

# SAFETY DATA SHEET

Wallace Cameron Alcohol Free Wipe

## 1. Identification of the substance/preparation and company/undertaking

### Identification of the substance or preparation

Product name : Wallace Cameron Alcohol Free Wipe  
Synonyms : 4782

### Company/undertaking identification

Supplier : Guardpack Limited  
12 - 14 Grafton Place  
Dukes Park Industrial Estate  
Chelmsford  
Essex  
CM2 6TG

Emergency telephone number : 01245 451770

Product type : Liquid.

## 2. Composition/information on ingredients

Substance/preparation : Preparation

Ingredient name	CAS number	%	EC number	Classification
1-hexadecanaminium, n,n,n-trimethyl-, bromide See section 16 for the full text of the R-phrases declared above	57-09-0	1-3	200-311-3	Xn; R22

Occupational exposure limits, if available, are listed in section 8.

## 3. Hazards identification

The preparation is not classified as dangerous according to Directive 1999/45/EC and its amendments.

Classification : Not classified.

See section 11 for more detailed information on health effects and symptoms.

## 4. First-aid measures

### First-aid measures

- Inhalation** : Move exposed person to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Obtain medical attention if symptoms occur. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
- Ingestion** : Wash out mouth with water. Remove dentures if any. Move exposed person to fresh air. Keep person warm and at rest. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Obtain medical attention if symptoms occur. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
- Skin contact** : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Obtain medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.

#### 4. First-aid measures

- Eye contact** : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.
- Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training.
- Notes to physician** : In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

See section 11 for more detailed information on health effects and symptoms.

#### 5. Fire-fighting measures

##### Extinguishing media

- Suitable** : Use an extinguishing agent suitable for the surrounding fire.
- Not suitable** : None known.
- Special exposure hazards** : In a fire or if heated, a pressure increase will occur and the container may burst. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
- Hazardous combustion products** : Decomposition products may include the following materials:  
carbon oxides  
nitrogen oxides  
halogenated compounds
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

#### 6. Accidental release measures

- Personal precautions** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Avoid breathing vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see section 8).
- Environmental precautions** : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- Large spill** : Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product. Note: see section 1 for emergency contact information and section 13 for waste disposal.
- Small spill** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble or absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

#### 7. Handling and storage

- Handling** : Put on appropriate personal protective equipment (see section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapour or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
- Storage** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

## 7. Handling and storage

### Packaging materials

**Recommended** : Use original container.

## 8. Exposure controls/personal protection

### Exposure limit values

#### Ingredient name

#### Occupational exposure limits

No exposure limit value known.

**Recommended monitoring procedures** : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances.

### Exposure controls

**Occupational exposure controls** : No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

**Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Respiratory protection** : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

**Eye protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.

**Skin protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## 9. Physical and chemical properties

### General information

#### Appearance

**Physical state** : Liquid.

## 10. Stability and reactivity

**Stability** : The product is stable. Under normal conditions of storage and use, hazardous polymerisation will not occur.

**Conditions to avoid** : No specific data.

**Materials to avoid** : No specific data.

**Hazardous decomposition products** : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## 11. Toxicological information

### Potential acute health effects

- Inhalation** : Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
- Ingestion** : No known significant effects or critical hazards.
- Skin contact** : No known significant effects or critical hazards.
- Eye contact** : No known significant effects or critical hazards.

### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
1-hexadecanaminium, n,n,n-trimethyl-, bromide	LD50 Intravenous	Rat	44 mg/kg	-
	LD50 Oral	Rat	410 mg/kg	-

**Conclusion/Summary** : Not available.

### Potential chronic health effects

#### Chronic toxicity

**Conclusion/Summary** : Not available.

#### Carcinogenicity

**Conclusion/Summary** : Not available.

#### Mutagenicity

**Conclusion/Summary** : Not available.

#### Teratogenicity

**Conclusion/Summary** : Not available.

#### Reproductive toxicity

**Conclusion/Summary** : Not available.

**Chronic effects** : No known significant effects or critical hazards.

**Carcinogenicity** : No known significant effects or critical hazards.

**Mutagenicity** : No known significant effects or critical hazards.

**Teratogenicity** : No known significant effects or critical hazards.

**Developmental effects** : No known significant effects or critical hazards.

**Fertility effects** : No known significant effects or critical hazards.

### Over-exposure signs/symptoms

**Inhalation** : No specific data.

**Ingestion** : No specific data.

**Skin** : No specific data.

**Eyes** : No specific data.

## 12. Ecological information

**Environmental effects** : No known significant effects or critical hazards.

### Aquatic ecotoxicity

**Conclusion/Summary** : Not available.

### Biodegradability

**Conclusion/Summary** : Not available.

**Other adverse effects** : No known significant effects or critical hazards.

## 13. Disposal considerations

**Methods of disposal** : The generation of waste should be avoided or minimised wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

**Hazardous waste** : Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

**14. Transport information****International transport regulations**

**15. Regulatory information****EU regulations**

Classification and labeling have been determined according to EU Directives 67/548/EEC and 1999/45/EC (including amendments) and take into account the intended product use.

