

According to EC Regulations 1907/2006 (REACH), 1272/2008 (CLP) & 453/2010 and Hazard Communication Standard (HCS) (29 CFR 1910.1200(g))

Date of issue: 11/03/2016 Version number: 1.0

SECTION 1: IDENTIFICATION

1.1 Product identifier: Cyan Toner Cartridge

Product Description :	Part Number:
Dell Standard Capacity Cyan Toner Cartridge	YPXY8
Dell High Capacity Cyan Toner Cartridge	PDVTW

Application: Dell 1250c, 1350cnw, 1355cn, 1355cnw

1.2 Relevant identified uses of the substance /mixture and uses advised against

Use(s):

Uses advised against None, although recommended for the above use only

Printer toner

1.3 Details of the supplier of the safety data

Sheet

Name of supplier: Dell Inc.

Address: One Dell Way Round Rock, TX, USA 78682

Telephone : Information:1-800-W W W-DELL Prepared by: Product Environmental Programs

1.4 Emergency telephone number: 1-800-551-8553

SECTION 2: HAZARD(S) IDENTIFICATION

2.1 Classification of the substance or mixture

This product is not classified as hazardous according to Regulation (EC) No 1272/2008. Safety Data Sheets do not have to be provided for non-hazardous products, however this information is provided as a courtesy to our customers in this format.

2.1.1 Classification according to Regulation (EC) No 1272/2008 (including amendments):

Not classified

2.1.2 Classification according to EC Directive 1999/45/EC (including amendments):

Not classified

2.1.3 Classification according to OSHA 29 CFR 1910.1200 HCS

Not classified

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008: Labelling according to OSHA 29 CFR 1910.1200 HCS

Hazard pictogram(s)

Signal word(s)

Not required

Not required

Not required

According to EC Regulations 1907/2006 (REACH), 1272/2008 (CLP) & 453/2010 and Hazard Communication Standard (HCS) (29 CFR 1910.1200(g))

Date of issue: 11/03/2016 Version number: 1.0

Precautionary statement(s) Not required

2.3 Other hazards None

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances

Not applicable

3.2 Mixtures

EC Number	CAS Number	Name	Ingredients (% by wt.)	Classification according to Regulation (EC) No 1278/2008 (CLP)
Undisclosed	Undisclosed	Polyester	70 - 90%	Not classified
205-685-1	147-14-8	Blue pigment	< 10%	Not classified
232-315-6	8002-74-2	Paraffin Wax	< 10%	Not classified
231-545-4	7631-86-9	Amorphous silica	< 10%	Not classified
236-675-5	13463-67-7	Titanium oxide	< 1%	Not classified

No REACH registration numbers are provided either because the mixture contains pre-registered phase-in substances and the transition period for their registration according to Article 23 of REACH has not yet expired or because the annual tonnages do not require a REACH registration.

SECTION 4: FIRST-AID MEASURES

4.1	Description of first aid measures			
	Inhalation	Remove from exposure and provide fresh air. Rinse mouth with water.		
	Skin Contact	Wash with soap and water.		
	Eye Contact	Flush with a large amount of water for at least 15 minutes. Seek medical advice.		
	Ingestion	Rinse mouth with water. Give several glasses of water to drink and seek medical advice.		
4.2	Most important symptoms and effects, both acute and delayed	No information available. No specific symptoms are predicted.		
4.3	Indication of any immediate medical attention and special treatment needed	No special treatment needed. Treatment based on judgment of the doctor in response to symptoms of the patient.		

SECTION 5: FIRE-FIGHTING MEASURES

5.1 Extinguishing media

Suitable Extinguishing Media Water spray, Foam, Dry chemicals. When in a machine, treat as

an electrical fire.

Unsuitable Extinguishing Media No information available.

According to EC Regulations 1907/2006 (REACH), 1272/2008 (CLP) & 453/2010 and Hazard Communication Standard (HCS) (29 CFR 1910.1200(g))

Date of issue: 11/03/2016 Version number: 1.0

5.2 Special hazards arising from the substance or None known.
mixture

5.3 Advice for fire-fighters Immediately remove flammable materials from the

surroundings. Fight fire from the upwind position.

