

GBC PROCLICK CARTRIDGE 8MM

2515721

Overview

It's easy to see why GBC ProClick® has become such a popular document finishing solution. This lightening-fast binding system enables you to create professional documents accurately and efficiently, ensuring your reports and presentations stand out from the rest. Made of durable plastic, the spines are easy to open for page editing so you can make changes to your work without having to reproduce the whole document. And the bound pages lie flat with 360 degree rotation for convenient note taking and photocopying.

Description

The revolutionary GBC ProClick Pronto® system is an automated, all-in-one desktop punch and binding machine that helps you to create professionally-bound documents in just seconds. Using ProClick® spines you can bind a report in just 6 seconds, that's an incredible 450 documents an hour making this one of the fastest binding systems on the market. It's the cost-effective solution for busy offices, businesses and educational establishments with high volume binding requirements. Whether you want to bind financial reports, training manuals or client proposals, ProClick® binding spines enable you to create sleek, stylishly bound documents of A4 size. They are simple to edit too as the spine simply zips open and zips to close, allowing you to add, replace or remove individual pages

whenever required, wherever you are. So there's no need to waste time and money reproducing a whole document when only one simple page change is required. ProClick® binding enables pages to lie flat and rotate 360 degrees too for convenient note taking and photocopying. ProClick® spines are available in pre-loaded cassettes of 20 units, so you don't need to load spines individually which saves valuable time and increases productivity. Pre-loaded ProClick® cartridges come in a choice of 4 contemporary colours – white, black, navy blue and frost clear – so you can customise your documents and give your presentations a competitive edge. ProClick® spines can bind up to a maximum of 100 pages and are available in small, medium and large sizes for maximum versatility.

Features

- Pre-loaded ProClick® cartridges hold 20 units each, so you don't waste time loading individual binding spines.
- The ProClick Pronto® P3000 system offers integrated punching capability and automatic binding of the ProClick spine. Easy to use and highly versatile, the P3000 provides professional, high-speed binding suitable for a multitude of shared office environments.
- A six second binding cycle that binds up to 450 documents per hour.
- Available in three sizes: Small (8mm), Medium (12mm) and Large (16mm) and can bind up to 100 sheets in one go.
- Editable and reusable: simply zip open the spine of bound documents to remove or replace individual pages, or use the spine again for a new document.
- Environmentally friendly: made from Polypropylene, ProClick® spines are environmentally friendly and recyclable.
- Modern and stylish design: ProClick® is the contemporary, stylish choice for binding professional documents.
