

## SAFESCAN MCS 3.0

### MONEY COUNTING SOFTWARE

#### RECHENERGEBNISSE AUF PC LADEN

With the Safescan 2665, 6150 and 6155 coin- and banknote counting devices you can literally balance the cash within two minutes. However, the Safescan 2665, 6150 and the 6155 are capable of much more! Choose the optional Safescan Money Counting Software and you can view, print and save all counting results on your pc. The counting results can be linked to individual employees or cash registers for optimal management of the money flows. With one glance you can see how much money – specified per type of coin or note – the cash register contains. The data can be saved, so you can build up a complete database with counting results. It is also possible to, for example, define reduction vouchers, ticket strips and saving stamps, so that these can also be included in the counting results.

- Upload counting results to PC
- Store counting results on PC
- Printing of counting results
- Complete overview of total counting history
- Adjustable preferences such as; start cash register and periodic overviews etc.
- Currency updates available via USB-interface
- Software in 7 languages; EN, DE, FR, IT, ES, PT and NL
