

by WallaceCameron International

Skin soothing wipe

SECTION 1 - PRODUCT IDENTIFICATION AND COMPANY INFORMATION

Product Name: Skin soothing wipe

Supplier: Wallace Cameron International Limited
26 Netherhall Road
Wishaw
ML2 0JG

Tel.: 01698 354600

Fax.: 01698 354650

E-Mail : sales@wallacecameron.com

Emergency Tel : Wallace Cameron - +44(0)1698 354 715 – 9.00am to 5pm – Mon to Fri

SECTION 2 - HAZARDOUS IDENTIFICATION

HAZARDOUS

Not regarded as a health or environmental hazard under current legislation.

SECTION 3 - COMPOSITION / INFORMATION

1.

COMPOSITION

**`A aqueous based solution absorbed on to synthetic towelling sheets.
All ingredients meet the requirements of the Cosmetic Product (Safety)
Regulations 2008.**

SECTION 4 - FIRST AID MEASURES

INHALATION

Not relevant. Inhalation unlikely.

INGESTION

Not relevant. Ingestion unlikely

DO NOT INDUCE VOMITING! Drink plenty of water or milk Seek medical attention.

SKIN CONTACT

by WallaceCameron International

Skin soothing wipe

Current correct use of product, no contra indications. None Hazardous to even sensitive skin. Should irritation occur discontinue use and wash area with soap and plenty of water. , if problems persist seek medical advise.

EYE CONTACT

Not for use on eyes. There may be irritation and redness if product gets into eyes. Bathe the eye with warm or saline solution, if problems persist seek medical advise.

SECTION 5 - FIRE FIGHTING MEASURES

EXTINGUISHING MEDIA

This product is not flammable. Use fire-extinguishing media appropriate for surrounding materials

SPECIFIC HAZARDS

By heating and fire; harmful vapours/gases may be formed when vast quantities are accumulated

SECTION 6 - ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS

No special protective clothing is required. Mark out area with Wet Floor signs prevent access to unauthorised personnel Turn leaking containers leak side up to prevent escape of liquid.

ENVIRONMENTAL PRECAUTIONS

Normal disposal as per non contaminated material. Do not discharge into drains or rivers

SPILL CLEAN UP METHODS

Not relevant. Product is cream like and unlikely to be spilled For small spillage of a single bottle absorb on to paper. For bulk spillage use as appropriate, either paper towels or other absorbent materials

SECTION 7 - HANDLING AND STORAGE

USAGE

no specific usage precautions noted.

STORAGE PRECAUTIONS

Store at moderate temperatures in dry, well ventilated area. Keep in original container. Store away from Oxidising material. Keep out of reach of children

SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

ENGINEERING MEASURES

Not relevant

RESPIRATORY EQUIPMENT

by WallaceCameron International

Skin soothing wipe

Not relevant

HAND PROTECTION

No specific hand protection noted, product is used on skin

EYE PROTECTION

None required (see Section 4 – First Aid)

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

APPEARANCE

Cream

COLOUR

Pale Cream.

ODOUR

Characteristic odour

SOLUBILITY

Not soluble

OTHER PROTECTION

None required.

SECTION 10 - STABILITY AND REACTIVITY

STABILITY

No particular stability concerns.

MATERIALS TO AVOID

No incompatible groups noted.

SECTION 11 - TOXICOLOGICAL INFORMATION

TOXICOLOGICAL INFORMATION

Refer to section 2.

OTHER HEALTH EFFECTS

Unlikely to be ingested, but ingestion may cause irritation of the gastro- intestinal tract.

SECTION 12 – ECOLOGICAL INFORMATION

ECOTOXICITY

Not regarded as dangerous for the environment.

by WallaceCameron International

Skin soothing wipe

BIOACCUMULATION

The product does not contain any substances expected to be bio accumulating.

SECTION 13 - DISPOSAL CONSIDERATIONS

DISPOSAL METHODS

Follow normal environmental health guidelines in disposing of product in controlled incineration's or landfill

SECTION 14 –TRANSPORTION INFORMATION

GENERAL

Not classified as hazardous for specialised transportation.

SECTION 15 - REGULATORY INFORMATION

RISK PHRASES

N/A

SAFETY PHRASES

REVISION COMMENTS

Issue 2

REVISION DATE

October 2014

Skin soothing wipe

REV No.
TWO

RISK PHRASES IN FULL

Very low risk if used in appropriate manner

Notice to Reader

To the best of our knowledge the information contained herein is accurate.

However, neither the named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein.

Final determination of the suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein we cannot guarantee that these are the only hazards that exist.

