4. PHYSICAL AND SAFETY DATA

Rollerball with water-based and erasable ink, blue, with excellent cap-off time.
Plastic conical tip with ball made of hard metal, line-width 0.5 mm. Writing length appr. 700 m.
Exchangeable ink-cartridge. Ink erasable with nearly every commercial eraser pen.
Casing made from ABS with a grip zone with TEP-coating (made in 2-component-technology),
Grip zone in two versions, for right-handed (Art.-No. 6891/..) and left-handed (Art.-No. 6892/..) users. Casing in three different colour configurations: Orange/Anthracite – Light Blue/Dark Blue – Yellow/Red. Ventilated cap made of polypropylene.
When stored and used properly, no hazardous reactions can be expected. In case of fire, carbon monoxide (CO), carbon dioxide (CO₂) and nitric oxides (NO_x) will be set free as thermal decomposition products.
When not used properly, the content of the writing instruments may stain the skin, mucous membranes or clothing and fabrics. In textiles and some materials, the stain might be permanent.
In case of contact with the eyes, rinse out open eye thoroughly under running water for several minutes. If complaints persist, contact an ophthalmologist.
Based on the EEC-Directive 91/155, this commercial product is not a hazardous substance,
hazardous mixture or a particular product with respect to the German Regulation on Dangerous Substances (Gefahrstoff-Verordnung). Therefore a Safety Data Sheet, according to § 14 of the German "Gefahrstoff-Verordnung" is not required.

5. TRANSPORT INFORMATION

Not classified as dangerous goods with respect to the transport regulations.

6. ECOLOGICAL INFORMATION / DISPOSAL CONSIDERATIONS

The writing instruments may be added to the household waste in small quantities.
Larger quantities are to be disposed of under compliance with local public authority regulations,
e.g. at a suitable waste disposal site or incinerator.
Only smaller quantities of colorants are contained in the inks. They are, however, very durable-
on account of their intended use and therefore biodegradability in normal conditions in
