MSDS No.: MFP-2201

Product Name: TONER (CYAN) TN610C

Prepared date:20-May-2005 Revised Date: 10-Sep-2007

1. PRODUCT AND COMPANY IDENTIFICATION Product Name: TONER (CYAN) TN610C used for: PRO C6500/C6500P, PRO C5500

Supplier Identification:

Konica Minolta Business Solutions Australia Pty. Ltd. 22 Giffnock Avenue, North Ryde NSW 2113, Australia Telephone: (02)9878-5333 Facsimile: (02)9888-1972

Contact Point National Technical Manager

Telephone: (02)8873-6677 Facsimile: (02)9886-0348 For emergency enquiries, please contact Konica Minolta Australia during Monday to Friday from 9.00am - 5.00pm.

2. HAZARDS IDENTIFICATION Classification: Not hazardous in accordance with NOHSC Australia criteria.

Emergency Overview: Cyan powder (mean dia. is 5-10um by volume). Almost odorless

Most Important Hazards and Effects of the Products Ingestion Effect: None currently known. Inhalation Effect: None currently known. Minimal respiratory tract irritation may occur as with exposure to large amount of any non-toxic dust. Eye Effect: None currently known. Skin Effect: None currently known. Chronic Effects: Prolonged inhalation of excessive dusts may cause lung damage. Use of this product, as intended, does not result in inhalation of excessive dust. Environment Hazards: No data are available on the adverse effects of

this product on the environment.

Specific Hazards: Dust explosion(like most finely divided organic
powders)

3. COMPOSITION/INFORMATION ON INGRE Substance [] Preparation [-	
Major Ingredients:		
[Generic Name]	[CAS No.]	[응]
Styrene acrylic resin	+++	75-85
Wax	+++	10-20
Wax-2	+++	1-10
Organic pigment	147-14-8	1-10
Amorphous silica	7631-86-9	1-10
Titanium oxide	13463-67-7	<1
+++: Supplier's confidential informa	ation	
Hazardous Ingredients: None present		
4. FIRST-AID MEASURES Ingestion: Wash out mouth with water If symptoms occur, get medical Inhalation: Move victim to fresh get medical attention. Eye Contact: Immediately flushe If symptoms occur, get medical Skin Contact: Wash with water a	attention. air immediately. If eyeswithplentyofwat attention.	E symptoms occur,
5. FIRE-FIGHTING MEASURES Suitable Extinguishing Media: CO2 Extinguishing Media to Avoid: Full	l water jet	and dry chemical

Fire and Explosion Hazards: If dispersed in air, like most finely divided organic powders, may form an explosive mixture.

Protection of Firefighters: Use self-contained breathing apparatus(SCBA).

MSDS No.: MFP-2201

Product Name: TONER (CYAN) TN610C Prepared date: 20-May-2005 Revised Date: 10-Sep-2007 1.2 Specific Gravity: Solubility: Insoluble in water. Partition Coefficient, n-Octanol/Water: Not applicable 10. STABILITY AND REACTIVITY Stability: Stable except above 200C(392F). Hazardous Reactions: Dust explosion, like most finely divided organic powders. Conditions to avoid: Electric discharge, throwing into fire. Materials to Avoid: Oxidizing materials. Hazardous Decomposition Products: CO, CO2, NOx and smoke. Hazardous Polymerization: Will not occur. 11. TOXICOLOGICAL INFORMATION Acute Toxicity: Ingestion(oral), LD50(mg/kg): >2500 (Rat) * Dermal, LD50(mg/kg): No data available Inhalation, LC50(mg/l): >4.79(Rat)*(This was the highest attainable concentration.) Eye irritation: Non irritant (Rabbit) * Skin irritation: Non irritant (Rabbit) * Skin sensitizer: Non sensitizer (Guinea pig) * (*= Based on data for other Konica Minolta Products with similar ingredients) Local Effects: see Chronic Toxicity or Long term Toxicity Chronic Toxicity or Long Term Toxicity: Prolonged inhalation of excessive dust may cause lung damage. It is attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged interval. Use of this product, as intended, does not result in inhalation of excessive dust. In a study in rats by chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of rats in the high concentration (16mg/m^3) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animals in the middle(4mg/m³) exposure group. But no pulmonary change was reported in the lowest $(1mg/m^3)$ exposure group, the most relevant level to potential human exposures. Carcinogenicity IARC Monographs: Not listed NTP(USA): Not listed OSHA Regulated(USA): Not listed Mutagenicity: Negative (AMES test)

12. ECOLOGICAL INFORMATION

No data are available on the adverse effects of this material on the environment. Ecotoxicity: No data available Mobility: No data available Persistence and degradability: No data available Bioaccumulative potential: No data available

13. DISPOSAL CONSIDERATION

When disposing of the waste or recovered material, consult federal, state and/or local regulations for the proper disposal method.

14. TRANSPORT INFORMATION

Information on Code and Classifications According to International Regulations

UN Classification: None

15. REGULATORY INFORMATION US Information Information on the label: Not required TSCA(Toxic Substances Control Act): All chemical substances in this product comply with all applicable rules or order under TSCA. California Proposition 65: This product contains no chemical substances subject to California Proposition 65. EU Information Information on the label (1999/45/EC and 67/548/EEC): Not required

Article14 (2.1) of Directive 1999/45/EC is not applicable to this product.

16. OTHER INFORMATION

HMIS Rating: The National Paint and Coating Association(USA): Health: 1 Flammability: 1 Reactivity: 0 Recommended Uses: Toner for Electrophotographic Equipment Revision Information: Regular revision on revised date.