SAFETY DATA SHEET

Insect Repellent Wipe

This Safety Data Sheet contains information concerning the potential risks to those involved in handling, transporting and working with the material, as well as describing potential risks to the consumer and the environment. This information must be made available to those who may come into contact with the material or are responsible for the use of the material. This Safety Data Sheet is prepared in accordance with formatting described in the REACH Regulation (EC) No 1907/2006, and described in CLP Regulation (EC) No 1272/2008.

SECTION 1: Identification of the substance/mixture and of the company/undertaking

- 1.1 Product identifier**
Insect Repellent Wipe
- 1.2 Relevant identified uses of the substance or mixture and uses advised against**
Insect Repellent
- 1.3 Details of the supplier of the safety data sheet**
Guardpack
5 Bilton Road
Chelmsford
Essex CM1 2UP
Tel: 01245 505807
Fax: 01245 358786
E mail: office@guardpack.co.uk
- 1.4 Emergency telephone number**

Tel. 01245 505807 (
Mon-Fri 9 am – 5 pm)
24hr 07798 624766

SECTION 2: Hazards Identification

2.1 Classification of the substance or mixture

Classification in accordance with the Dangerous Preparations Directive 1999/45/EC
Highly Flammable, F; R11 Highly flammable
Irritant Xi; R36 Irritating to Eyes

2.2 Label elements

Labelling in accordance with the Dangerous Preparations Directive 1999/45/EC

No label required under the CHIP Regulations 2009, Regulation 7 (5) and (6) as the very small quantities contained in each sachet are considered not to present a foreseeable risk under the expected conditions of supply, use and disposal.

2.3 Other hazards

None identified.

SECTION 3: Composition

3.1 Substances

Not applicable - product is a mixture

3.2 Mixtures

An alcohol based liquid absorbed on to synthetic towelling sheets.

Name	CAS No.	Concentration	Classification
Denatured alcohol	64-17-5	<80%	F; R11 Flam. Liq. 2 H225
2-hydroxy- $\alpha,\alpha,4$ -trimethylcyclohexanemethanol	42822-86-6	<20%	Xi; R41 Eye Dam. 1 H318

These classifications refer to the pure substance. See section 16 for full description of R phrases and H statements.

SECTION 4: First Aid Measures

4.1 Description of first aid measures

EYE CONTACT: Wash thoroughly with water for several minutes and obtain medical attention if signs of irritation persist..

INHALATION: Remove from exposure. If breathing becomes difficult call a doctor.

SKIN CONTACT: Wash off with soap and water. If irritation persists, seek medical advice.

INGESTION: If swallowed, rinse mouth with water.

4.2 Most important symptoms and effects, both acute and delayed

EYE CONTACT: If liquid from the wipe gets into the eye it may cause irritation with redness, stinging, watering of the eye.

INHALATION: Inhalation is considered to be unlikely. Exposure to large quantities of vapour may cause drowsiness and dizziness.

SKIN CONTACT: Prolonged and repeated use may cause dryness of the skin.

INGESTION: Ingestion is considered to be unlikely. Ingestion of large quantities may cause symptoms of alcohol intoxication.

4.3 Indication of any immediate medical attention and special treatments needed

Symptomatic treatment as required

SECTION 5: Firefighting Measures

5.1 Extinguishing media

Water spray, alcohol resistant foam, dry powder and carbon dioxide extinguishers are suitable.

5.2 Special hazards arising from the substance or mixture

No special hazards.

5.3 Advice for fire fighters

Fire fighters should wear protective clothing and breathing apparatus as appropriate.

SECTION 6: Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

No special precautions necessary.

6.2 Environmental precautions

Prevent entry into sewers and watercourses.

6.3 Methods and materials for containment and clearing up

Collect wipes and place in a sealable container for disposal.

6.4 References to other sections

See section 8 and 13 for further advice.

SECTION 7: Handling and Storage

7.1 Precautions for safe handling

Ensure adequate ventilation. Avoid contact with eyes and prolonged contact with skin.

7.2 Conditions for safe storage, including any incompatibilities

Store in its original labelled container. Keep out of reach of children and animals.

7.3 Specific end uses(s)

No special precautions.

SECTION 8. Exposure Controls/Personal Protection**8.1 Control parameters****EXPOSURE LIMITS**

Substance	8 hour exposure limit	15 minute exposure limit	Source, Type
Ethanol	1000 ppm (1920 mg/m ³)	-	EH40, 2011

8.2 Exposure controls**Engineering controls**

Normal room ventilation is expected to be adequate.

Respiratory protection

Not normally required. If large numbers of wipes are to be handled or prolonged contact is expected then ensure adequate ventilation.

Hand Protection

If large numbers of wipes or prolonged contact is expected, then suitable gloves may be required. Natural rubber, butyl rubber, nitrile rubber may be suitable, but glove manufacturers recommendations should always be checked.

