Safescan TA-810

TIME REGISTRATION SYSTEM

WITH RFID READER

All Safescan time recording systems represent a new generation of all-round, user-friendly time registration. Whether you have an enthusiastic permanent team or mainly part-time employees; with the Safescan TA-810 you know which employees have clocked in and out at what time. This efficient and compact Time Attendance system is suitable for all organizations and can be installed in no time! Employees simply clock their arrival and departure time by holding their RFID card or key fob in front of the TA-810 terminal. Data can be exported via TCP / IP network or an USB stick to the corresponding management software (Safescan Software 4 Basic is included in the package for unlimited users). With its easy reporting functions, evaluating the attendance and work hours of your employees has never been easier.

- Has RFID reader
- Register up to 1.800 users
- Store up to 80.000 time records
- Management Software (Safescan TA Software 4) for unlimited users included
- Real time access to time records
- Export through USB and Ethernet TCP/IP
- Manage user data and time records

Safescan TA-810
