

## 1. Identification of the Substance/Preparation & Company

Product name:  
Intended use:  
Variants:

Manufacturer:  
Address:

Tel No:  
Fax:

0151 734 1411  
0151 734 4054

---

## 2. Composition/Information on Ingredients

### Ingredient Name:

Butane  
Propane  
Water/Surfactant/Perfume Emulsion

---

## 3. Hazards Identification

Eye Contact:

Skin Contact:

Inhalation:

Ingestion:

---

## 4. First Aid measures

Eye contact: Contact lens should be removed. Irrigate copiously with clean, fresh water

for at least 10 n

Skin contact:

Inhalation:

Ingestion:

If accidentally s  
Seek medical a

---

## 5. Fire Fighting Measures

Extinguishing media:

Special fire fighting procedures: Fire exposed containers should be sprayed with water to lessen the risk of explosion.

Unusual Fire & Explosion Hazards: Fire will produce dense black smoke containing combustion products which may be a health hazard. Appropriate self contained breathing apparatus may be required.

---

## 6. Accidental Release Measures

Procedures for leaks or spillages:

vapours. Refer  
Contain & colle  
e.g. sand, earth  
container for di  
No not allow to  
Clean preferabl  
drains or sewer  
in the case of c

---

## 7. Handling & Storage

Handling: Vapours are heavier than air & may spread along floors. They may form explosive mixtures with air. Prevent the creation of flammable or explosive concentrations of vapour in air & avoid vapour concentrations higher than the Occupational Exposure Limits.  
Good housekeeping standards & regular safe removal of waste materials will minimise risks of spontaneous combustion & other fire hazards.  
Smoking, eating & drinking should be avoided in areas of use & storage.

Storage: Store below 50°C in a dry well ventilated place away from sources of heat, ignition & direct sunlight. No smoking. Observe the label precautions.  
Store separately from strong oxidizing agents & strongly alkaline & strongly acidic materials.

---

## 8. Exposure Controls/Personal Protection

Ingredient Name

LPG

Engineering measures:

well below the Lower Explosion Limit(LEL) & ensure the airborne of substances to which an OES has been assigned is below that OES(Occupational Exposure Standard).

Respiratory protection.

sprayed if the exposure of the sprayer or people nearby cannot be controlled to below the OEL & engineering controls & measures cannot be improved.

Hand Protection:

Eye Protection:

Skin Protection:

---

## 9. Physical & Chemical Properties

Physical State: Aerosol

Appearance: Milky white water emulsion

Odour: Perfumed

pH: 6.5 - 8.5

Boiling Point/Boiling range: 100°C

Melting Point/Melting range: 0°C

Flash Point: Not possible to measure, propellant has F Pt. -40 C approx\*

Flammability: LEL 0.8 (%Vol in air @ 25°C)

: UEL 9.0

Autoflammability: 400°C+

Explosive Properties:

Oxidising Properties:

Can Pressure:

Relative Density:

VOC Content:

Solubility-Water:

Solubility-Solvent:

Other data:

---

## 10. Stability & Reactivity

Stability:

Stable

Conditions to avoid:

Hazardous decomposition products: In a fire, hazardous decomposition products such as

smoke, carbon

---

## 11. Toxicological information

There is no data available on the product itself.

Exposure to organic solvent vapours may result in adverse health effects on the renal & central nervous systems. Symptoms can include headache, dizziness, fatigue, muscular weakness, drowsiness & in extreme cases, loss of consciousness.

Splashes in the eyes may cause irritation & reversible local damage.

---

## 12. Ecological Information

There is no data on the product itself.

---

## 13. Disposal Considerations

Wastes, including empty containers, are controlled wastes & should be disposed of in accordance with regulations made under the Control of Pollution Act.

Using the information provided in this data sheet, advice should be obtained from the Waste Regulation Authority whether the Special Waste Regulations apply.

---

## 14. Transport Information \*

## 16. Other Information

The information contained in this data sheet is provided in accordance with the requirements of the Chemicals (Hazard Information & Packaging) Regulations. It does not constitute the user's own assessment of workplace risks as required by other Health & Safety legislation. The provisions of the Health & Safety at Work Act & the Control of Substances Hazardous to Health Regulations may apply to the use of this product at work.

The product should not be used for purposes other than those shown in Section 1 without first referring to the supplier & obtaining written handling instructions.

As the specific conditions of the product are outside the supplier's control, the user is responsible for ensuring that the requirements of the relevant legislation are complied with.

This product is not classified as dangerous according to the Chemicals (Hazard Information OES/MEL values are obtained from the current issue of EH40 unless indicated thus (Sup) when a value has been obtained from the supplier.

Further information & advice can be found in the following publications:

The Control of Substances Hazardous to Health Regulations 1988 (SI 1988:1657)

The Environmental Protection (Duty of Care) Regulations 1992 (SI 1992:2839)

Date of issue of original:

Revision:

Revision dated:

Items marked with a \* have been amended since the last revision.

This product should be stored, handled & used in accordance with good industrial hygiene practices & in conformity with legal regulations. The information contained herein is based on the current state of our knowledge & is intended to describe products from the point of view of safety requirements & thus should not be construed as guaranteeing specific properties.

## SAFETY DATA SHEET

---

Contact may cause mild irritation

Low Hazard

High levels of vapour may cause dizziness

Accidental ingestion is an unlikely event

---

ninutes, holding the eyelids apart, and seek medical advice.

Wash with water - normal hygiene procedures

Remove to fresh air, keep warm, seek medical advice.

swallowed: Drink 2-3 glasses of milk or water. Keep at rest.  
advice. Do NOT induce vomiting.

---

Water, water spray, dry powder, alcohol resistant foam & CO2 may be used.

---

Exclude non-essential personnel. Avoid breathing to protective measures listed in sections 7 & 8. Contain spillages with non-combustible absorbent materials, e.g. vermiculite, diatomaceous earth & place in a suitable container for disposal in accordance with the waste regulations (Section 13) Do not enter drains or water courses. Clean up with a detergent: Avoid the use of solvents. If the product enters the environment, the local water company should be contacted immediately; In the event of contamination of streams, rivers or lakes, the National River Authority.
