobile phone, mp3 player and other mobile devices as well as your laptop from a single plug

- Some laptop/devices have very specific electrical requirements which may result in no compatible connector becoming available for that laptop/device.

- Includes laptop Smart Tips for: Dell®, HP®, Compaq®, IBM®, Lenovo™, Toshiba®, Sony®,Acer®, Asus®, Fujitsu-Siemens® and Samsung®

- Includes EU & UK plugs

- Input Voltage: 100-240VAC, 50 - 60Hz, 1.5A Max*