Eye protection

If large numbers of wipes are being used, then safety glasses or goggles may be appropriate.

Skin protection

If large numbers of wipes or prolonged contact is expected, then suitable protective clothing such as overalls with sleeves should be worn. Remove protective clothing when contaminated and wash before reuse.

Environmental Exposure Controls

Not normally required.

SECTION 9: Physical and Chemical Properties**9.1 Information on basic physical and chemical properties**

Appearance:	Clear liquid absorbed onto towelling
Odour:	Pleasant odour
Odour threshold:	No data
pH:	Approximately neutral
Melting point:	<0°C
Boiling point:	78°C (Ethanol)
Flashpoint:	12°C (Ethanol)
Evaporation rate:	No data
Flammability (solids):	Not applicable
Upper/lower flammability limits:	3.3 – 19% (Ethanol)
Vapour pressure:	59.3 mm Hg @ 20 deg C (Ethanol)
Vapour density:	1.58 (Ethanol)
Relative density:	No data
Solubility in water:	Liquid component is completely miscible
Solubility in other solvents:	No data
Partition coefficient (log Kow):	No data
Autoignition temperature:	No data

Decomposition temperature: No data
Viscosity: Not applicable
Explosive properties: Not classified as explosive
Oxidising properties: Not classified as oxidising

9.2 Other information

None

SECTION 10: Stability and Reactivity

10.1 Reactivity

Not considered to be reactive.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

None expected.

10.4 Conditions to avoid

Avoid exposure to high and freezing temperatures.

10.5 Incompatible materials

Avoid contact with strong oxidisers.

10.6 Hazardous decomposition products

None known.

SECTION 11: Toxicological Information

11.1 Information on toxicological effects

This product has not been tested. Judgements on the expected toxicity of this product have been made based upon consideration of its major components.

- | | |
|---|---|
| (a) acute toxicity | Not expected to present an acute toxicity hazard |
| (b) skin corrosion/irritation | Not expected to irritate to skin. Prolonged and frequent exposure may dry the skin. |
| (c) serious eye damage/irritation | If liquid from the wipe gets into the eye it may cause eye irritation |
| (d) respiratory/skin sensitisation | Not expected to cause sensitisation. |
| (e) germ cell mutagenicity | Contains no known mutagens above thresholds of concern. |
| (f) carcinogenicity | Contains no known carcinogens above thresholds of concern. |
| (g) reproductive toxicity | Contains no known reproductive toxins above thresholds of concern. |
| (h) STOT-single exposure | Not expected to have any target organ effects. |
| (i) STOT-repeated exposure | Not expected to have any target organ effects. |
| (j) aspiration hazard | Not expected to present an aspiration hazard. |

SECTION 12: Ecological Information

12.1 Toxicity

Not expected to be toxic to the environment.

12.2 Persistence and degradability

The liquid components of this product are expected to be readily biodegradable. The tissue component is expected to biodegrade in the environment.

12.3 Bioaccumulative potential

None of the components are expected to present a bioaccumulation hazard.

12.4 Mobility in soil

All of the components in the liquid added to the wipes are soluble in water.

12.5 Results of PBT and vPvB assessment

None of the components are considered to be PBT or vPvB.

12.6 Other adverse effects

None known

SECTION 13: Disposal Considerations**13.1 Waste treatment methods**

Waste wipes and packaging should be disposed of in accordance with local regulations.
For large quantities of product, incineration may be suitable.

SECTION 14: Transport Information

This product contains does not need to be transported as dangerous goods, in accordance with UN 3175 Special Provision 216 (ADR/RID/IMDG) and Special Provision A46 (IATA).

SECTION 15: Regulatory Information**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

All components are listed as existing substances in Europe

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out for this product.

SECTION 16: Other Information**Revision information:**

This is the first SDS prepared in accordance with the format described in Regulation (EC) No. 453/2010.

List of Abbreviations used in this SDS:

CAS Chemical Abstracts Service
CLP Classification, Labelling and Packaging Regulation (EC) no 1272/2008
DSD Dangerous Substances Directive 67/548/EEC
DPD Dangerous Preparations Directive 1999/45/EC
EC European Community/Commission
PBT Persistent, Bioaccumulative and Toxic
REACH Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (EC) no 1907/2006
vPvB very Persistent, very Bioaccumulative

References:

ECHA CHEM Databases of Registered Substances and Classification and Labelling Inventory
Suppliers SDS for component substances
EH40, 2011
Further references available on request

Method used for classification of mixtures:

Ingredient based approaches and expert judgment.

R Phrases and H Statements used in Section 3

R11 Highly Flammable
R41 Risk of serious damage to eyes

H225 Highly Flammable liquid and vapour
H318 Causes serious eye damage

Training requirements for workers

No special training requirements.

