**SAFETY DATA SHEET**

---

**1 Identification of the substance or preparation and of the company/undertaking**

Product Name: **Phaser 7400 TONER (Black, Cyan, Magenta, Yellow)**  
 Datasheet Number: 3-1192 1. 1. 0  
 Product Part Number: 106R01077, 106R01078, 106R01079, 106R01080  
 106R01150, 106R01151, 106R01152, 108R00647,  
 108R00648, 108R00649, 108R00650  
 Chemical Name: None

Name of Supplier: Xerox Ltd.  
 Address of Supplier: Xerox Environment, Health & Safety  
 Bessemer Road  
 Welwyn Garden City  
 Herts. AL7 1BU  
 UK  
 Telephone: ++44 (0)1707 353434  
 Fax: ++44 (0)1707 353914  
 Responsible Person: Manager, Environment, Health and Safety  
 Emergency Telephone: Not applicable

---

**2 Composition/information on ingredients**

Chemical Name	Concentration	CAS Number	EC Number	R Phrases	Symbols
Stryrene/Acrylate copolymer	70-90%	Confidential		None	None
Wax	5-15%	Confidential		None	None
Pigment	3-10%	Confidential		None	None
Silica	1-7%	Confidential		None	None

---

**3 Hazards identification**

- There are no significant hazards associated with this product
- 

**4 First aid measures**

Contact with skin

- Wash with soap and cold water

Contact with eyes

- If substance has got into eyes, immediately wash out with plenty of water

Ingestion

- Give plenty of water to drink

Inhalation

- Remove patient to fresh air
- 

**5 Fire-fighting measures**

- Explosive Limits: Test data show that lower explosive limits are approximately 0.1kg/m<sup>3</sup>; upper limits are not well defined but could be up to 2kg/m<sup>3</sup>. Minimum ignition energies to ignite toner clouds and layers are of the order of 52.5 and 110.0mJ respectively. Ignition temperatures to ignite toner dust clouds and layers are approximately 496 and 388°C respectively
  - Flash point - not applicable
  - Products of combustion include oxides of carbon and toxic organic fumes
  - In case of fire use water spray, foam or carbon dioxide
-

---

## 5 Fire-fighting measures (....)

---

## 6 Accidental release measures

### Immediate Actions

- Toner, as with any fine dust, if suspended in air in the right proportion, can present an explosion hazard. Therefore, if a cloud is formed by accident, all sources of ignition should be removed until the spill is dealt with.

### Clean Up Actions

- Use a vacuum cleaner to remove excess, then wash with COLD water. Hot water fuses the toner making it difficult to remove
- 

## 7 Handling and storage

### Handling

- No special precautions are required for this product

### Storage

- Keep in a cool, dry place
- 

## 8 Exposure controls and personal protection

### Exposure Limits

- The UK HSE (EH40) recommends the following limits for dusts: 10 mg/m<sup>3</sup> (8hr TWA) total inhalable dust; 5 mg/m<sup>3</sup> (8hr TWA) total respirable dust
- Xerox Exposure Limits: 2.5 mg/m<sup>3</sup> (8hr TWA) total inhalable dust; 0.4 mg/m<sup>3</sup> (8hr TWA) total respirable dust

### Exposure controls

- No special precautions are required for this product

### Occupational exposure controls

- No special precautions are required for this product
- 

## 9 Physical and chemical properties

- Appearance: Powder (black, blue, red or yellow)
  - Odour: Slight odour
  - pH - not applicable
  - Vapour pressure - not applicable
  - Vapour density - not applicable
  - Melting point - not known
  - Insoluble in water
  - Density ~1 g/cm<sup>3</sup>
  - Flash point - not applicable
  - Explosive Limits: Test data show that lower explosive limits are approximately 0.1kg/m<sup>3</sup>; upper limits are not well defined but could be up to 2kg/m<sup>3</sup>. Minimum ignition energies to ignite toner clouds and layers are of the order of 52.5 and 110.0mJ respectively. Ignition temperatures to ignite toner dust clouds and layers are approximately 496 and 388°C respectively
- 

## 10 Stability and reactivity

- Stable
-

## 11 Toxicological information

### Inhalation

- Tests or information on other toners containing the toner constituents, on similar toners, or on the constituents, indicate no evidence of acute inhalation toxicity

### Contact with skin

- Tests or information on other toners containing the toner constituents, on similar toners, or on the constituents, indicate no evidence of acute dermal toxicity, and non-irritating/non-sensitising in human patch test

### Contact with eyes

- Tests or information on other toners containing the toner constituents, on similar toners, or on the constituents, indicate non-irritating to rabbit eye mucosa

### Ingestion

- Tests or information on other toners containing the toner constituents, on similar toners, or on the constituents, indicate no evidence of acute oral toxicity

### Carcinogenicity

- Carcinogens: None present

### Mutagenicity

- No evidence of mutagenic effects
- 

## 12 Ecological information

### Ecotoxicity

- On available data, substance is not harmful to aquatic life

### Mobility

- Insoluble in water

### Persistence and Biodegradability

- Not readily biodegradable

### Bioaccumulation Potential

- Bioaccumulation is insignificant

### Other Adverse Effects

- Presents little or no hazard to the environment
- 

## 13 Disposal considerations

### Classification

- European Waste Code: 08 03 18

### Disposal considerations

- No special precautions are required for this product
  - Landfill is the recommended method of disposal
  - If incineration is to be carried out, care must be exercised to prevent dust clouds forming
- 

## 14 Transport information

- Not classified as hazardous for transport
-

## 15 Regulatory information

### Classification and labelling

- Not classified as hazardous for supply
- No transport or user labelling is required

### Risk Phrases

- Not applicable

### Safety Phrases

- Not applicable
- 

## 16 Other information