**Risk phrases** : This product is not classified according to EU legislation.

**Product use** : Consumer applications.

**Europe inventory** : **Europe inventory:** All components are listed or exempted.

**Other EU regulations**

**Additional warning phrases** : Safety data sheet available for professional user on request.

**16. Other information**

**Full text of R-phrases referred to in sections 2 and 3 - United Kingdom (UK)** : R22- Harmful if swallowed.

**Full text of classifications referred to in sections 2 and 3 - United Kingdom (UK)** : Xn - Harmful

**History**

**Date of printing** : 28/11/2006.

**Date of issue** : 28/11/2006.

**Date of previous issue** : No previous validation.

**Version** : 1

**Prepared by** : Not available.

Indicates information that has changed from previously issued version.

**Notice to reader**

*Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.*

**SECTION 1 - PRODUCT IDENTIFICATION AND COMPANY INFORMATION**

Product Name: **Sterile Pod - 5ml / 20ml**

Supplier: Wallace Cameron International Limited  
26 Netherhall Road  
Wishaw  
ML2 0JG

Tel.: 01698 354600

Fax.: 01698 354650

E-Mail : [sales@wallacecameron.com](mailto:sales@wallacecameron.com)

Emergency Tel : Wallace Cameron - +44(0)1698 354 715 – 9.00am to 5pm – Mon to Fri

**SECTION 2 - HAZARDOUS IDENTIFICATION**

HAZARDOUS

Not hazardous when used as directed.

Not for ingestion. Not for injection. Not to be taken internally. Keep out of reach of young children. Do not use unless the product is clear, or if there is any evidence of leaking prior to breaking the seal. Check for leaks by squeezing the bottle before use.

**SECTION 3 - COMPOSITION / INFORMATION**

COMPOSITION

Polypropylene bottle

Sterile solution of Sodium Chloride PH. EUR. 0.9% w/v in purified water B.P.

PRODUCT SIZES CURRENTLY AVAILABLE

5ml - 20ml

#### **SECTION 4 - FIRST AID MEASURES**

##### INHALATION

Not relevant. Inhalation unlikely.

##### INGESTION

Substantial oral ingestion may require the injection of a diuretic to remove excess sodium. Seek medical advice.

##### SKIN CONTACT

Current correct use of product, does not present a hazard when in contact with skin.

##### EYE CONTACT

Product is used to irrigate the eyes.

#### **SECTION 5 - FIRE FIGHTING MEASURES**

##### EXTINGUISHING MEDIA

This product is not flammable. Use fire-extinguishing media appropriate for surrounding materials

##### SPECIFIC HAZARDS

No specific hazards have been identified.

#### **SECTION 6 - ACCIDENTAL RELEASE MEASURES**

##### PERSONAL PRECAUTIONS

No special protective clothing is required.

##### ENVIRONMENTAL PRECAUTIONS

Normal disposal as per non contaminated material.

##### SPILL CLEAN UP METHODS

Not relevant. Product is saline water no specific requirements

#### **SECTION 7 - HANDLING AND STORAGE**

##### USAGE

Use as directed. Discard any surplus

##### STORAGE PRECAUTIONS

Store between 5°C \_ 25°C. Keep in original container.

## **SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION**

### ENGINEERING MEASURES

Not relevant

### RESPIRATORY EQUIPMENT

Not relevant

### HAND PROTECTION

No specific hand protection noted, product is used in eyes

### EYE PROTECTION

None required (see Section 4 – First Aid)

## **SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES**

### APPEARANCE

Clear liquid solution (water)

### COLOUR

No relevance (clear)

### ODOUR

No distinct odour or scent is present

### SOLUBILITY

Not applicable

### OTHER PROTECTION

None required.

## **SECTION 10 - STABILITY AND REACTIVITY**

### STABILITY

No particular stability concerns.

### MATERIALS TO AVOID

No incompatible groups noted.

**SECTION 11 - TOXICOLOGICAL INFORMATION**

TOXICOLOGICAL INFORMATION

Refer to section 2.

OTHER HEALTH EFFECTS

Unlikely to be ingested, See section 4.

**SECTION 12 – ECOLOGICAL INFORMATION**

ECOTOXICITY

Not regarded as dangerous for the environment.

BIOACCUMULATION

The product does not contain any substances expected to be bio accumulating.

**SECTION 13 - DISPOSAL CONSIDERATIONS**

DISPOSAL METHODS

Follow normal environmental health guidelines in disposing or recycling of product (container) in controlled incineration's or landfill

**SECTION 14 –TRANSPORTION INFORMATION**

GENERAL

Not classified as hazardous for specialised transportation.

**SECTION 15 - REGULATORY INFORMATION**