Remove movable containers to a safe place immediately in case

of fire in the vicinity.

Do not allow non-authorized personnel to access around the fire. Extinguish quickly and completely using specified fire

extinguisher.

Wear heat-resistant protective clothing, protective gloves and

respiratory protection when engaged in fire-fighting.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency measures
 Avoid inhalation. If you spill a large volume of toner, wear proper protective equipment and collect them in closed container.
 Environmental precautions
 Prevent from entering into soil, waterways and ground water.

6.3 Methods and material for containment and

cleaning up

Shut off ignition sources. For small spills, sweep up or soak up with damp cloth. (It may catch fire by electric sparks inside the

vacuum cleaner and cause explosion)

6.4 Reference for safe handling

See Sections 8 and 13.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling Technical measures: None required when used as intended in Dell

equipment. For use other than normal customer operating procedures (such as in bulk toner processing facilities), local

exhaust ventilation may be required.

Notice: Do not incinerate toner or a toner cartridge. Do not

dissemble a cartridge.

Safe handling advice: Do not incinerate toner or a toner cartridge.

Do not dissemble a cartridge.

7.2 Conditions for safe storage, including any

incompatibilities

Technical measures: None

Conditions for safe storage: Keep in cool, dry and well-ventilated

area. Keep out of reach of children

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

8.1.1 Occupational exposure limitsNo European Union occupational exposure limits.

ACGIH TLV (2015): 10 mg/m3 (Total)

3 mg/m3 (Respirable)

OSHA PEL 15 mg/m3 (Total)

5 mg/m3 (Respirable)

8.1.2 Biological Limit Value: None for the product.

8.1.3 PNECs and DNELs: None available for the product.

8.2 Exposure controls

8.2.1 Appropriate engineering controls None for the product.

Page: 3 of 8

According to EC Regulations 1907/2006 (REACH), 1272/2008 (CLP) & 453/2010 and Hazard Communication Standard (HCS) (29 CFR 1910.1200(g))

Date of issue: 11/03/2016 Version number: 1.0

8.2.2 Individual protection measures, such as personal protective equipment (PPE)

None required when used as intended in Dell equipment. For use other than normal customer operating procedures (such as in bulk toner processing facilities), protective glove, goggles and respirators may be required.

Eye/face protection

Glasses with side protection or goggles. Wear appropriate protective eyeglasses or chemical safety goggles, EN166: 2002 as minimum standard.

Glasses with side protection or goggles. Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133

Skin protection (Hand protection/ Other)

Protective gloves. EN374 as minimum standard. Contact the glove manufacturer for specific advice on glove selection and breakthrough times for your use conditions.

Respiratory protection

Use approved respirators, EN149 as minimum standard. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.

Follow the OSHA respirator regulations found in 29 CFR 1910.134.

Use NIOSH/MHSA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.

Skin and body protection Protective boots and apron.

Hygiene measures Wash hands thoroughly after handling.

8.2.3 Environmental Exposure Controls

Follow best practice for site management and disposal of waste.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Appearance Powder
Color Cyan
Odor Faint odor

Odor threshold (ppm)

PH (Value)

Melting point / freezing point

Initial boiling point and boiling range

Flash point (°C)

Evaporation rate

No data available

Not applicable

Date of issue: 11/03/2016 Version number: 1.0

Upper/lower flammability or explosive limits No data available

Vapor pressure

Vapor density (Air=1)

Relative Density

Not applicable

No data available

Solubility(ies) Insoluble

Partition coefficient (n-Octanol/water)

Auto ignition temperature

Decomposition temperature (°C)

Viscosity (mPa. s)

Explosive properties

No data available

9.2 Other information No other information.

SECTION 10: STABHILITY AND REACTIVITY

10.1ReactivityNone10.2Chemical stabilityStable10.3Possibility of hazardous reactionsNone10.4Conditions to avoidNone10.5Incompatible materialsNone

10.6 Hazardous decomposition products No data available

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

The toxicity data noted below is based on test results of this materials or similar materials.