SAFETY DATA SHEET

Wallace Cameron Alcohol Free Wipe

1. Identification of the substance/preparation and company/undertaking

Identification of the substance or preparation

Product name : Wallace Cameron Alcohol Free Wipe

Synonyms : 4782

Company/undertaking identification

Supplier : Guardpack Limited
12 - 14 Grafton Place
Dukes Park Industrial Estate
Chelmsford
Essex
CM2 6TG

Emergency telephone number : 01245 451770

Product type : Liquid.

2. Composition/information on ingredients

Substance/preparation : Preparation

Ingredient name	CAS number	%	EC number	Classification
1-hexadecanaminium, n,n,n-trimethyl-, bromide See section 16 for the full text of the R-phrases declared above	57-09-0	1-3	200-311-3	Xn; R22

Occupational exposure limits, if available, are listed in section 8.

3. Hazards identification

The preparation is not classified as dangerous according to Directive 1999/45/EC and its amendments.

Classification : Not classified.

See section 11 for more detailed information on health effects and symptoms.

4. First-aid measures

First-aid measures

- Inhalation** : Move exposed person to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Obtain medical attention if symptoms occur. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
- Ingestion** : Wash out mouth with water. Remove dentures if any. Move exposed person to fresh air. Keep person warm and at rest. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Obtain medical attention if symptoms occur. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
- Skin contact** : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Obtain medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.

4. First-aid measures

- Eye contact** : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.
- Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training.
- Notes to physician** : In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

See section 11 for more detailed information on health effects and symptoms.

5. Fire-fighting measures

Extinguishing media

- Suitable** : Use an extinguishing agent suitable for the surrounding fire.
- Not suitable** : None known.
- Special exposure hazards** : In a fire or if heated, a pressure increase will occur and the container may burst. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
- Hazardous combustion products** : Decomposition products may include the following materials:
carbon oxides
nitrogen oxides
halogenated compounds
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. Accidental release measures

- Personal precautions** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Avoid breathing vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see section 8).
- Environmental precautions** : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- Large spill** : Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product. Note: see section 1 for emergency contact information and section 13 for waste disposal.
- Small spill** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble or absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

7. Handling and storage

- Handling** : Put on appropriate personal protective equipment (see section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapour or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
- Storage** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

7. Handling and storage

Packaging materials

Recommended : Use original container.

8. Exposure controls/personal protection

Exposure limit values

Ingredient name

Occupational exposure limits

No exposure limit value known.

Recommended monitoring procedures : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances.

Exposure controls

Occupational exposure controls : No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

Hygiene measures : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Respiratory protection : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Hand protection : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Eye protection : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.

Skin protection : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Environmental exposure controls : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

9. Physical and chemical properties

General information

Appearance

Physical state : Liquid.

10. Stability and reactivity

Stability : The product is stable. Under normal conditions of storage and use, hazardous polymerisation will not occur.

Conditions to avoid : No specific data.

Materials to avoid : No specific data.

Hazardous decomposition products : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11. Toxicological information

Potential acute health effects

- Inhalation** : Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
- Ingestion** : No known significant effects or critical hazards.
- Skin contact** : No known significant effects or critical hazards.
- Eye contact** : No known significant effects or critical hazards.

Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
1-hexadecanaminium, n,n,n-trimethyl-, bromide	LD50 Intravenous	Rat	44 mg/kg	-
	LD50 Oral	Rat	410 mg/kg	-

Conclusion/Summary : Not available.

Potential chronic health effects

Chronic toxicity

Conclusion/Summary : Not available.

Carcinogenicity

Conclusion/Summary : Not available.

Mutagenicity

Conclusion/Summary : Not available.

Teratogenicity

Conclusion/Summary : Not available.

Reproductive toxicity

Conclusion/Summary : Not available.

Chronic effects : No known significant effects or critical hazards.

Carcinogenicity : No known significant effects or critical hazards.

Mutagenicity : No known significant effects or critical hazards.

Teratogenicity : No known significant effects or critical hazards.

Developmental effects : No known significant effects or critical hazards.

Fertility effects : No known significant effects or critical hazards.

Over-exposure signs/symptoms

Inhalation : No specific data.

Ingestion : No specific data.

Skin : No specific data.

Eyes : No specific data.

12. Ecological information

Environmental effects : No known significant effects or critical hazards.

Aquatic ecotoxicity

Conclusion/Summary : Not available.

Biodegradability

Conclusion/Summary : Not available.

Other adverse effects : No known significant effects or critical hazards.

13. Disposal considerations

Methods of disposal : The generation of waste should be avoided or minimised wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Hazardous waste : Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

14. Transport information

International transport regulations

Regulatory information	UN number	Proper shipping name	Classes	PG*	Label	Additional information