Acute toxicity

Ingestion LD50(rat): >2000 mg/kg (practically non-toxic)

DermalNo data available.Skin corrosion/irritationNot an irritant (rabbit)Serious eye damage/irritationNot an irritant (rabbit)

Respiratory or skin sensitization Not a skin sensitizer (rabbit)

mutagenicity Ames Assay: Negative

Carcinogenicity Titanium dioxide is classified as Group 2B by IARC. In animal

chronic inhalation study, rats only showed the incidence of lung tumors which is attributed to excessive burden on rat lung clearance mechanism (overloading). It is assumed that a designated use of this product should not cause such excessive burden on lung clearance mechanism. Epidemiological studies provide no clear evidence of elevated risks of lung tumors mortality or morbidity among the workers exposed to TiO2 dust. All other ingredients are not classified as carcinogens "ref.1".

Page: 5 of 8

According to EC Regulations 1907/2006 (REACH), 1272/2008 (CLP) & 453/2010 and Hazard Communication Standard (HCS) (29 CFR 1910.1200(g))

Date of issue: 11/03/2016 Version number: 1.0

Reproductive toxicity

Not classified as Reproductive and Development chemicals

ref.2.

STOT - single exposure No data available.

STOT - repeated exposure The results obtained

The results obtained from a supplier sponsored, Chronic Toner Inhalation Study, demonstrated no lung change in rats for the lowest (1mg/m3) exposure level (i.e. the level most relevant to potential human exposure). A very slight degree of fibrosis was noted in 25% of the animals at the middle (4mg/m3) exposure level, while a slight degree of fibrosis was noted in all the animals at the highest (16 mg/m3) exposure level. These findings are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged period. This study was conducted using a special test toner to comply with EPA testing protocol. The test toner was ten times more respirable than commercially available supplier toner, and would not be functionally suitable for DELL equipment.*1

Aspiration hazard Not applicable

Target Organs: No data available.

Information on the likely routes of exposure: Inhalation, Skin, Eye, Ingestion

toxicological characteristics:

No data available

SECTION 12: ECOLOGICAL INFORMATION

12.1 Toxicity The toxicity data noted below is based on test results of this

materials or similar materials.

Acute Toxicity

Fish 96hr LC50 (Oryzias latipes) : > 500 mg/L (practically non-

toxic)

Daphnia 48hr EC50 (Daphnia magna) : > 100 mg/L (practically

non-toxic)

Algae 72hr EC50 (Selenastrum capricornutum) : > 100 mg/L

(practically non-toxic)

12.2 Persistence and degradability No data available

12.3 Bioaccumulative potential No data available

According to EC Regulations 1907/2006 (REACH), 1272/2008 (CLP) & 453/2010 and Hazard Communication Standard (HCS) (29 CFR 1910.1200(g))

Date of issue: 11/03/2016 Version number: 1.0

12.4 Mobility in soil No data available12.6 Other adverse effects No data available

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Disposal methods

13.1.1 Residual wastes Dispose of in accordance with national and local regulations.

13.1.2 Contaminated containers and packaging Dispose of in accordance with national and local regulations.

SECTION 14: TRANSPORT INFORMATION

Transport in accordance with national, and local regulations.

DOT Status: Not classified as a hazardous material or substance under US DOT.

International Shipping: ADR/RID/IMDG/IATA Classes: not regulated.

14.1 UN number Not regulated

14.2 UN Proper Shipping Name None

14.3 Transport hazard class(es) None

14.4 Packing Group None

14.5 Environmental hazards None

14.6 Special precautions for user None

Transport in bulk according to Annex II of
MARPOL73/78 and the IBC Code

Not applicable

SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the product EU regulations

This safety datasheet complies with the requirements of EC Regulations 1907/2006 (REACH), 1272/2008 (CLP) & 453/2010.

Authorizations: Not applicable Restrictions on use: Not applicable

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out for this product.

SECTION 16: OTHER INFORMATION

Date of preparation of SDS: 11/03/2016

Methods of evaluation:

The mixture was classified using data available for the mixture and data available for the neat substances with the application of relevant concentration limits, in accordance with Regulation (EC) No 1272/2008.
